NOVEMBER-DECEMBER, 1967

AUBURN, ALABAMA

Due To Inadequate State Appropriations—

Trustees Increase Student Fees 20 Per Cent

Student fees at Auburn University will advance 20 per cent effective with the summer quarter in 1968. The Board of Trustees, in its quarterly meeting on the eve of Homecoming, approved the increase, a trust fund for scholarships, changes in the names of two schools, and also authorized planning for the Montgomery branch of Auburn University.

Fees for Alabama students will advance to \$120 from the present \$100 per quarter. For out-of-state students the increase is from \$200 to \$240. President Harry Philpott noted that the increased fee would leave Auburn under the national average for predominantly white land-grant schools. The increase has been made necessary, he told trustees, because of the small increase in appropriations approved by the last session of the legislature.

School Names Changed

By trustee action the School of Science and Literature (so named in 1928) becomes the School of Arts and Sciences. Title of the School of Architecture and the Arts is modified to School of Architecture and the Fine Arts.

The board approved the establishing of the Charles R. Barksdale Educational Trust Fund of \$25,000 as stipulated in the will of his widow, Elizabeth Doty Barksdale. Earnings from the fund will be used to provide loans and scholarships to students from the area of Macon, Bullock, Russell, Barbour and Pike Counties.

Also approved was the establishment of an American Legion Scholarship of \$200 annually.

Meeting for the first time since the legislature approved a Montgomery branch of Auburn University, trustees authorized the president to proceed with planning and negotiations for its development. Subsequently President Philpott has named a five-man committee to help plan the program for the branch which is to begin operation next September.

Chairman of the committee is Dr. Taylor D. Littleton, assistant to the vice president for academic affairs. Serving with him are Professor A. J. Hill, School of Business; Dr. Wayne Teague, School of Education; Dr. W. A. Tinscher, Director of Educational Services; Dr. W. L. Patrick, English department head.

Among resolutions adopted were ones commending the Auburn Plainsman, student newspaper, for excellence that has led to three national honors in the last two years, and President Philpott for continued leadership in academic and building programs and in accomplishments of students in the past year.

Half of the \$20 increase in fees will be used for instruction—for salary increases and for the ad-

dition of new faculty to meet increasing enrollments. Currently \$79.50 is used for instruction; in the schedule effective next summer, \$90. The present \$2 for Union debt retirement and \$6 for building fund will be combined and increased to \$12.50. The student activity fee will remain at \$6.50 but the health fee will increase from \$6 to \$7. New will be a \$4 allocation to athletic funds though this represents a net gain of only \$2.13 as currently \$1.87 of the student activity fee is for athletics. Under the new allocation the Sports Arena will be released for general use.

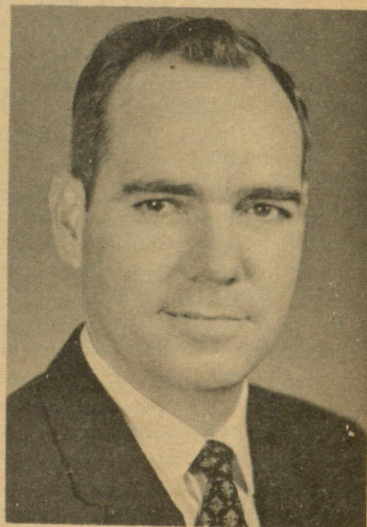

Phillips Named Auburn Bursar

Ernest A. Phillips '64 is new bursar of Auburn University, succeeding recently-retired Roy C. Cargile '28. W. T. Ingram, treasurer and business manager, announced the appointment, effective Nov. 1.

Phillips had been assistant bursar since 1964 when he received the B.S. in business administration. A native of Blount County, he was employed by the First National Bank in Auburn while a student. Before coming to Auburn he worked with retail businesses in Oneonta.

The new bursar is active in the Auburn Civitan Club and the Parent-Teacher Association. He is past president of the Auburn High School Band Parents Association, and is a member of Phi Kappa Phi. He is a deacon in the First Baptist Church of Auburn.

Before coming to Auburn, Phillips directed music and taught Sunday School at Straight Mountain Baptist Church. He was a charter member of the Committee of 50 for Development of Blount County and president of Appalachian Community Club.

PHILLIPS . . . new bursar

AUBURN-AIR UNIVERSITY TO ENTER GRADUATE PROGRAM—Auburn University President Harry M. Philpott and Lt. Gen. John W. Carpenter III, commander, Air University, Maxwell AFB, are shown here planning the transfer of the co-

operative master's degree program from George Washington University to Auburn University, effective next fall. In background are Montgomery Mayor Earl James, left, and Bill Joseph, president, Montgomery County Board of Commissioners.

Replaces George Washington University Program—

AU To Assume Air University Program

Operation of a cooperative master's degree program that has been offered at Air University since 1961 by George Washington University will be assumed next fall by Auburn University.

Announcement of the transfer was made in early November by Lt. Gen. John W. Carpenter, III, commander of Air University; Dr. Lloyd H. Elliott, president of George Washington University; and Dr. Harry M. Philpott, president of Auburn University.

In making the announcement, Dr. Elliott and General Carpenter stated that termination of George Washington University's operation of the program is the result of mutual agreement.

General Carpenter also pointed out that George Washington University has compiled an enviable record of educational service to Air University and the Air Force

since the degree program was initiated at Maxwell. More than 1,300 Air University students have earned master's degrees in the program since 1961.

Proximity A Factor

Both General Carpenter and President Philpott agreed that Auburn University, due to its close proximity to Maxwell and its plan to open a branch in Montgomery, is in a unique position to offer advanced educational training to students at Air University.

"Auburn University is delighted to make its graduate programs

available at Maxwell AFB and to broaden its position of service to the many highly qualified personnel at the Air University," stated Dr. Philpott.

Degrees In Two Areas

The program was established originally to offer students of Air War College the opportunity to earn a master's degree in international affairs while attending the Air University resident course. It was expanded in 1962 to include students at Air Command and Staff College, enabling them to work toward a master's degree in business administration or public administration. Auburn University will offer advanced degree programs in the areas of political science and business administration.

Victory, Reunions Mark Colorful Homecoming

Montgomery Advertiser photo by Ed Robinson

TIME BURNISHES THEIR LOYALTY—A sure sign of Homecoming is the presence of these two devoted sons of Auburn, Dr. Paul S. Haley '01, left, and Jacie L. Esslinger '08. Mr. Esslinger makes the trip from his home in LaMesa, N.M., each year.

Auburn's 19th Ph.D. Program—

Forestry Offers Doctorate

Forestry will become the nineteenth program in which Auburn University offers the doctoral degree. President Harry M. Philpott has approved the program to be launched formally in September, 1968.

The Graduate Council recommended approval after a two-year study of faculty, facilities, curriculum, and library in the

Department of Forestry. Advanced degrees that may be earned in forestry now include the Master of Science, begun in 1952, and the Doctor of Philosophy, both to be earned only under the thesis option.

For the M.S. degree, a minimum of 30 hours in a major subject area and 15 hours in a minor subject area are required beyond the B.S. degree. For the Ph.D. degree, respective minimums are 60 and 30 hours, explained Dr. W. B. DeVall, department head. Majors and minors may be in forest ecology (silvics), forest economics, forest genetics, forest measurements, forest photogrammetry, forest soils, tree physiology, and wood technology. Majors and minors in forest pathology and forest entomology are available through the Department of Botany and Plant Pathology, and the Department of Zoology-Entomology, respectively.

Screening Committee Seeks New Dean For Engineering School

A screening committee has begun its assignment of nominating a successor to Dean Fred H. Pumphrey of Auburn's School of Engineering.

Although Dean Pumphrey does not reach mandatory retirement age until June, 1969, AU President Harry M. Philpott said the successor will be selected so that he may be involved in the accreditation visit by the Engineers' Council for Professional Development during the years 1968-69.

Faculty of the School of Engineering have named as committee members Dr. Joe Mize, industrial engineering; Dr. W. A. Shaw, mechanical engineering; and Dr. Kenneth Harwell, aerospace engineering. Members appointed by the president are Dr. A. T. Fromhold '57, physics; and Dr. Frank Davis, Speech.

Members of the committee have selected Dr. Harwell to serve as chairman. Dr. Philpott said that those having suggestions and recommendations of persons for the position should contact members of the screening committee.

Brown Seeks Return Of Lost Service Pin

Having searched unsuccessfully through conventional channels, R. C. Brown has asked *The Alumnews* to help him search for a DuPont company service pin which he lost Homecoming weekend. The pin is oval shaped with four small diamonds around the "DuPont" name. Brown believes the pin was lost at the stadium near seats 17-20 of row 9 in Section 5, or at the cafeteria in the Auburn Union. If by chance an *Alumnews* reader found the pin, Brown would greatly appreciate its return to him at 35 Winthrop Avenue, Birmingham, Ala. 35213.

An unexpected margin of victory, election of new alumni officers, a fiftieth reunion by the Class of 1917, plus heaping measures of the traditional color and conviviality were highlights of Auburn University's University's Homecoming weekend Nov. 9-11.

Auburn's surprising 1967 football squad continued the record of a Jordan-coached team never having lost a Homecoming contest. Frosting on the cake for a crowd of about 42,000 was the 36-0 margin of victory over Mississippi State.

At Saturday morning's annual business meeting of the Auburn Alumni Association, the nominating committee's slate of officers was elected unanimously. New president for the coming year is J. Gilmer Blackburn '50, mayor of Decatur and practicing attorney there, who also is vice chairman of the Auburn University Foundation. He succeeds Ken L. Lott '41, Mobile bank officer.

New Committeemen

Elected to two-year terms on the Association's Executive Committee were James M. Brown '46, Birmingham plumbing and heating contractor; M. H. McCartney '27, Gadsden road contractor; and Dr. W. L. Martin, Jr., '53, vet-

erinarian of Chattanooga, Tenn. They succeed retiring members Dcn A. Goodal '42 of Gadsden, C. Leonard Hudson '49 of Decatur, and Ruel Russell, Jr. '48 of Birmingham.

Members beginning their second year on the committee are A. Kirby Clements '40 of Montgomery, L. Seawell Jones '40 of Selma, and Glenn Mitchell '35 of Hampton, Ga.

Lott Reports On AAG

Following a welcome and brief "state of the university" report, Auburn President Harry M. Philpott cited Auburn Annual Giving as an example of alumni loyalty that is of vital importance to the institution. President Lott, noting that several large gifts in 1965 and 1966 had been of a "one-time" nature, expressed the hope that participation in the 1967, running about 500 behind 1966, would be substantially increased with end-of-the-year gifts. Currently, Annual Giving is funding Alumni Professorships. To date,

12 of these awards with accompanying stipends, have been made.

In addition to welcoming the 28 members (of 93 living) of the Class of 1917 back for their 50th anniversary reunion, President Lott also recognized senior members to the Association, among them former Association president Charles Harold '00 of Atlanta, Trustee Paul S. Haley '01 of Birmingham, and Jacie Esslinger '08 of LaMesa, N.M. The trio are among those who are regular attenders at every Homecoming.

The new president of the alumni association is a native of Auburn and while a student here directed the campaign that resulted in students allotting a portion of their activities fee to finance the Auburn Union building. Blackburn holds a law degree from the University of Alabama and the LL.M. from New York University. He specializes in taxation, corporate and probate law and has headed the Alabama Bar Association tax section.

Active in Decatur affairs, he was first elected mayor in 1962. His wife is the former Phyllis Birdsong '51 of Albertville.

Montgomery Advertiser photo by Ed Robinson

ALUMNI LEADERS — Outgoing President Ken Lott, foreground, and incoming President J. Gilmer Blackburn stand with four members of the Alumni Association Executive Committee following the annual meeting on Homecoming morning. Behind

Blackburn are James M. Brown, M. H. McCartney, Glenn Mitchell, and J. B. Sarver, Jr., executive secretary. Brown and McCartney begin Executive Committee terms; Mitchell, his second year. Third new committeeman is W. L. Martin, not present.

THE AUBURN ALUMNEWS

MISS HOMECOMING—The Auburn student body elected Connie Blanton, a sophomore from Gadsden, as Miss Homecoming 1967. Connie is a majorette, a Glomerata beauty, and Magnolia Dorm Sweetheart.

HOMECOMING COFFEE—One of the highlights of Homecoming at Auburn University was the annual Home Economics Alumni Association coffee held prior to the game. From left, Mrs. Mallette Goggans, assistant to the dean, School of Home

Economics, Mrs. J. M. Sanders of Brundidge, Ga., Mrs. Robert H. Allgood of Montgomery, Mrs. S. J. Slay Jr. of Birmingham, and Dr. Ann Caudle, associate professor of home economics at Auburn University and president of the HEAA.

HOMECOMING — 1967

THE WINNER!—The Auburn hotrod tiger in his TKE-mobile left his Mississippi Bulldog competition far behind in the decoration which won first prize in the annual homecoming competition. In the background an enlarged *Plainsman* facsimile headlines the story. Tau Kappa Epsilon fraternity

constructed the winning decoration. Second place winner was the Pi Kappa Alpha depiction of a bewildered Bulldog towing a Tiger-driven covered wagon as the "Plainsmen roll on." Pi Kappa Phi won third place, and Phi Gamma Delta and Delta Upsilon won honorable mention.

ONE OF THREE—Senior End Freddie Hyatt catches one of three touchdown passes he scored against Homecoming opponent Mississippi State. Hyatt has set Auburn records for nearly every phase of offensive end play.

FRANKLIN LECTURE GRANT—On Nov. 30, The John and Mary Franklin Foundation announced a \$30,000 grant for a Franklin Lecture Series in Sciences and Humanities at Auburn. W. Kelly Mosley '24 left, chairman of the board of trustees of the Franklin Foundation, and John O. McCarty, second from left, made the formal presentation to

Dr. Harry M. Philpott, seated, and Dr. Wilford Bailey, Auburn vice president for academic affairs, right. The grant will bring prominent men of the sciences and humanities to the Auburn campus for lectures and consultations on the theme of the meaning of science in relation to the nation's culture.

To Bring Distinguished Scholars, Scientists—

Franklin Grant Provides Lectures

The John and Mary Franklin Foundation on Nov. 30 announced a grant of \$30,000 for an initial three years of the Franklin Lectures in Science and Humanities. The grant provides for a series of distinguished teachers, scientists and scholars to visit the Auburn campus for three or four days for formal lectures and consultation.

W. Kelly Mosley '24, chairman of the board of trustees of the Franklin Foundation, and John

O. McCarty, secretary, made the formal presentation to President Harry M. Philpott.

Culture And Science

Lecturers will include men of stature and leadership in engineering education, eminent scholars in the humanities who have an interest in engineering and the sciences, and prominent scientists. The theme of the series will be the meaning of science in relation to the nation's culture.

"Auburn is extremely fortunate in being able, through the Franklin Foundation, to enrich its graduate and undergraduate programs through this important lecture series. In this manner we join prominent engineering educators and universities nationwide in their general support of more humanistic studies for students in engineering and other scientific professions," Dr. Philpott said.

"We are committed to the continual development of strong technical and professional programs, but we must provide for all students the liberating educational experiences which enhance their understanding of themselves and their responsibilities to improve our national life," Dr. Philpott added.

Founder An Inventor

The John and Mary Franklin Foundation was established in 1955, with the sole objective of advancing worthwhile causes in charitable, religious, scientific and educational fields.

The late Mr. Franklin, a native of Cleveland, Ga., was a churchman, inventor and businessman. He left the ministry to enter business in Atlanta. Among his inventions were equipment for washing and sterilizing soft drink bottles. He also formed the Audi-

chron Co., to manufacture equipment used in automatic answering devices.

The lecturers will be selected by a faculty advisory committee composed of Dr. Donald M. Vestal, mechanical engineering, chairman; Dean J. Ingraham Clark, School of Architecture and Fine Arts; Dr. Norman A. Brittin, Hollifield Professor of English; Prof. Fred M. Hudson, civil engineering; Dr. Howard E. Carr, physics; and two student representatives. The project leader for the lecture series is Dr. Taylor D. Littleton, assistant to the vice president for academic affairs.

Agriculture Grad Aids Vietnamese

Marine PFC Bill Taylor '65 is putting his Auburn agricultural training to use in Vietnam with the agricultural program of the 3rd Marine Division's civic action program at Phu Bai. Bill has introduced the Vietnamese villagers to carrots, onions, radishes, watermelons, peppers, and lettuce among other food crops to help raise the village economy.

The CAC News of the combined action companies calls Bill the "catalyst and primary reason for the success" of the agricultural program. He teaches the Vietnamese to use new tools and through experimental gardens tended by villagers and the Marines, shows them how the new crops grow in the Vietnamese soil.

Bill knows very little Vietnamese and the villagers know little English. An interpreter is rarely available. But sign language, demonstration, finger-drawn charts in the dirt, and an assortment of workable sounds get his ideas across to the Vietnamese so well that his co-workers think he should have a degree in salesmanship as well as agriculture.

Receive Schweitzer Medal—

Vet Alumni Share Honor

Two graduates of Auburn University's School of Veterinary Medicine shared a signal honor presented in Washington, D.C., in late November. Dr. Francis J. Mulhern '45 and Dr. Earl M. Jones '51 were co-winners of the Albert Schweitzer Medal for outstanding contributions to animal welfare.

The award was instituted in 1954 by the Animal Welfare Institute and first presented to the late Dr. Schweitzer. Last year Senators Warren Magnuson and A. S. Monroney were the first co-winners for their sponsorship of the Laboratory Animal Welfare Act. Drs. Mulhern and Jones were named 1967 recipients for their leadership in launching the administration of that act, designed to reduce mistreatment of animals in research and the stealing of pets for such purposes.

The two Auburn graduates also were cited for their work over the years in preventing animal suffering through eradication of animal diseases.

Other past winners include the late Rachel Carson, Vice President Hubert Humphrey and author-journalist Ann Cottrell Free.

Dr. Mulhern, a native of Wilmington, Del., directs the animal health division of the USDA's Agricultural Research Service. Previously he has been honored by Auburn with the Phi Zeta award in 1955 for his work in eradication of foot-and-mouth disease and in 1960 by Omega Tau Sigma for meritorious service.

Dr. Jones, a native of Birmingham, now heads the staff that administers the Laboratory Animal Act. Probably the most notable of several successful disease eradication programs in which Dr. Jones has worked is that against screw worm infestation.

A.P. Perez To Head Florida Power Co.

On Sept. 21, A. P. Perez '32 of St. Petersburg, Fla., was elected president and chief executive officer of Florida Power Co. He was formerly a vice president in charge of operating departments. An electrical engineer, Mr. Perez joined the company in 1936 as a hydro-plant operator at Jackson Bluff and the following year transferred to Bayboro Plant. He became an engineer in the engineering department in 1938 and later spent several years as a statistical engineer in the accounting department.

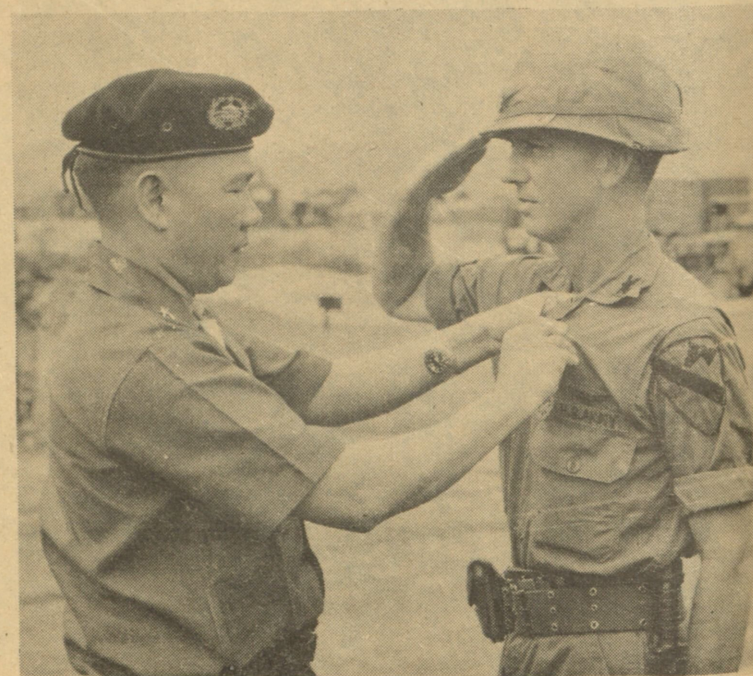

In 1944 he was promoted to assistant superintendent of transmission and distribution; in 1946, to operations analyst, and in 1951, to chief of the electrical design department. Elected vice president in 1960, Mr. Perez became responsible for all system operations in 1964. In 1966, he was named to the board of directors.

Mr. Perez is a member of the Florida Engineering Society and the National Society of Professional Engineers. He is a registered professional engineer in Florida and Georgia.

George Moore Wins Conservation Prize

The director of the Kansas Forestry, Fish and Game Commission, George C. Moore '38, has been named Kansas "Conservationist of The Year." Mr. Moore has headed the Kansas Wildlife commission since 1961. The conservationist award, given by the Kansas Wildlife Federation and Sears Roebuck Foundation, recognized Mr. Moore for his land acquisition policy, addition of a staff of biologists, new concept of lake building using underground water, and development of stable finances of the commission.

Mr. Moore, who received his master's from Auburn in 1940, will compete in Washington later this year for the national conservation awards with conservation winners from the other states.

CROSS OF GALLANTRY—Maj. Wilson C. Wooley '52, USA, salutes as General Hoang Lam, commanding general of the Vietnamese I Corps, presents him the Vietnamese Cross of Gallantry with Silver Star. Maj. Wooley, a troop commander in the Troop B, 1st Battalion of the 1st Air Cavalry Division's 9th Cavalry, received the award for gallantry during combat.

THE AUBURN ALUMNEWS

Art Faculty Take Prizes In Area Shows

Department of Art faculty have distinguished themselves by winning top awards in recent shows throughout the area.

Hugh Williams has just won the \$1,000 Purchase Award in the Columbus Square Art Show held in early November. The work, an abstract watercolor "Manhole," will become the property of the Columbus Museum of Art. Honorable mention was received by Robert Shelton for an oil.

In the 38th Annual Jury Show of the Alabama Art League which opened at the Montgomery Museum of Art on Nov. 5, Tom Mims won the top Loveman, Joseph and Loeb Purchase Award of \$200 for an oil painting. It will hang in the Birmingham Museum of Art.

The Alabama Gas Company Purchase Award for \$100 for the best watercolor went to Brack Walker and will become the property of the Montgomery Museum of Art. In the same competition the Maryon Pittman Allen Purchase Award of \$100 was won by Shelton for an oil painting.

The Loveman's Purchase Award of \$200, one of two top awards, went to Brack Walker in the 28th Annual Watercolor Competition at the Birmingham Museum, sponsored by the Alabama Watercolor Society.

Presenting current or recent one-man shows are Prof. Maltby Sykes, at Birmingham-Southern College; Walker, at Mississippi College; and Conrad Ross at Bradley Lounge, Auburn University.

Assistant professor Donald Hatfield won second prize for an oil in the Albany Arts Festival in Albany, Ga. last month.

DEBATE COACH HONORED

—Jim Vickrey, coach of the Auburn debate team, has been named to the National Debate Tournament Committee. He will be one of six debate coaches in District VI, which includes debate teams in seven Southern states. This subdivision of the National Committee will have a tournament March 22-23, at which representatives will be chosen for the national tournament. A former member of the Auburn debate team, Vickrey has been debate team coach and an instructor in the speech department here for two years.

CHEMISTRY GRANT — Dr. Paul Melius of the School of Chemistry has been awarded a National Institutes of Health grant for a continuing study of kidney leucine aminopeptidase, an enzyme present mainly in the hog, which is also found in other animals and humans. The study will determine the fundamental chemical properties of the enzyme. The award of \$25,000 extends over a three-year period.

AIRPORT SEMINAR — A group of Southeastern airport managers met at Auburn on Nov. 3 to plan their annual seminar, to be held here March 4-6. The seminar, sponsored by Auburn's aerospace engineering department and the Southeastern Airport Management Association, will study airport safety, planning, operations, financing and technology. Repre-

sentatives from the Federal Aviation Agency, the aeronautical departments of Alabama and Mississippi, and 11 Southern states will participate.

ART EXHIBIT — An art exhibit by Conrad H. Ross, an assistant professor in the art department, opened in the Bradley Lounge of the Auburn Student Union on Nov. 5. Approximately 49 prints and drawings were on display. Ross did much of the work on a grant-in-aid from the university.

ENGINEERS HEAR FORBES

— Edward C. Forbes '38, vice president group executive for the Worthington Corporation, was featured speaker at the Student Engineers' Council fall banquet Nov. 17. Forbes spoke on "Future Challenges and Opportunities in American Businesses." His own career has been in engineering and management in this country, South America, and Europe.

The banquet honored fall initiates of engineering honorary and professional societies.

CHRISTMAS MUSIC — Auburn's 150-voice Choral Union and 50-voice Concert Choir presented Haydn's "The Creation" at the Auburn Methodist Church on Nov. 28. On Dec. 5, the Concert Choir offered a Christmas program in the Auburn Student Union. Featured was Bach's "Cantata No. 150" and Benjamin Britten's "Ceremony of Carols." Both choirs were directed by Dr. Robert Calder, assistant professor of music.

HUMBLE MAKES AWARD TO AUBURN — Humble Oil Company's Educational Foundation has awarded \$5,000 to Auburn University for unrestricted use in three areas of study. Seated from left are Terry A. Kirkley '57, Baton Rouge Refinery; G. E. Uthlaut '54, Southeastern Production Division, New Orleans; Auburn University President Harry M. Philpott. From left, standing, Rod

L. Grandy '55, Baytown, Texas, plant; Head Professor of Chemical Engineering R. E. Wingard '33, Physics Prof. Ray F. Askew, Engineering Dean Fred H. Pumphrey, and Chemistry Dean Richard Saunders '23. The grant provides \$2,500 to engineering, \$1,500 to chemical engineering, and \$1,000 to applied physics. Humble also matches individual gifts of alumni employees.

LECTURES — Dr. S. H. Wittwer, professor of plant physiology at Michigan State University, presented a lecture entitled "Can the World Feed Itself," on Nov. 9 in Langdon Hall. The lecture was co-sponsored by the Schools of Agriculture and Home Economics. The Auburn University Visiting Scientist Program sponsored two lectures by Dr. Marvin Marcus, chairman of the

department of mathematics at the University of California at Santa Barbara, on Nov. 9 and 10. Dr. Marcus lectured on "A Survey of Generalized Matrix Functions" and "Some Problems in Multilinear Algebra."

PHARMACY SEMINAR — C. V. Timberlake, vice-president of the National Pharmaceutical Council, was the principal speaker at the Auburn University-Alabama Pharmaceutical Association Seminar in November. Timberlake told the group that the 130 pieces of legislation pertaining to pharmacy pending in the 90th Congress are mainly a result of the Medicare and Medicaid programs. In his opinion, public officials underestimated

(Continued on page 7)

CLASS OF 1917 — Homecoming was occasion for the 50th anniversary reunion for returning members of Class of 1917. Shown above, left to right, first row are Mrs. Lassiter, Henry P. Trawick, Mrs. Trawick, James E. Shotts, Mrs. Shotts, Mrs. Barbara Wright Easter, E. C. Easter, Mrs. Wood, Tom W. Wood, Mrs. Mary Crenshaw Wideberg, Carl Wideberg;

Second row: Edward B. Henry, Mrs. Henry, William R. Lassiter, Charles M. Cherry, Mrs. Cherry, Dr. Seth J. Floyd, Mrs. Floyd, L.

Pierce Hodnette, Mrs. Hodnette, Mrs. Bowling, George R. Bowling; Third row: Herbert W. Thomason, B. N. Lauderdale, Jr., '47, Dr. Byron N. Lauderdale, John M. Ward, Mrs. Robertson, Joe P. Robertson, Mrs. Turley, Lovell L. Turley, Mrs. Ford, Gordon Ford, Mrs. Annalee Edwards Smith, L. T. Smith;

Fourth row: Dr. Wayne W. Hall, Dr. Charles L. Isbell, Mrs. Isbell, L. M. Ware, H. M. Lewis, William J. Howard, George E. Weber, W. K. Askew.

Time Is Fleeting

Hopefully, the Wallace administration will follow through in the immediate future in its announced intention to appoint members for the remaining vacancies on the Alabama Education Study Commission. The absence of such appointments to date has prevented the possibility of a quorum for the Commission. Eight of the members are state officers or legislators. The Governor must name 13 others.

Time is of the essence if the Commission is to make any significant response to its charge by the last session of the state legislature to study public education in Alabama and make recommendations about its direction and resources. That report is to be ready when the regular session of the Legislatures convenes early in 1969, now little more than a year away.

In the field of policy the Commission may wish to study the advisability of a permanent agency to perform on a continuing basis the job which the Commission will be doing on a one-time basis. Such an agency could render a greater service over the long haul, I believe, than a state board of regents with greater administrative authority. Given adequate staff and enlisting respected leadership from across the state, such a commission would heighten public confidence in all segments of the education system and promote greater efficiency by removing much of the atmosphere of "crisis" that surrounds allotment of educational revenues.

Calling for attention also are such questions as the impact of public policy on private institutions, the growing role of the junior colleges, the future of the Negro colleges, the problem of professional education—particularly medicine—and continuing education.

Many of these problems obviously are closely tied to the problem of resources, in turn related to the tax structure. Here, in my opinion, alumni can begin to create an atmosphere of objective inquiry and facing of responsibility. Choices are going to have to be made. Quality education costs more than lip service. As corporate officers, as individual taxpayers, as property owners, as industrialist or agriculturalist, as producer or consumer, most alumni by virtue of their position have an opportunity to influence the decisions that lie ahead.

Meanwhile, the study commission must be organized and given adequate time for the responsibility placed upon it.

* * * *

Long-Remembered

The Alumnews is seldom directly involved in matters athletic, which gives me opportunity to acknowledge the contribution of Buddy Davidson and Mel Pulliam of the athletic department in covering the sports scene for our readers. But on the heels of that 7-3 season finale which must have been far more of a bitter pill for them than for the most rabid fan, it seems appropriate to salute a squad, and particularly its senior leadership, for a reminder of what determination can do.

This is the squad that was written off in early September to post at best a 4-6 record. Even in pre-season practice they indicated they had determined otherwise. How little it would have taken to make their creditable 6-4 an 8-2 record. Their real record, I believe, is in their unity and team spirit. No squad within my years here has demonstrated more all-out effort. I salute them and their coaches. They will be long-remembered.

ONLY YESTERDAY

50 Years Ago:

The Auburn Alumnews reported that "at least one additional instructor" and "a number of additional courses" would be added to Auburn's still new department of education. The move was to help meet the demand for college graduates required by a regulation of the Smith-Hughes Act which provided federal aid for high school teachers in vocational education. The regulation sets minimum salary of such teachers at \$1,400.

Ninety-one Auburn alumni received commissions from the Second Officers' Training Camp, making a total of 372 Auburn officers in the Army.

The Auburn ROTC unit received new olive drab uniforms from the War Department.

Coach Mike Donahue's football team lost to Davidson 21-7, defeated Vanderbilt 31-7, and held Ohio State to a scoreless tie to finish the season with a record of 6-2-1. The Tigers held Ohio State, the Western Conference champions, four times inside their own

ten-yard-line in what was considered a major upset. Morgan Blake, sports editor of the Atlanta Journal, said, "morally it was one of the greatest victories in southern football."

The Wirts defeated the Websterians in the annual Thanksgiving debate. "The enthusiasm manifested was significant of the increasing interest in the societies."

25 Years Ago:

The Auburn Players' production of *Macbeth* was held over for a second week of performances because of overflow crowds at the Y Hut. Robert Blackburn played the title role, and Marjorie McKinnon was Lady Macbeth.

In campus elections, Frances Ellis of Centre was elected Miss Homecoming, and Ann Sherer of Quinton was chosen Miss Auburn.

A Thanksgiving dinner of roast turkey, dressing and gravy, cranberry sauce, cream potatoes, but-

(Continued on page 7)

Burton Writes Boys' Book

The *Adventures of Dixie North* by Herbert Burton '47 (Gadsden Publishing House, \$3.95).

In his first book, *Alumnus* Herbert Burton '47 has combined the romantic adventures of the life every boy lives in his daydreams with autobiographical incidents from his growing-up days at Jasper to hold the interest of a young reader and his parents as well.

Dixie North, "universal orphan," has something for every-

Herbert Burton '47

one: friends, enemies, mysteries, hair-raising adventures, the colorful excitement of life with a circus, typical southern hospitality, and moralizing. For some of us there is too much moralizing which detracts from the movement of the story; however, Mr. Burton says his major concern was to deliver a "moral message for young people in an age when proper values are too little stressed."

Burdened with adult responsibilities at age 11, Dixie shares his "personal secret" with no one but lives a lie with such ingenuity that his best pal Chuck never suspects his loneliness.

Regional critics have favored

Dixie North. Crosswill Productions has bought the movie rights, and Pat Boone is setting the poem from the book "Dixie North" to music. Hence one may predict that numbers of young readers will meet Dixie in his current adventures and continue his acquaintance in the book which Mr. Burton is now writing about Dixie's high school and Auburn days.

Of course Dixie goes to Auburn. His creator, holder of Au-

General Edition

PRESIDENT: J. Gilmer Blackburn '50; **EXECUTIVE SECRETARY:** Joseph B. Sarver, Jr. '37; **ASSOCIATE SECRETARY:** George (Buck) Bradberry; **EXECUTIVE COMMITTEE:** A Kirby Clements '40; L. Seawell Jones '40; Glenn Mitchell '35; James M. Brown '46; M. H. McCartney '27; W. L. Martin, Jr. '53; and Ken L. Lott, Jr., '41, ex-officio.

THE AUBURN ALUMNEWS is published eight times a year at six-week intervals, September-July, by the Auburn Alumni Association, Auburn University, Auburn, Ala. (36830). Fowler Dugger, Jr., is editor; Kaye Lovvorn '64, assistant editor; Buddy Davidson '64, sports editor; Les King '51, AU photographer. The Auburn Alumnews was entered as second class matter February 4, 1946, at the Post Office, Auburn, Ala., under Act of Aug. 24, 1912.

Here And There—

Lest We Forget

Jerry Roden, Jr., '46

On Sept. 16, 1959, Branimir Djordjevic, an emigre from communist Yugoslavia, joined the Auburn University faculty as a professor of Aerospace Engineering. His coming here was noteworthy enough for

Roden

Aerospace Head Professor Robert Pitts to give *The Alumnews* advance notice of the anticipated event. For Branimir Djordjevic, after fleeing the regime controlling his native land, had established in England first and then elsewhere in America a reputation as a brilliant young aero-

nautical engineer.

At Auburn, Professor Djordjevic fulfilled those high expectations that Professor Pitts and others had before his arrival. That Slavic name has since appeared many times in *The Alumnews* and other papers in reports of successful aerospace research that has brought credit to our university. Furthermore, Professor Djordjevic equalled in the classroom his research feats in the laboratory. He was, says Professor Pitts, "one of the most dedicated teachers it has been my privilege to know."

On Nov. 10, 1967, Branimir Djordjevic died in Lee County Hospital after a brief illness—he died from complications following an ulcer operation. After a memorial service here, the earthly remains of Branimir Djordjevic returned to Yugoslavia.

Thus quickly, in three short paragraphs can one summarize the story of one man's life. But those few lines of type, which so often seem inadequate, appear unusually insufficient in this case. And it is not enough to add explicitly that Branimir's work will live on through the students he has taught and through the published reports of his research findings. Neither is it enough to say further that Branimir left behind in Auburn and elsewhere in America a fine family—his wife Nada, their son Vic, and their daughters Lillian and Violet.

For Branimir Djordjevic was more than the sum of good father, outstanding research engineer, and excellent teacher—even though that indeed is a note-worthy sum. What Branimir was more than that sum is difficult to say succinctly: it defies easy phrases. But there is a need to attempt to say it—not only to pay a tribute due, but to avoid losing a heritage he left us, to keep alive in memory a lesson that he taught many of us here, many of us who could not have followed him through an explanation of the first fundamentals of aerospace science.

Branimir was a stimulating conversationalist—a cup of coffee with him on the dullest of days was always a scintillating experience—because he was passionately involved in every facet of human existence. Touch on any subject at some level above mundane or gossipy triviality and Branimir would lead the discussion on to greater heights. He was, it seemed, as much at home with literature, philosophy, history, or theology as with aerospace engineering. He was interested not just in what a thing might mean to him personally, or to Auburn

THE AUBURN ALUMNEWS

Auburn Alumnnalities

'15 Mr. and Mrs. Millard Hosmer Pearson celebrated their 50th wedding anniversary at a reception Nov. 5 given by their children. Mr. Pearson, former State Director of Farmers Home Administration with the USDA retired in 1954. The Pearsons live in Auburn.

George W. Owen, Jr., lives in Metairie, La.

'17 L. M. Ware, head professor emeritus of horticulture at Auburn, has been elected a Fellow of the American Society for Horticultural Science. Professor Ware served Auburn University for 41 years before his retirement June 30, 1966.

'24 Henry W. Sweet of Bessemer and his family turned out in full force for the Auburn Homecoming weekend. Attending all the festivities were the Sweets and daughters Patricia '61, Carol Jean '53, and Lucile '50, their husbands and children. Two of the daughters are married to alumni: Pat to Burke Sylvest '59, and Carol Jean to B. Frank Hester '53.

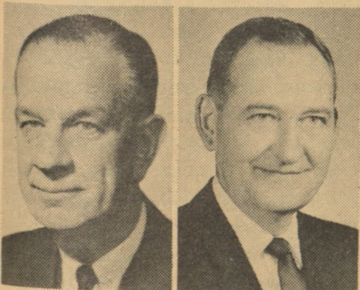

Here And There

(Continued from page 6)

University, but in what it might mean to humanity throughout the world, today and down through the generations to come.

It seems never to have occurred to Branimir Djordjevic simply to do the work required of him and then to take his ease. He was involved in mankind, passionately and compassionately, but not, one should add, soft-heartedly. His brilliant mind was far too incisive to accept the ready excuse and the easy solution. He placed upon himself the demand of manhood and inspired others to attempt to do likewise. Auburn will not, I trust, forget the example of Branimir Djordjevic and others of a similar metal who have left their imprint here before.

Alumni In The News

Gilmer

Wise

Ben S. Gilmer '26, president of American Telephone Co., is a charter appointee to the Berry College Board of Visitors. The Board of Visitors, made up of 17 prominent executives, will meet on the Rome, Ga., campus annually to advise the college on its programs, facilities and development.

Ulay K. Wise '41 has been promoted to area supervisor for Gulf Oil Corporation's Agricultural Chemical Division. He is now located in Grand Island, Neb., where he is concerned with the marketing of Gulf fertilizer and farm chemicals in Nebraska and the Northwestern states. He has been with Gulf since 1954.

'25 Alywyn Y. McConnell now lives in Jupiter, Fla. His classmate **Joseph C. James** has moved to Tampa, Fla., and **Robert L. Lock** has a new address in Birmingham.

'26 Ben C. Gilmer, president of American Telephone and Telegraph Co., was recently honored by the Older Adult Fellowship Class of the First Methodist Church of Montgomery. The group presented Mr. and Mrs. Gilmer a unique all-silk patchwork coverlet made by some fifty members of the church. The gift was presented in "appreciation of a hometown boy who has made his family and friends most proud of his success in the business world."

'27 NEW ADDRESSES: **Richard D. Yarbrough**, Jackson, Miss.; **Rodney G. Carter**, Tusculumbia.

'28 **Howard L. Tabor** has resigned after 13 years as city engineer in Lawrenceburg, Tenn., and opened a private engineering business in Pulaski, Tenn. He, his wife Loretta, and son Jimmy also operate a large dairy and livestock farm near Pulaski.

NEW ADDRESS: **Samuel T. Shepherd, Jr.**, Leeds.

'30 **K. P. Kimbrough** now lives in Dadeville.

'31 NEW ADDRESSES: **Mrs. Mary Louise Rowe Bash**, Niagara Falls, N.Y.; **Clarence C. McGraw**, Dayton, Ohio.

'32 **R. W. Montgomery** of Auburn is president-elect of the Alabama Rehabilitation Association. Dr. Montgomery is head of the Vocational, Technical and Practical Arts Department at Auburn.

'33 **Mary George Lamar** was honored by Sigma Lambda chapter of Kappa Delta Sorority on Oct. 23 which gave a donation to the Diamond Anniversary Fund in her honor. The national

Burton Writes

(Continued from page 6)

burn student number "1," came to the Plains in 1940 on a football scholarship where he played football and basketball and became SEC high scorer in track in 1943 when he was captain of the Auburn track team.

Currently director of health and physical education for the Gadsden City Schools, Mr. Burton formerly coached at Talladega High and Gadsden High. Gadsden's "Man of the Year" in 1953, Author Burton earned a master's from the University of Alabama. His son, Herb, and daughter, Carolyn, are now juniors at the University of Alabama—proving, Mr. Burton says, that his wife, an U. of A. alumna, has more influence in their choice of schools than he.

—Kaye Lovvorn

sorority helps support six beds at the Crippled Children's Hospital in Richmond, Va.

'34 **Nicholas S. Hare**, special state assistant attorney general, argued Alabama's case before the U.S. Supreme Court appealing a federal order for total desegregation of Alabama jails and prisons.

'35 **Carl F. Wittichen, Jr.**, president of Wittichen Chemical Co. of Birmingham, is the new president of the Birmingham Kiwanis Club.

Mr. and Mrs. **Enis Alldredge (Opal Jones)** live in Florence, where he operates a United rental business.

NEW ADDRESS: **Paul W. Alston**, McIntosh, Fla.

'36 **James E. Vance** has been promoted to senior vice president with First National Bank in Birmingham. He joined First National in 1936, was elected assistant cashier in 1947, assistant vice president in 1951 and vice president in charge of advertising and public relations in 1953.

R. B. Bagley of Montgomery is new president of the Alabama Rehabilitation Association.

NEW ADDRESS: **Col. Lee C. Merrell**, Crystal River, Fla.

'37 **Dr. Delos P. Culp**, president of Alabama College at Montevallo, will become president of East Tennessee State University at Johnson City on Feb. 1. The former director of the Alabama Education Commission,

Only Yesterday

(Continued from page 6)

tered English peas, hearts of celery, fruit cake and ambrosia, and a choice of drink cost only 65 cents at the Doll House.

Nick Holmes of Phi Delta Theta won the Wilbur Hutsell-ODK Cake Race with a time of 15:12.5.

Campus rumors had the girls' dorms being turned into soldiers' quarters, no women students being registered for the duration, and the school closing at the end of the quarter. President L. N. Duncan denied all of the gossip.

Capt. Earle R. Smith, an Auburn alumnus stationed with the Air Corps in Egypt, carved "War Eagle! Give 'Em Hell Auburn!" on one of the cheeks of the Sphinx. In a letter home, he wrote, "In the future years after Rommel has been driven from the sands of Egypt, visitors from Alabama will see the evidence of the Auburn spirit that is making itself felt on every battlefield where there are American troops."

Coach **Jack Meagher's** Tigers finished the season with a 6-4-1 record by defeating LSU 25-7 and number one ranked, undefeated, untied Georgia 27-13. **Monk Gafford** was named first team All-America by the International News service. He became the first All-America at Auburn since **Jimmy Hitchcock** in 1932.

Dr. Culp was professor of education at Auburn from 1951 to 1954 when he became president of Livingston State College for nine years before taking the Montevallo post in 1963.

Brandt Woodward now of Saratoga, Calif., was at Auburn for Homecoming, his first visit since 1939. He is with Monsanto Chemical Co.

NEW ADDRESSES: Mr. and Mrs. **Charles H. Bailey**, (Neva Teague '39) Williamston, Mich.; **Clarence E. Sherard**, Austell, Ga.; **Thomas K. McGehee**, Bolling AFB, D.C.

'38 **Lt. Col. William H. Fulford** received his second award of the U.S. Joint Service Commendation Medal at Ent AFB, Colo., this summer. Col. Fulford received his recent award for meritorious service as chief of the missile branch, directorate of operations at Headquarters of the North American Air Defense Command at Ent. After 29 years with the Army, Col. Fulford retired in September and is now assistant superintendent in the missile and space systems division at Douglas Aircraft in Huntington Beach, Calif.

NEW ADDRESS: **M/Sgt. and Mrs. A. Vaughan Terry (Mary Helen Whatley)** Ft. Bragg, N.C.

'39 **Don C. Kyle**, Montgomery representative of the Lincoln National Life Insurance Co., has gained national recognition for his record of personal production for the first nine months of 1967. He ranked 10th nationally in the sale of health insurance.

Mrs. Vonceil Beaty Brawner of Waverly is a member of the city council.

NEW ADDRESSES: **Alexander H. Morris**, Westfield, N.J.; **Dr. Harold P. Thomas**, College Park, Ga.

'40 **Ben Eich** of Birmingham was chairman for a statewide seminar of the Alabama Pharmaceutical Association which met at Auburn on Nov. 15.

Campus Roundup

(Continued from page 4)

the cost of medical assistance and are now attempting to place the entire burden for absorbing these costs on the pharmacist and the pharmaceutical industry.

SURVEYING CONFERENCE—Experts on multiple access computers, aerial photography and triangulation by satellite appeared before the participants of the surveying and mapping conference short course at Auburn in November. The surveyors were also addressed by **B. K. Meade**, chief of the U.S. Coastal Geodetic Survey.

FLYING MEET—The host War Eagle Flying Club won one first place in the National Intercollegiate Flying Association meet at the Auburn-Opelika Airport on Nov. 17-18. Auburn's **Ronnie Zimmerman** was the bomb drop winner at the first NIFA meet

WARE . . . new honors

L. M. Ware Elected Horticulture Fellow

L. M. Ware '17, head professor emeritus of horticulture, Auburn University Agricultural Experiment Station, was elected a Fellow of the American Society for Horticultural Science at the Society's recent annual meeting.

The election is in recognition of outstanding service in the field of horticulture, leadership, and noteworthy efforts in advancing the goals of the Society. To be eligible for election the candidate must have been an active member of the Society for at least 10 years.

Professor Ware served Auburn University for 41 years before his retirement June 30, 1966. He pioneered in forestry research at Auburn and it was largely through his foresight and persistence that a degree course in forestry was established at Auburn University.

Professor Ware's extensive research includes studies of cultural practices and fertilizers for vegetable crops, factors affecting quality of fruits and vegetables, role of organic matter in vegetable production, and factors affecting pecan production. He is the holder of many joint patents for new sweet potato processed products.

in the South. Ohio University won the team championship, Pat Cleary of the University of Dayton won the top woman pilot award, and Terry Timmester of Ohio was judged the top male pilot. Guest speaker at the awards banquet after the meet was **F. J. Schwaemmle**, director of public relations for Delta Airlines.

GRANT FOR COMPUTER STUDIES—NASA has awarded a \$27,756 grant to the Auburn University Department of Mechanical Engineering for studies in computer techniques for space vehicle guidance. Current studies are applicable to the guidance of the supersonic transport now under development, according to **Dr. W. A. Shaw**, project director.

Other phases of the program, under way since 1961, have had application to other types of missiles, including the Appollo and the Saturn.

Working with Dr. Shaw on the project are **Prof. Grady R. Harmon** of the Department of Mechanical Engineering and **Dr. Phillip M. Fitzpatrick**, mathematics.

FROM HALLS OF MONTEZUMA—A photo just received by the Auburn University Archives is reminiscent of U.S. Marine Corps leaders who have graduated here. The photo was taken in Hawaii in 1952 at Camp H. M. Smith and shows, from left: Joseph L. Stewart '37 who retired as brigadier general, the late Franklin M. Hart '15 and H. M. (Howlin' Mad) Smith '01 who both attained ranks as full generals, and Col. Walter Lytz

'34, then General Hart's engineering officer. The photo showing the Auburn leathernecks delivering a resounding "War Eagle" will be added to the papers, medals and honors of Generals Smith and Hart which have already been received by the Auburn Archives. A third Auburn graduate to attain rank of full general was the late Robert Lee Bullard '84, World War I leader for whom a men's dormitory is named.

Adding Seven New Faculty—

History Department Launches PhD

Two months ago *The Alumnews*, as part of a general round-up of news of a new academic year, reported that History was one of two departments launching a doctoral program. Significance of that announcement becomes apparent after a few minutes' chat with Dr. Malcolm C. McMillan, head of the Department of History and Political Science. In substance, the approval of a program leading to the Ph.D. degree will strengthen teaching at Auburn and enable Auburn to help meet the need for teachers in this part of the South. How fast the department progresses will depend on availability of funds to add to library holdings in history and to add faculty in special fields of study.

Auburn now joins the University of Alabama in offering the Ph.D. in this state. Two universities in Georgia and two in Mississippi are the only others offering such degrees in history in the tri-state area. Each year the demand for Ph.D.'s in history in this tri-state area outruns the supply and the demand has increased with the rise of junior college enrollments.

Adds Seven To Staff

This fall Dr. McMillan was able to employ three Ph.D.'s and four others who are doctoral candidates, bringing the departmental faculty to 27. Seven of these probably will move to the political science department next year when political science is established as a separate unit.

What demands does the history department face? Already the department has four students working toward the newly-offered Ph.D. with an additional 30 pursuing a Master's degree. The

number of undergraduate history majors will vary from 80 to 100 from year to year. The department also has some contact with 50 per cent or more of Auburn students during their four undergraduate years. Freshman enrollment will range from 800 to 1400 in any quarter.

Adding the seven new faculty and obtaining a significant boost in funds for books for this year helped to open the way this year to increase seminar courses for graduate students from five to 21 and to add 15 courses at the "400" or upper-class level. Doctoral work has been approved in American, Southern and English history with other areas to be offered as interest develops and library holdings are strengthened.

To Aid Other Fields

The new doctoral programs, says Dr. McMillan, not only will strengthen upper-level and graduate work but will help Auburn attract and retain graduate students and young faculty to teach freshmen and sophomores. The better balance within the department also will buttress other programs in the humanities and social sciences, particularly English. Hopefully (an application is now pending) the doctoral program will help the department win approval for National Defense Education Act funds for NDEA fellowships and more books.

Interests of the new faculty members indicate the broadening of proficiency which the his-

tory department is striving for. Dr. Thomas Iiams, Jr., is a specialist in modern European and Brazilian history. European history, particularly that of the French Revolution and Napoleon, is the field of Dr. Gordon Bond. Visiting Associate Professor from India is Dr. N. P. Nayar, teaching comparative government. The doctoral candidates joining the faculty are Hines H. Hall, III (modern European history), Brit A. Storey (American history), William A. Pickering (U.S. government), James B. Murphy (Southern history). Respectively, they will receive their degrees from Vanderbilt, Kentucky, Alabama and L.S.U.

First Journalism Instructor Dies

Leon C. Bradley, who organized the Auburn Department of Journalism and served as its first instructor, died in Selma on Oct. 15. He had had careers in business, politics and journalism before his retirement 25 years ago.

After working for several years with newspapers in Birmingham and as an International News Service manager, Mr. Bradley was one of the founders of the *Tuscaloosa Daily News* where he served as associate editor and later editor.

One-time private secretary to Gov. Thomas E. Kilby, Mr. Bradley was named director of the Public Utility Bureau when it was organized in 1922 and held the post for several years.

He is survived by a son, Dan G. Bradley; two brothers, H. B. Bradley, and G. L. Bradley, all of Birmingham.

ALUMNALITIES—Continued

'41 Mr. and Mrs. Clayton H. Merrell (Irma Jean Ingram '38) live in McLean, Va. He is with the Washington office of American Telephone and Telegraph.

Col. Samuel M. Burney has assumed command of the Anniston Army Depot. He came to Anniston after a tour of duty in Vietnam as deputy commander of the U.S. Army Support Command.

NEW ADDRESSES: William M. Newman, Jr., Delrose, Tenn.; Mrs. Rubye Lee Reeves Phelps, W. Canton, Ohio.

'42 **NEW ADDRESSES:** Lt. Col. and Mrs. Charles D. Worthy (Edythe Carnes '40), Arab; Mrs. Ruth Moore Phillips, Slidell, La.; Clarence R. Moster, Rumson, N.J.

'43 W. T. Dumas, associate professor of agricultural engineering at Auburn, was elected president of the Alabama Section, American Society of Agricultural Engineers.

Col. Thomas W. Morgan, USAF, became Appollo Applications Program Manager at the Kennedy Space Center on Oct. 9. He served as director of operations at the Air Force's Manned Orbiting Laboratory Program at Los Angeles from January 1964 until late September. He previously served as chief of the Thor Launch Division at Patrick Air Force Base, Fla.

NEW ADDRESSES: Oliver E. Bryant, Mobile; Mrs. Annie Lee Jones Connell Montgomery; William D. Barton, Houston, Tex.

'44 Mrs. Emma Payne Flowers of Ozark has been chosen as the Alumnus of the Year at Troy State College. She was honored at the Troy State Alumni meeting Nov. 4. In addition to a master's at Auburn, Mrs. Flowers did other graduate work at Columbia University. She has been in education 45 years and taught 31 years in the Ozark City schools. She is believed to be the only woman in Alabama to hold the office of city superintendent of education which she held in Ozark. Included in "Who's Who in American Education," she was named "Outstanding Woman of the Year" in Ozark in 1954 and 1959.

NEW ADDRESS: Linnell Dobbins Greenhill, Montgomery.

'45 Donald I. Hackney has been promoted to full colonel with the Air Force. He is on the faculty of the Air War College at Maxwell AFB, Montgomery.

'46 McDowell Lee, secretary of the Alabama Senate, has been appointed to the newly-created Troy State College Board of Trustees. A former legislator, he is immediate past president of the Troy Alumni Association where he was once a professor of political science.

'47 L. Carey Wilson, Jr., is vice president for production of Pockman Manufacturing Co. in Decatur.

Gen. John M. Kenderdine, who recently returned from an assignment in Southeast Asia, was in Langdale Oct. 25 to present a national Department of Defense

Award to West Point-Pepperell's Langdale Mill. The award, in recognition of outstanding contributions to and support of U.S. forces in Southeast Asia, was one of three presented in the nation.

Dr. Thomas F. Parkinson, specialist in reactor and neutron physics and radiation instrumentation, has joined the University of Missouri's College of Engineering as professor and chairman of the nuclear engineering program. Dr. Parkinson had been on leave from his duties as professor of nuclear engineering at the University of Florida since September, 1966, working as a Fulbright-Hays Research Fellow at Junta de Energia Nuclear at Madrid, Spain. He is married to Helen Fay Chapman '46.

M. Eugene Moor has been named executive vice-president of First National Bank of Birmingham. He joined First National in 1950, was elected assistant vice president in 1957, vice president in 1959, and senior vice president in May.

'48 Dr. Leon Cunningham, professor of biochemistry at the Vanderbilt School of Medicine, has been appointed asso-

(Continued on page 10)

Alumni In The News

Dodd

Martin

William R. Dodd '41 recently retired from the Army as a lieutenant colonel. His most recent assignments were as chief of the maintenance division at the Army Aviation Center at Ft. Rucker, and chief of the Army Office at Hiller Aircraft's helicopter plant at Palo Alto, Calif. Col. and Mrs. Dodd, and son, David Franklin, are now living in Semmes where, Col. Dodd, a certified landscape designer, is in the horticulture specialty business. The Dodds' daughter Elizabeth '65 teaches art at Richards Junior High in Columbus, Ga., and son William R. Jr., is an Auburn senior in electrical engineering.

Dr. John Bruce Martin '43 has been elected a national director of the American Institute of Chemical Engineers for a three-year term. He is chairman of the Ohio Valley Section of the Institute and a director of the Engineering Society of Cincinnati. Dr. Martin was recently promoted to co-ordinator of organization development for research and development with Proctor and Gamble in Cincinnati. He had formerly been manager of personnel and training for research and development. Dr. and Mrs. Martin have three children. Their daughter Shirlee is a freshman at Wheaton College and sons Jay and Kipp are in high school. Dr. Martin's replacement as manager of personnel and training is Hinton K. Howard '52.

In Memoriam—'00 Through '71

Horace Ware '00 of Birmingham died Oct. 21 at his home. Surviving are his wife, Mrs. Jimmie Lee Moore Ware, and a number of nieces, nephews, and cousins.

William R. (Bill) Martin '10, veteran Ozark attorney, died Oct. 31 at a Dothan hospital following a long illness. After attending Auburn Mr. Martin graduated from the University of Alabama Law School. He began his law practice in Ozark in 1917 with his father. Surviving are his widow, Mrs. Grace P. Martin, of Ozark; one daughter, Mrs. Maude Martin Mathis of Ozark; one sister, Mrs. Carthel Ard of Ozark; and one brother, Aubrey Martin, of Houston, Tex.

Harry Foster Lowe, Jr., '11 a retired Opelika businessman, died in Lee County Hospital on Oct. 28 after an illness of several months. Survivors include the widow; two sons, Harry Lowe, III, '43 of Washington, D.C., and John Russell Lowe '50 of Birmingham; three grandchildren; one brother, O. A. Lowe '21 of Ocala, Fla., and a sister, Mrs. Louise L. Carter of Opelika.

John S. Jervis '11 of Gulf Breeze, Fla., died Oct. 1. Survivors include his widow, Mrs. Adelaide W. Jervis.

Thomas Garner Wingo '13 of Birmingham died Oct. 18 in Panama City, Fla. He was associated with Warren, Knight and Davis, Birmingham architects for 45 years. Survivors include his widow; two sons, Thomas G. Wingo, Jr., of New York City; James Pope Wingo '52 of Birmingham; two brothers, Douglass P. Wingo, Birmingham, and L. A. Wingo of Chattanooga; two sisters, Mrs. B. B. Clarkson, Lexington, Va., and Mrs. C. K. Clarke '13 of Madison, Ga.

Robert F. A. Benson '14, retired manager-employee relations director of Gulf Refining Corp., in New Orleans, died Oct. 12 after a brief illness. Mr. Benson had lived in New Orleans since 1919. He retired from Gulf in 1957. A veteran of World War I and World War II, Mr. Benson was a member of the Louisiana Engineering Society, the Personnel Management Association, Chamber of Commerce of the New Orleans area, and an elder in the Presbyterian Church. He is survived by his widow, Mrs. Alma Frick Benson; a daughter, Mrs. Ralph J. McDonough of New Orleans; three brothers, Earl '23, and Ernest Benson of Mobile and Lee Benson '12 of Elkins, N.C. and six sisters, Mrs. Thelma Blackwell, Mrs. Ethel Cox, Mrs. Marguerite Nelson, Mrs. Ruth Schlettler, Mrs. Marie McCowan, all of Mobile and Mrs. Gertrude Blair of Knoxville, Tenn.

Pressly Bryant '15 of Camden died Oct. 29 in a local hospital. Survivors include his widow, Mrs. Essie M. Bryant of Camden.

Alex Filmore Lankford '23 died Oct. 11 according to recent information received by the Alumni office.

Dr. B. William Murray '18 of St. Simons, Ga., died September 23. Among his survivors is his widow, Mrs. B. W. Murray.

Aaron Asbury Cone '23 of Cary, N.C., retired conservationist of the U.S. Department of Agriculture, died Oct. 10 after a long illness. Mr. Cone joined the USDA's Soil Conservation Service in North Carolina in 1934. At the time of his retirement in 1957, he was assistant state conservationist. He taught vocational agriculture in North Carolina for 11 years before joining the USDA. Surviving are his wife, Mrs. Margaret Brantly Cone; one daughter, Mrs. John Peck of Eatonton, Ga., two sons, Col. Ralph A. Cone, USAF, Washington, D.C., and Thomas Cone of Atlanta; two sisters and four brothers.

W. T. McGowin, Jr., '25 of Birmingham died Nov. 12 at a local hospital. He is survived by his wife, Mrs. Mary Ellen Sanders McGowin; one son, William Travis McGowin, III, '59; one daughter, Miss Edith Ashley McGowin, both of Birmingham; one stepson, Jesse Michael Walters of Syracuse, N.Y.; and one brother, Oliver McGowin of Hollywood, Calif.

Douglas Lee Thomas '25 of Birmingham was killed in an automobile accident on Aug. 21. Survivors include his widow, and a daughter, Mrs. Ann Thomas Loveless '66.

Lester Ray Judy, Sr., '25 died Nov. 12 in a Birmingham hospital. He is survived by his widow, Mrs. Elizabeth Kennon Judy of Birmingham; one son, Lester Ray Judy, Jr., of Forest Park, Ga.; one daughter, Mrs. Helen J. Czachurski of Huntsville; two brothers and one sister.

Douglas O. Baird '30 of Glenview, Ill., died June 5. For many years he was a patent lawyer with a Chicago law firm after receiving a law degree from George Washington University. Among the survivors is his wife, Mrs. D. O. Baird.

John R. Carmack '33, an Opp druggist, died Nov. 6. He had been in ill health for more than a year. During his student days and several years after he worked in Lipscomb's Drugstore in Auburn. He had also worked with Parke, Davis Pharmaceutical Co. in Pensacola and Anniston, and for the past 20 years had owned and operated a drug store in Opp. He is survived by his wife, Mrs. Dorothy Benton Carmack; one daughter, Nancy, a senior at Huntingdon College; two sons, Johnny, a freshman at Troy, and George, a fifth grader; a sister, Mrs. Robert B. Skelton (Mary Carmack '40) of Auburn; and two brothers, Sam Carmack of Andalusia, and Ted R. Carmack '40 of Los Angeles, Calif.

Willie E. (Bubba) Phipps '34 of Mobile, a former Auburn football star, died Nov. 2 in the U.S. Veterans Hospital at Biloxi, Miss., after a long illness. Mr. Phipps had played in the Auburn back-

field in the early 1930's with the late Jimmy Hitchcock. He was a salesman of electronic devices.

Frances Andrews '41 of LaFayette died Oct. 31. Survivors include James G. Andrews '21, R. Carroll Andrews '22, Marjorie Andrews, and Charles Andrews.

Hubert L. Terrell '36, superintendent of education for Butler County, died in Greenville on Oct. 22. He had been superintendent since 1958 and was earlier associated with school systems in Georgiana and Excel. Survivors include his wife, Mrs. Dorothy Wigington Terrell; mother, Mrs. L. W. Terrell of Hamilton; three sons, Bobby and Joe Frank of Greenville, and Tommy of Del Rio, Tex.; a daughter, Miss Gloria Terrell of Birmingham; and four brothers, Vester Terrell of Jacksonville, Fla.; Dr. Clyde Terrell '45 of Bessemer; Dr. Webster Terrell '40 of Tusculumbia; and Dexter Terrell, Birmingham.

John Cecil Rasberry, Sr., '40 of Birmingham died Oct. 19 in a local hospital. He is survived by his wife, Mrs. Rebecca Moore; two sons, John Cecil Rasberry, Jr., and Carl B. Thomas Rasberry, all of Birmingham; mother, Mrs. Katie Dean Rasberry of Birmingham; one brother, Wallace Rasberry '41 of Florala, and five sisters.

Dr. Willie Mack Dillard '48 of Ashland, Ohio, died Nov. 5. A former Auburn professor of small animal medicine and surgery, Dr. Dillard earned a degree in pharmacy from Southern College of Pharmacy before studying veterinary medicine at Auburn. He had a private veterinary practice in Montgomery for several years.

Anderson K. Vaughan '48 of Birmingham died in a local hospital on Oct. 26. He had been with Alabama Power Co. in the production department for many years. Survivors include his wife, Mrs. Catherine Vaughan; one daughter, Miss Andra Vaughan, both of Birmingham; mother, Mrs. Mamie P. Vaughan of Decatur, Ga., and two sisters.

Raymond S. Ragsdale, Jr., '50 died Jan. 1, 1964, in Macon, Ga., according to recent information.

James R. Adams, Jr., '58 of Birmingham died Oct. 25 at a local hospital. He had been a special representative with EBSCO Industries in Birmingham. He is survived by his parents, Mr. and Mrs. James R. Adams, Sr.; two sisters, Mrs. James A. Pfaffman and Mrs. Jerome K. Lanning; two brothers, William H. Adams and John E. Adams.

Howell Mason McInnish '62 died unexpectedly Oct. 28. Principal of East Three Notch School in Andalusia, he was former coach at Andalusia High. Survivors include his wife, Mrs. Karma Lou McInnish; a son, Mickey McInnish, a student at Auburn; a daughter, Mary Ann McInnish of Andalusia; his mother, Mrs. O. S. McInnish of Dothan; four brothers and a sister.

PICTURES OF THE PAST—Stanton Lawson, professor of mechanical engineering, stands before pictures of all the students he has taught while at Auburn University. Professor Lawson claims he started the project 15 years ago because he wasn't very good at remembering names, but his fellow teachers say, "Professor Lawson remembers more about the students than most of us ever know."

Prof. Keeps Photo Gallery

He claims he's just an "absent-minded professor," but the colleagues of Professor Stanton Lawson claim there is a deeper reason for the photo gallery of his students in his classroom.

For 15 years Lawson has taken pictures of all his students because, he says, he isn't very good at remembering names. But there are those who believe there is more heart than mind involved in this project.

Here Since 1958

Now a professor of mechanical engineering at Auburn University, Professor Lawson began his unique project while at the University of Florida, where he posted the pictures in his rollbook. After coming to Auburn in 1958, he began having enlargements made and hung on a wall, with the graduates of each quarter grouped together.

He claims the project is an objective one, making it easier for him to learn the names of his students and recall them later when asked for recommendations.

"Since my machine design course is required of all mechanical engineering graduates," he said, "that gives me quite a few names to learn."

Elizabeth Kinzer '63 of Evergreen died Oct. 16 according to recent information.

Stephen L. Cooper '67, a senior in Visual Design, died after a short illness Nov. 8 in LaFayette. Survivors include his widow, Mrs. Jean C. Cooper, and his parents, Mr. and Mrs. George Cooper of Columbia, S.C.

Barbara Jean Green '71 of Jacksonville died Nov. 8 of a vascular disease in Emory University Hospital after five weeks of hospitalization. Survivors include her mother, Mrs. Ernestine Green, and two sisters, Rebecca Sue, and Laura Green, a senior at Auburn.

But his colleagues say that this project has a more personal motive because "He would remember his students anytime, anywhere and under any conditions."

One of his co-workers remarked that "for a man who isn't good at remembering names, it's amazing how Professor Lawson can remember things about students that most of us never knew."

Concern For Students

Professor Lawson makes no secret of his concern for his students, but he does veil it in a shroud of modesty. "I try to get to know my students pretty well while they are in my class," he said. "My labs are usually rather informal and I give the students as much liberty as possible in carrying out their projects."

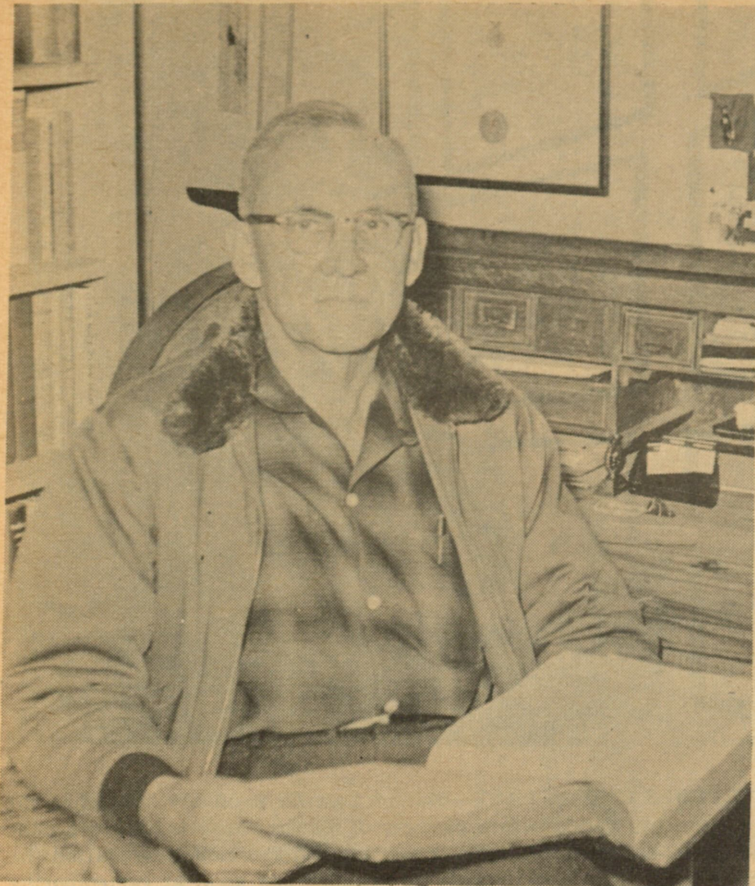

"I like to think of my course as a basic preparation for when they get out on their own in industry. Because of that, I try to help them work out any particular problems they might have," he added.

According to several of his students, some of this help goes far outside the classroom. Because of the unique relationship that exists, they say, students often go to Lawson with personal problems or to ask advice on their future careers.

He has kept in touch with many of his former students and can point at various pictures in his gallery, citing where that student is now and what he is doing.

He commented that the quality of the pictures is "not the best in the world" and that the students are all wearing school clothes. "I guess that's the way it should be," he mused. "I probably wouldn't know them if they were all slicked up."

Or maybe that just wouldn't be the way he remembers them.

THE EDITOR RETIRES—In his study at his Loachapoka home, Dr. Alexander Nunn '24, retiring editor of the *Progressive Farmer*, looks through an 18th century dictionary of farming terms and techniques. Editor of the recently published *Agricultural Classics*, Dr. Nunn will spend his retirement writing. Currently he is completing a history of the Loachapoka-Auburn area to be published in June.

Dr. Nunn Of The Progressive Farmer—

Editor Closes 43-Year Career

by Kaye Lovvorn '64
Assistant Editor

"From one farmer to another" is the way Dr. Alexander Nunn '24 depicts his 43 years with the *Progressive Farmer* magazine which ended with his retirement Nov. 30. And the rapport he has established with rural families across the Southeast indicates they feel the same. But the phrase "from one farmer to another" seems too constricting and at the same time appropriate for the busy executive editor who spent his weeks at his Birmingham office or traveling across the U.S., his weekends at the family farm at Loachapoka.

One wit remarked that you know a man by the company he keeps; another said you know him by his books. A combination of the variety of awards, citations and mementoes lining the walls of Dr. Nunn's study signifies his company has been the highest; the variety in the book-filled shelves reveals the depth and range of his mind and his interests. A third ingredient, the warmth of his wit and his personality, coalesces his "company" and his interests and points up his love of life and mankind.

Fond Of History

Dr. Nunn's enthusiasm for man's history—local, family, national—shows in the book-packed shelves of his study, and the pile of yellowed newspapers and faded store of day books from the 1860's and '70's on his desk, and even in the Auburn University archives collection to which Dr. Nunn has given many local history documents.

Books about Indians, books about birds, books about farming, and books about Alabama,

stretch across one wall. Volume after volume of the *Progressive Farmer* fills the bottom shelves. An adjoining bookcase holds religious books—indicating Dr. Nunn's spiritual interest ranging from the local white frame Loachapoka Methodist Church to the World Ecumenical Council of Churches at Oxford, England, which he and Mrs. Nunn attended in 1951. Still more shelves contain volumes of economics, philosophy, and a collection of Thoreau that is one of the most comprehensive in the South. Dr. Nunn's collection of 19th and early 20th century grade school readers includes, among the more recent ones, his own fifth grade reader of the "Farm Life Series" which combined country life reading and vocational agriculture. (One of the editors was Auburn's ninth President, the late Dr. Luther Duncan '00.)

Among Dr. Nunn's prized books is *The Complete Farmer*, a dictionary of English and Scottish farming terms and techniques of the 18th century. A "Society of Gentlemen Meeting in Encouragement of Arts, Manufacturing, and Commerce" published the book in London in 1766.

Library Is Extensive

Books and collections overflow from the study to fill bookcases and filing cabinets that line the upstairs hall. Carefully shelved are his collection of books and materials on John F. Kennedy. Dr. Nunn met the young president in 1961 when President Kennedy summoned him to Washington to head his cotton advisory committee. Bookcases further down the hall hold volumes of Southern literature and history, American history, and a complete collection of the USDA's *Agricultural Yearbooks*.

A few of the many, many citations and honors Dr. Nunn has received are The Boyce Award for Service to Scouting, National 4-H Club Alumni Award, Master Farmer Degree from the Future Farmers Of America, a citation of "Minister by Proxy" from the Candler School of Theology of Emory University, a commemorative medal of the 50th anniversary of the Federal Land Bank System for his contributions to agriculture, and The Soil Management Award for Editors from the National Plant Food Institute.

ing with Eagle and Phenix, a division of Reeves Brothers in Columbus, Ga. He and his wife Norma have two children, David and Elizabeth.

R. D. Laney, manager-components-manufacturing with GE in Lynchburg, Va., who graduated from the company's business training course in June, submitted one of the three most outstanding papers in the company. Outstanding papers from each

(Continued on page 11)

Dr. Nunn delightedly points out his honorary membership in the Future Homemakers of America, and he proudly refers to a citation of his honorary Doctor Science from Auburn University, awarded him in 1959. Tucked away in a cubbyhole in his roll-top desk is the accompanying diploma. The chair Dr. Nunn uses at that desk is a gift of which he is particularly proud—it's an Auburn chair given to him by an Alabama fan!

Among the books in his shelves are some to which he has contributed such as *This Is the South*, and many he edited or helped write for the *Progressive Farmer* Co. including a poultry manual he co-authored with Auburn's poultry professor emeritus Dale King, and the popular community handbook which the Company printed, reprinted, and revised until it became a fat red paperback containing everything from party games to parliamentary procedure, songs to table setting.

Proofreader To V-P

Dr. Nunn's association with *The Progressive Farmer* began early. A collage of memories presented him by the staff at his retirement shows Dr. Nunn published his first story in *The Progressive Farmer* when he was still in his teens. He recalls that his father once said that he did the work on the farm and his son Alexander made the money by writing about it. And sometimes, Dr. Nunn said, that's what happened. When he graduated from Auburn in 1924, Dr. Nunn went to work full-time for *The Progressive Farmer* as proofreader and began the climb which he ended as executive editor and executive vice president.

Dr. Nunn's latest book *Agricultural Classics* became the first book published by Oxmoor Press, a new subsidiary of the *Progressive Farmer* Co. when it came off the presses recently. In *Classics* Dr. Nunn included his favorite writing about farm and rural life that he's collected throughout the years. Many have been published in *The Progressive Farmer*; others such as a letter written by George Washington, date from the beginning of the United States.

Plans More Writing

Coming out next June will be a history of Loachapoka for which Dr. Nunn has collected materials all his life. Other immediately planned books are a history of John Nunn, Dr. Nunn's Revolutionary War ancestor, and a book on progressive agriculture of the South. And stored away in his mind are ideas—as varied as Dr. Nunn's interests—for other books that will come out of his typewriter when time permits.

Dr. and Mrs. Nunn have four children, all Auburn alumni. Their son, James William '51 lives in Auburn. Ruth Ann '53 is Mrs. Dwight S. Bond of Decatur. Margaret '55, Mrs. Prince W. Webster of Loachapoka, is foods service manager for the Auburn University women's dormitories. Patricia Sue '56 is Mrs. O. V. Barkuloo of Tifton, Ga.

ALUMNALITIES—Continued

ciate dean for bio-medical sciences. Dr. Cunningham, who joined the Vanderbilt Medical School in 1953, will be concerned primarily with administrative coordination and strengthening of basic research programs. Dr. Cunningham received his M.S. and Ph.D. from the University of Illinois. He was a post-doctoral research fellow at the University

of Washington School of Medicine and also did research work at the University of Leiden in Rijswijk, The Netherlands. He and his wife Jean Swingle have three children: Hugh, 16, Pamela, 14, and Sue, 11.

Ralph W. Carter is with Alabama Power Co. as assistant superintendent of the Tuscaloosa Division's operating department. He and his family recently moved to Tuscaloosa from Eufaula.

Robert B. Frese has been named staff forester for the Rust Engineering Co. His work with Rust will involve feasibility studies, forestry and woodland problems, and finding new sources of wood in this country and abroad.

J. Dukes Jordan has transferred to Crestview, Fla., as manager of the Crestview office of Gulf Power Co.

'49 Maj. Arnold S. Hooks, Jr., is assigned as base controller at Karat, Royal Thailand AFB, Thailand. He was previously assigned to the Pentagon.

William H. Martin, president of Automatic Candy Co. of Columbus, Ga., has been elected senior vice president of the National Automatic Merchandising Association. He is currently vice president of NAMA.

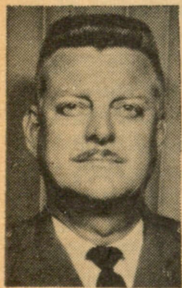

Dr. Carl Reaves of the USDA National Tillage Laboratory at Auburn has been elected vice president of the Alabama Section of the American Society of Agricultural Engineers.

BORN: A daughter, Martha McDade, to Mr. and Mrs. Renis O. Jones, Jr., of Montgomery on Oct. 31.

'50 Lt. Col. Marcus D. Moreman is stationed in Kitzingen, Germany.

Glenn Robeson is director of recreation at Rainbow Lakes Estates in Ocala, Fla.

Alumni In The News

Ferrell

Holdsambeck

Lt. Col. Robert L. Ferrell '47 has been recalled for 11 months active duty to attend the War College at Maxwell AFB. In civilian life, Col. Ferrell, a professional engineer and a former Auburn mechanical engineering instructor, owns Farnsworth Heating and Supply Co. of Bristol, Tennessee.

Col. Herbert S. Holdsambeck '47 has assumed command of the 6555th Aerospace Test Wing at Patrick AFB, Fla. He was director of the space systems directorate and the ballistic missiles director in the Air Force Systems Command's foreign technology division at Wright-Patterson AFB, Ohio, prior to his new appointment. Col. Holdsambeck holds an M.S. from Princeton University in aeronautical engineering and an M.S. from M.I.T. in industrial management.

company location are submitted to the New York office where the three best are selected and their writers presented a certificate of achievement. The manager of the information systems at the Lynchburg division notes that a number of ideas in Mr. Laney's paper have been adopted already.

Maj. **Joseph W. House** is assigned to NORAD at Ent AFB, Colo. He also coaches Little League football which his two sons, Mike and Mack play. Mrs. House is **Sue Marie Hughes '58**, who frequently works as a fashion model.

'53 The Rev. **George Huskey** has been elected vice-moderator of the Lee County Baptist Association.

Ralph J. D. Dorminey has been promoted to associate headmaster at Darlington School in Rome, Ga. He has been at Darlington since 1953 serving as chairman of the Mathematics Department, coach of varsity soccer, and master of dormitories. He is past chairman of the mathematics section Mid-South Association. He and his wife have three children.

Sherrod Barr Hixon received a master's in architecture from Harvard University on June 15.

Dr. and Mrs. **Thomas H. Scott (Janet Cosby)** live in Aiken, S.C., where Dr. Scott is chief of the planning and development branch of the U.S. Atomic Energy Commission at the DuPont Savannah River Plant. Tom received his Ph.D. in nuclear engineering from the University of Florida in 1966. The Scotts have two children: Jan, 6, and David, 3.

'54 Maj. **Sam P. Stewart** is on duty at Cam Ranh Bay AB, Vietnam. Maj. Stewart is an F-4C Phantom II aircraft commander

with the Pacific Air Forces. He was previously assigned to Mam-Dill AFB, Fla.

Maj. **William R. Crawford** assumed command of the 362nd Signal Company near Da Lat, Vietnam, on Oct. 1. He has been in Vietnam since May and was last assigned as executive officer of the 41st Signal Battalion near Qui Nhon, Vietnam. His wife **Ann Caddell Crawford '57** is living in Bangkok, Thailand.

'55 Mrs. **Margaret Reynolds Nabors** is a guidance counselor at Orange County Vocational School in Orlando, Fla.

A. L. Morrison, Jr., recently was promoted to marketing manager of the IBM Corp. branch office in Nashville. Mr. Morrison joined IBM in 1957 and was a marketing representative in Birmingham before moving to Nashville to become national account manager for IBM's Genesco account. He and his wife have two children.

Mrs. **Melba P. Rothschild** has moved to Hollywood, Calif., to live with her daughter and four-year-old grandson.

BORN: A son, Gregory Taylor, to Mr. and Mrs. **Dalton T. Judy** of Ashburn, Ga., on Oct. 18.

'56 The Rev. **William Jere Allen** became pastor of the Bainbridge Street Baptist Church in Richmond, Va., on Nov. 1. He had been at Colonial Avenue Baptist Church in Roanoke since 1962. He and his wife Faye have three children: Lorena, 5, Dawn, 3, and Bill, 7 months.

Mrs. **Matherine McGarity Sheldon** now lives at Aberdeen Proving Grounds, Md., where her husband Maj. William Sheldon is doing research in ballistic missiles. They have two children: Lisa, 7, and William Whitfield, Jr., 6.

Jim O'Neal of the Indiana Lumbermen's Mutual Insurance Co., is one of 19 mutual company representatives nominated for the national award and title of "Mr. Mutual Fieldman of America."

Dr. **Harless A. McDaniel** was recently appointed chief of the diagnostic pathology, diagnostic services, National Animal Disease Laboratory in Ames, Iowa.

James A. Posey, former instructor in the Auburn Physical Education Department recently received a Bachelor of Divinity from Emory University's Candler School of Theology. Rev. Posey is now associate minister of the First Methodist Church in Pensacola, Fla. He and his wife **Kay Ehrensperger '59** have two sons, Jim, 9½ and John, 6.

BORN: A son, Karl Monroe, to Mr. and Mrs. **Kent Klinner, Jr.**, (Cordelia Ann Parker) of Bay Minette on Sept. 24.

'57 The Rev. **Lowell Ledbetter** of Auburn has been elected moderator of the Lee County Baptist Association.

Capt. **Homer A. Mawhinney** recently completed his 100th combat mission over North Vietnam. Capt. Mawhinney served as an F-4C Phantom pilot with the 497th Tactical Fighter squadron at Ubon Royal Thai, AFB, Thailand. His combat missions earned

Aerospace Teacher Djordjevic Dies

Branimir Djordjevic, professor of aerospace engineering at Auburn died Nov. 10 in Lee County Hospital. Professor Djordjevic joined the Auburn faculty in 1959. He worked successfully on a number of Army research projects at Auburn, and in 1966 the Engineering Council of the School of Engineering named him the Outstanding Professor of Engineering. A native of Yugoslavia, he came to the U.S. in 1958.

Surviving are his wife, Nada, of Auburn; a son, Slavimir Djordjevic, of the U.S. Navy; two daughters, Mrs. Lillian Velazquez of New Orleans, and Violet Djordjevic, of Auburn.

Auburn Club News

When the **ATHENS (Ga.) AREA AUBURN CLUB** met for dinner Nov. 17, they heard Coach Gene Lorendo and viewed the Auburn-Georgia Tech football film. They elected the following new officers of the club: Harold L. Sutton, Jr., '41, president; Clarence E. Ellard, '50, vice president; Annette Ray '59, secretary; and Horace C. Morgan, Jr., '55, treasurer.

More than 400 Auburn alumni and friends attended the reception held by the **SOUTH FLORIDA (Miami Area) AUBURN CLUB** at the Columbus Hotel prior to the Auburn-Miami Game on Oct. 27.

him ten awards of the Air Medal. He is scheduled for reassignment to Homestead AFB, Fla., as an instructor. He is married to **Joyce Van Tassel '58**.

Jerre O. Pierson is with McDonald - Douglas Aircraft in Fountain Valley, Calif.

BORN: A daughter, Mary Elizabeth, to Mr. and Mrs. **Harrison M. Bryce** of Salem on Oct. 29.

ADOPTED: A son, Grant Houston, by Lt. Cmdr. and Mrs. **William Grant Carson** of Monterey, Calif. Grant was born Nov. 13. His grandfather is W. H. Coppedge '31 of Auburn.

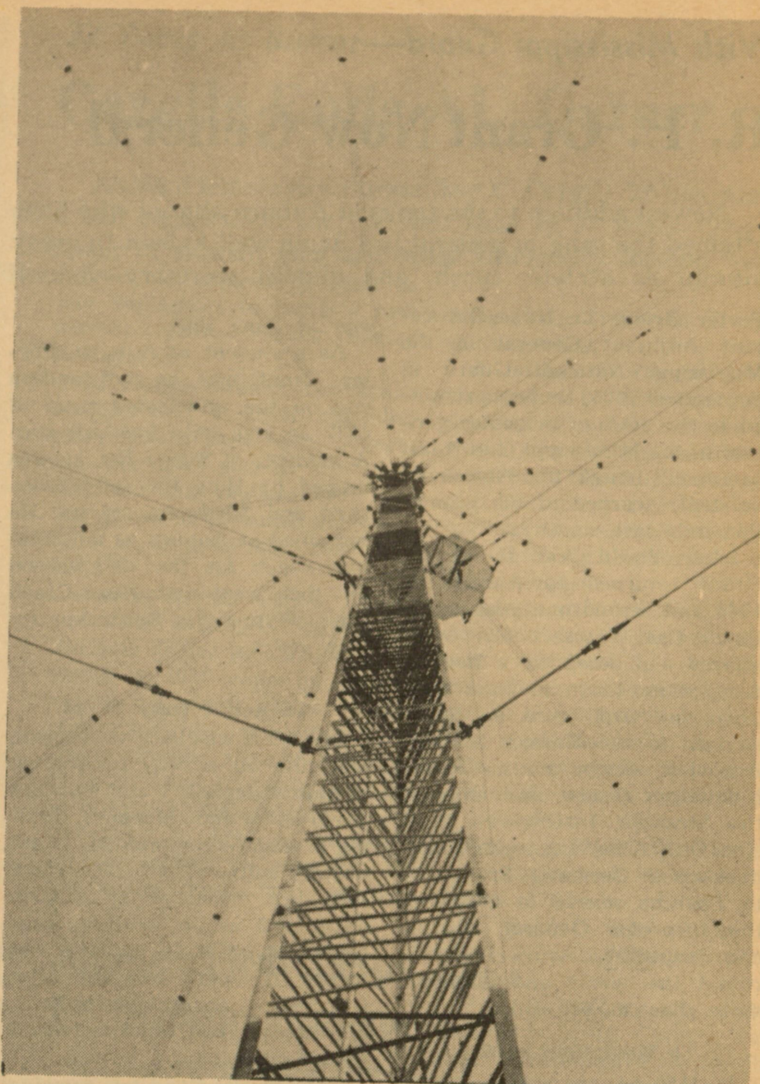

'58 Maj. **Thomas R. Baxter** has completed his master's at Stanford University and is now at Taegu, Korea, with the Directorate for Data Systems.

Charles H. Cobb has been named manager of Mobil Chemical's Montgomery district sales office. He will direct marketing of Mobil V-C brand plant food and related agricultural products in Alabama and parts of Florida, Mississippi, and Louisiana. He was formerly district manager at Shreveport, La.

M. F. Burkhead recently transferred from Houston, Tex., to Des Moines, Iowa, as office supervisor for Gulf Oil's new Des Moines district.

Rod L. Kendrick has been named head of the new bond department of Central Bank and Trust Co. in Birmingham.

Thomas R. Ellinor, a recent honor graduate of the University of Florida School of Law, has been admitted to the Florida Bar and is associated with a law firm in Panama City. He is married to

TOWERS AT FAIRHOPE AND AUBURN USED IN STUDY—Electrical engineers at Auburn University will soon begin the study of behavior of very-low-frequency signals transmitted between 300-foot towers located in Baldwin and Lee Counties. The signals will be monitored in a small laboratory on campus. Project director for the studies, performed under contract with the NASA George C. Marshall Space Flight Center at Huntsville, is Dr. Edward R. Graf, Alumni Professor of electrical engineering.

In Low Frequency Study—

Tower Aids Signal Research

By **TRUDY CARGILE**
Editor, AU News Bureau

Electrical engineers in a laboratory at Auburn University will soon begin studying the behavior of very-low-frequency signals transmitted between 300-foot towers located in Baldwin and Lee Counties.

The studies involve a frequency band important to navigation and long distance radio communication. From the new studies researchers expect information which can be used to determine the ultimate accuracy obtainable in using this frequency to locate points on the earth's surface.

The towers are located on Auburn University property at the Gulf Coast Experiment Station at Fairhope and at Gold Hill near U.S. 280 several miles north of Auburn.

The towers are top loaded by wires to form umbrella antennas—that is, numerous wires are strung outward from the top of the towers, giving them the appearance of giant umbrellas.

They transmit signals of approximately 20,000 cycles per second—a level barely above the frequency of audible sound. These signals will be monitored in a small antenna laboratory on campus where phase comparisons of the two signals will be made

to determine the variations introduced during the 500-mile round trip, the effects of the atmosphere on transmission, and other data.

Marked effect on the phase of the signal can be produced by the antenna. The phase variations introduced by the antennas will be studied through a new phase-lock technique adapted by Auburn engineers for the laboratory. This technique will enable researchers to identify antenna-introduced errors, and to eliminate such errors from their data.

Dr. Edward R. Graf '57, Alumni Professor of electrical engineering, is project director for the studies which are being performed under contract for the NASA George S. Marshall Space Flight Center in Huntsville.

Dr. Graf, who has been responsible for studies in the development of antenna systems at Auburn through similar contracts and grants, is being assisted by Charles E. Smith, an instructor and graduate student in electrical engineering.

The antennas being used in the new communication study were designed by Dr. Graf and Smith in cooperation with Andrews Towers, Inc., of Ft. Worth, Texas.

Pat Theiring, and they have four children: Tim, 8; Perri, 6; Christopher, 5; and Cathi, 3.

Ragan

Merkel

T. Drew Ragan '56 has been appointed dean of students at Allegheny College in Meadville, Pa. He recently completed work for the doctor of education at Indiana University where he was graduate academic counselor. He is former assistant dean of student affairs at Auburn University. He and his wife Elizabeth Ann, have a son Robert, 5.

Capt. Eldred D. Merk '57 has completed the exclusive Air Force Aerospace Research Pilot School at Edwards AFB, Calif., as the honor graduate of his class. He is remaining at Edwards as a member of the school faculty. The captain, who holds a doctorate in electrical engineering, served with the Air Force Systems Command Systems Engineering Group at Wright-Patterson AFB, Ohio, prior to entering the Edwards School.

NOV. - DEC., 1967

With Mississippi Guard—

R. P. Grant Now General

Newest addition to the ranks of Auburn alumni who have attained the rank of general is a name well known to many alumni as athlete, coach, and alumni secretary—Russell

Porter Grant '33. Named Assistant Adjutant General of the Mississippi National Guard in September 1965, he was promoted to the rank of brigadier general in the Mississippi Guard last summer (though the Alumnews belatedly learned of his promotion only last month).

After World War II service, Grant returned to Auburn in 1946 and served one year under Coach Carl Voyles before being offered and accepting a Regular Army commission in June 1947. Then followed tours as senior advisor to the Korean Military Academy, Armor advisor to the Mississippi Guard, and chief of the Strategic Intelligence Division with Army European Headquarters in Germany. From 1956 to 1960 he served in Office of the Inspector General, visiting and inspecting Army units around the world and traveling more than 150,000 miles.

To Mississippi In '60

In 1960 he was assigned command of the Army Advisor Group for the Mississippi National Guard in Jackson, Miss., serving there until retirement in August 1965. Retirement from the Regular Army as a full colonel meant only a change in jobs for he was moved to his present assistant adjutant general's post and won his brigadier general's

star in June 1966.

As a student at Auburn, Porter Grant was an outstanding end on the undefeated team of 1932 as well as a baseball star. A member of Sigma Nu, he was tapped by Blue Key and Scabbard and Blade honoraries. He remained at Auburn as an assistant coach for the 1933 season but then went with Head Coach Chet Wynne to Kentucky for four years.

To Active Duty In '40

In 1938 it was back to Auburn, this time in a dual assignment as alumni secretary and assistant coach under Jack Meagher. Holding a reserve commission, Grant entered active duty in December 1940 but remained at Auburn until 1942 as an assistant professor of military science and tactics. By war's end and after a variety of assignments in artillery schools and units he was a lieutenant colonel.

Born in Headland but growing up in Dothan, General Grant married a Dothan girl, the former Miss Jimmie Bell, an alumna of Florence State and the University of Tennessee. The Grants have two sons: Lt. R. Porter Grant, Jr. is a 1966 graduate of West Point; John Adam Grant is a student at the University of Southern Mississippi.

ANOTHER AUBURN GENERAL—R. Porter Grant '33, is now a brigadier general in the Mississippi National Guard, serving as assistant adjutant general. Grant, outstanding athlete and student leader, served as alumni secretary and was an assistant coach for Auburn under three head coaches before embarking on a military career that began as an ROTC instructor at Auburn in 1940.

Grund

Bradshaw

C. B. Grund, Jr., '51 has been promoted to assistant manager of the rate department with Southern Services, Inc. in Birmingham. A registered professional engineer, Mr. Grund holds B.S. and M.S. degrees from Auburn in electrical engineering. He joined Alabama Power Co. in 1953 and transferred to Southern Services, Inc., in 1958.

Capt. Robert G. Bradshaw '57 recently received his second award of the Distinguished Flying Cross and seven Air Medals at Craig AFB. The Flying Cross was for his outstanding airman-ship and courage as an F-105 Thunderchief pilot in Southeast Asia. Capt. Bradshaw, who now holds 15 Air Medals, is an instructor pilot at Craig.

WITNESS TO GROWTH—Roy Cargile, University bursar for 22 years until November 1, can testify to the impact of growth on Auburn. He has seen his office change from a system to handle fees for 2,700 students to the complex system for more than 13,000.

Mr. and Mrs. Alonze M. McDaniel (Frances Golden '57) now live in Somerville, N.J., where he has been transferred as field service engineer for Fairchild Instrumentation. The McDaniels and their daughters Kaylyn, 13, and Karen, 7, formerly lived in Sunnyvale, Calif.

Earl G. Robinson has been transferred to Dover, Del., with International Playtex Corp., as the senior industrial engineer in charge of three manufacturing plants.

George L. White is teaching vocational agriculture at Wetumpka High after completing a year of graduate study at the University of Maryland under a National F.F.A. Fellowship. Mrs. White is **Juanita Cochran '63**.

Bert L. (Buddy) Chambers has joined the **Brenham (Tex.) Banner-Press** as managing editor and assistant to the publisher. He had been managing editor of the Bay City, Tex., **Daily Tribune**. He and his wife Sue have two daughters, Cynthia, 4, and Diana, 1.

1/Lt. Peyton A. Sides is liaison officer for Headquarters Air Weather Service to the Oklahoma City air material area at Tinker AFB, Okla.

Charles E. Davis has joined the U.S. Army Corps of Engineers at Mobile and been assigned to the Corps' training program for professional engineers. He and his wife **Maxine Reynolds '61** have three children: Miriam, Charles, Jr., and Timothy.

ADOPTED: A daughter, Catherine Ruth, age four months, by Mr. and Mrs. **Huey W. Hewett (Emily Ellis '60)** of Montgomery.

BORN: A son, George Andrew, to Mr. and Mrs. **Anthony E. Pittman** of Ozark on Oct. 22. . . . A daughter, Susan Bailey, to Mr. and Mrs. **Claude L. Huey, Jr.**, (Nancy Clair Friel '60) of Atlanta on Oct. 10. . . . A son to Mr. and Mrs. **George White (Juanita Cochran '63)** of Wetumpka on Oct. 23. . . .

A daughter, Paula Leah, to Mr. and Mrs. **Phillip W. McGregor (Melba Carolyn Coe '61)** of Madison on Sept. 6. She joins big sisters Dawn Marie, 6, and Carla Jean, 4. Mr. McGregor recently became a registered professional engineer. He is with the research and development test lab at the Army Missile Command at Redstone Arsenal.

A son, Steven, to Mr. and Mrs. **Charles E. Davis** of Tullahoma, Tenn., in August. Charles is currently assigned to the Arnold Engineering Development Center at Tullahoma as the senior director for the Douglas Aircraft Co. on a test of the Saturn SIVB stage. In 1962 he was responsible for the design of all electronic equipment used to static fire the SIVB Stage. After being tested for two years at Sacramento, Calif., the stage was shipped to Tennessee for continued testing at altitude conditions. The stage is part of the booster vehicle that will propel the Apollo to the moon.

'60 Capt. Ernest L. Harrison, Jr., is currently undergoing ten months of training at the Lockheed Georgia Co. at Marietta in the Air Force Institute of Technology education - with - industry program.

Wayne J. Crews has joined the staff of Geneva (Alabama) Cotton Mills, Inc., in charge of quality and waste control. For the past two years he has been with Callaway Mills in LaGrange, Ga.

Dr. William C. Stewart is leader for swine viruses, diagnostic virology, in the Animal Health Division of the USDA's National Animal Disease Laboratory in Ames, Iowa. He has been doing research on swine virology there since 1964.

George E. Ramey of Auburn's civil engineering department attended the Summer Institute in Structural Mechanics at the University of Colorado for ten weeks. Mrs. Ramey is the former **Sandra Seewer '66**.

22 Years As Bursar—

Cargile Ends AU Career

Auburn University Bursar Roy C. Cargile '28 has misseed a fall registration for the first time in 22 years. The collector of student fees and other University income was on leave when students returned in late September to begin a new academic year, officially retiring in October.

Cargile has handled University receipts over a period spanning more than a generation, collecting fees from parents and their children. The registration line has grown in the meantime from 2,700 students to more than 13,000.

Cargile, former teacher, coach, and state employee, joined the Business Office at Auburn University in 1945 where he has directed the many duties of the cashier's division since that time. Where simple records-keeping systems were adequate for the \$6 million annual income of the University in 1945, a computer assisted system is required to handle the income of more than

\$40 million received from all sources today.

A native of Fayette County, Cargile had his first teaching experience in public schools there—two years before he graduated from high school. He was qualified through special state examinations, the method used before the certifying standards of today were adopted.

Cargile attended Auburn University under a Birmingham Rotary Scholarship, working throughout his undergraduate period as a library assistant. He was graduated with honors in 1928, receiving the B.S. in Education. He was awarded the M.S. in Education in 1931.

After graduation, Cargile taught science at Escambia High School in Atmore and at Auburn High School, where he also coached football, basketball and baseball.

Prior to joining the Auburn University staff, Cargile was a field representative for the State Department of Industrial Relations.

He has been active in church and community activities, serving as a member of the official board of the Auburn Methodist Church, president of the Lions Club, and chairman of the Auburn Interclub Council.

Cargile is married to the former Minnie Collins of Fayette. They have one daughter, Yvonne '50 (Mrs. W. H. Whittlesey) of Springfield, Va., and two grandchildren, Ginger and Cindy.

Alumni Firm Plans Ft. Walton College

The firm of Ricks and Kendrick of Ft. Walton Beach, Fla., is architect for the new Okaloosa-Walton Junior College near the Gulf Coast town. Partners in the firm are Auburn alumni Elvin Norman Ricks '52 and Claude James Kendrick, III, '51.

First phase of the new campus to be completed in fall 1968 includes library, science, administration, vocation, data processing-business, physical education and utility buildings, a \$3.5 million project.

Joe W. Walker has been promoted to vice-president of D. R. Allen and Son, a construction company in Fayetteville, N.C. Walker, who joined the company four years ago, has been placed in charge of engineering.

Henry Anson Martin teaches in Vicenze America High School in Italy after teaching in Karlsruhe, Germany, for six years.

Fred R. Jones is a member of the Montgomery County Board of Equalization. The board evaluates property prior to assessment of ad valorem taxes.

Capt. William F. Guyton, U.S. Army Medical Corps, and his family are at home in San Francisco where he is doing a three-year residency in ophthalmology at Letterman General Hospital. Capt. and Mrs. Guyton and children Bill, Jr., and Allison Lee spent the past three months in Waterville, Me., where he took a three-month course at Colby College, sponsored by the Harvard Medical College.

Richard D. Martin of Arab is supervisory inventory management specialist with the General Supply Section in Saigon, Vietnam for the coming year. He will return to Redstone Arsenal next September.

Capt. James A. Nelson's heroism as a pilot in Vietnam earned him the Distinguished Flying Cross for routing an attack of some 500 Viet Cong in the Mekong River Delta.

Maj. Wallace L. Hickman is stationed at Camp Walters, Tex., after a tour in Vietnam.

Fred R. Jones, recently appointed manager of the National Electrical Contractors Association, has been elected to the board of directors of the Alabama Credit Union League.

MARRIED: **Sylvia Carolyn Short** to Paul Richard Baggett on Aug. 12 in Birmingham.

BORN: A daughter, Rebecca Joyce, to Mr. and Mrs. **Calvin Howard** of Birmingham on Sept. 18.

'61 Capt. Robert W. Schorr has been awarded the Air Force's Air Medal for extraordinary achievement and professionalism while flying cargo support missions in the Viet Nam combat-zone. He is now stationed at Robins AFB, Ga., where he is a C-141 jet transport navigator.

Gilford R. Smith has joined the Athens office of Heery and Heery, architects and engineers of Atlanta and Athens.

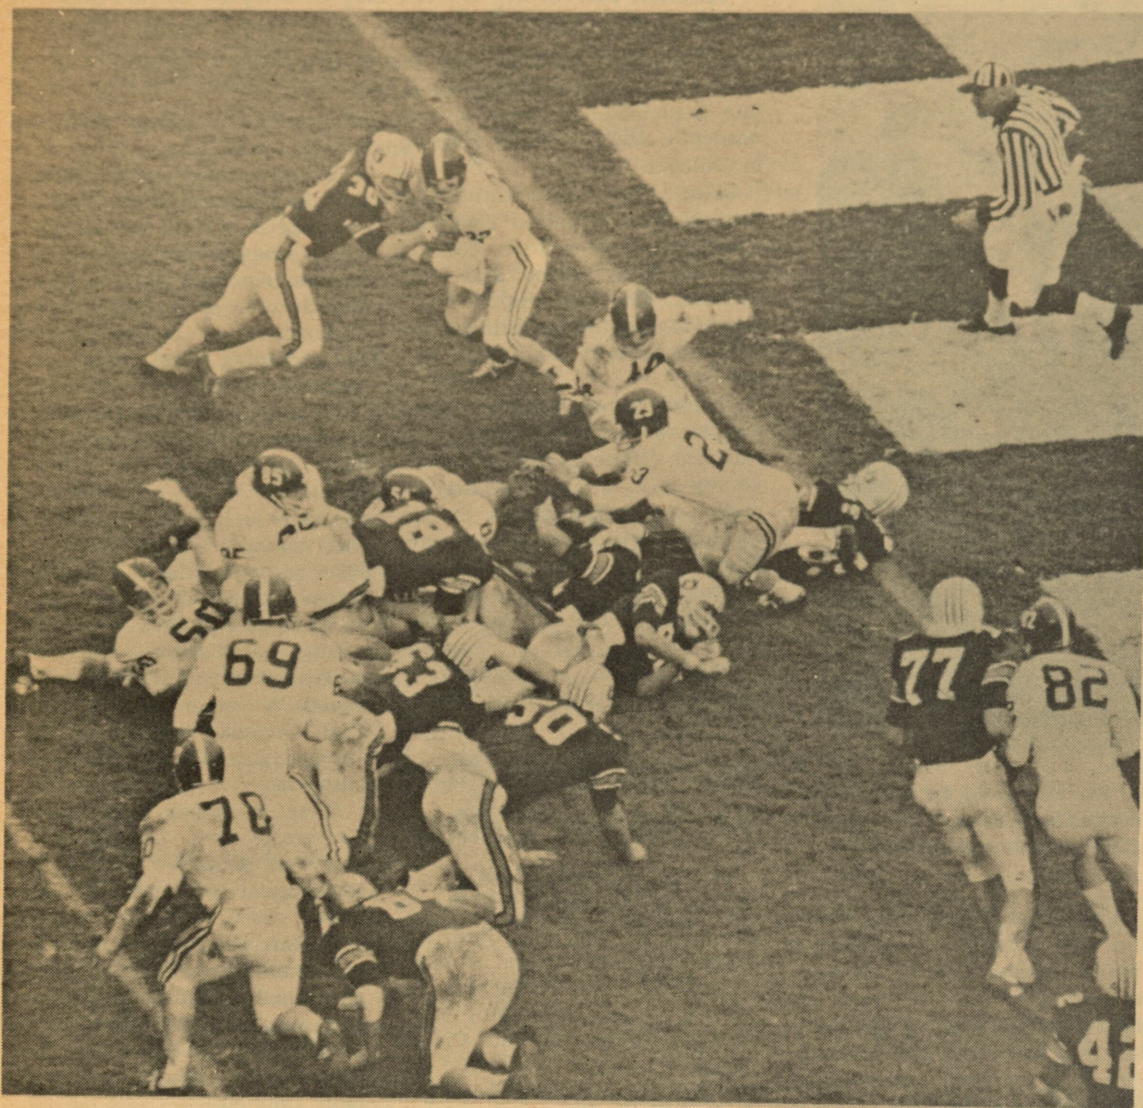

Capt. James C. Heatherly is a member of the Air Defense Command's 26th Air Division, winner of the Gen. Frederic H. Smith Trophy which is given to the best defense organization in the Air Force. He is an F-106 Delta Dart pilot with the 456th Fighter Interceptor Squadron at Castle AFB, Calif. His wife is the former **Rose Stubbs '60**.

B. D. Hydrick has been appointed training director at corporate headquarters of Royal

(Continued on page 15)

'Snakebitten' In Frustrating 7-3 Loss—

Stabler Slithers 47 Yards To Sink Tigers

FIRST OF MANY FRUSTRATIONS—Loran Carter (18) drives goalward after Auburn had a first down on the Tide 5 early in the game. The Tide defense and a driving rain blunted Auburn's domination of the game, holding the Tigers to a field

goal which was topped by a fourth quarter 47-yard scoring run. Other Tigers are Larry Ellis (30), Tim Lyle (63), Forrest Blue (50), Jerry Gordon (77), and Mike Perillard (42).

Two Wins, Then Georgia—

November Run Cut Short

By Mel Pulliam

The surprising Auburn Tigers continued their reputation as an explosive football team in games played in November, but the big

Georgia Bulldogs put a stop to that in wind-swept Sanford Stadium two weeks before the Tigers' finale against Alabama.

Auburn picked up wins over Florida, 26-21, and Mississippi State (homecoming) 36-0, but couldn't mount an offensive show against Georgia, bowing 17-0.

Auburn-Florida

Florida came into Auburn having never won in Cliff Hare Stadium since it was built in 1939, and they left in the same predicament. Auburn scored three touchdowns in a three minute span to drown the Gators.

Two Tigers, soph linebacker Mike Holtzclaw of Ft. Payne, and senior defensive end Jim Bouchillon, each blocked a Florida punt in the third quarter which led to two quick scores that widened Auburn's gap to 26-7. They trailed the first half, 7-6, but quarterback Loran Carter directed a go-ahead touchdown early in the third quarter.

Auburn had to fight off a two-touchdown comeback rally by Florida in the fourth quarter, led by quarterback Larry Rentz and All-SEC flanker Richard Trapp. Trapp set a Florida single game reception record against Auburn, catching 12 passes.

Auburn split end Freddie Hy-

att broke Lee Haley's record of 77 receptions in a career. He caught five passes against Florida to go one-up over his former coach, now at North Carolina.

Jimmy Carter, senior punt returner and sideback from Cedar-town, Ga., surpassed Dick McGowan's total punt return yardage for one season. He returned four punts for forty yards against Florida which upped his total to 384 yards for the season, five better than McGowan's 1939 mark.

Auburn-Mississippi State

Auburn over-powered the luckless Mississippi State Bulldogs, 36-0, before a homecoming crowd of 44,000 for their sixth win against two defeats.

Quarterback Loran Carter passed for four touchdowns, three to split end Freddie Hyatt. Carter, a junior from Dalton, Ga., was picked as the UPI back of the week in the SEC two straight times for his performance against Mississippi State and, a week earlier, against Florida.

In those two games, Carter was responsible for eight touchdowns. His good day against State (11 of 16 passes for 224 yards and 27 running) jumped Carter from 11th to fourth in total yardage for one season in Auburn's record book.

Hyatt's three touchdown catches gave him 12 for a three-year career, erasing 1957 All-America Jim Phillips' record of nine.

Assistant head coach Paul Davis, formerly head mentor at

Four minutes into the fourth quarter as lightning flickered over Legion Field, Auburn held a 3-0 lead growing larger by the minute and an even more impressive statistical margin over arch-rival Alabama.

Then in one lightning-like play Tide Quarterback Stabler found running room at end, turned the corner, and outraced the last Auburn defender 47 yards into the end zone to give Alabama a 7-3 win.

John Riley's 38-yard field goal in the third quarter had cheered Auburn fans, dismayed Tide partisans in the 70,000-plus crowd, most of whom stayed throughout a driving rain that began just before kick-off and matched intensity of the play on the field.

Auburn dominated the first half offensively and defensively, holding the Tide to a single first down. Auburn drove to a first down on the five but could move only to the two, then came back for a missed field goal try, and still a third drive to the seven.

Following Riley's field goal, Auburn recovered a 'Bama fumble at the Tide 23 but stalled, then lost the ball on the snap for a field goal try. Only on the subsequent series did Alabama cross midfield for the first time.

Early in the fourth period, Auburn was back on the attack after a McClinton interception. An offside erased a Carter- Christian pass just inside the Tide 20. One play later Luncford lost a bad snap and Alabama had the ball at their 46. Three plays later, facing a third and three, Stabler made his run that erased Auburn's margin on the all-important scoreboard.

Forced to punt, Davis' kick rolled to Auburn's six to set up another time-consuming exchange of kicks. Then in waning minutes Auburn twice started from its 20. Carter passed for 11 to Christian before Childs intercepted in the first series. In the final effort Carter hit Christian for 31 yards before Childs' second interception gave Alabama final possession. Then Alabama's third and fourth first downs (to 13 for Auburn) consumed the final two minutes.

State, received the game ball from Auburn players.

Auburn-Georgia

The pupil beat the teacher in the South's oldest rivalry. Georgia's head coach, Vince Dooley, formerly a player and coach under Ralph Jordan, evened his personal record against Jordan at 2-2.

A possible bowl bid went swirling away in the 25 mph wind for Auburn as Georgia's tough defense limited the Tigers to eight yards on the ground, and 89 passing. Georgia scored two touchdowns late in the fourth quarter to ruin Auburn's hopes for a late revival of their offense.

Mike Perillard was perhaps the brightest spark that Auburn showed in the 17-0 loss. The senior tight end from Hollywood, Fla., caught four of Auburn's five completions. He gained all but two of the Tiger's offensive passing yardage total.

Frosh Bow To Tide For 2-2 Season

The Auburn freshmen dominated the statistics but Alabama got 14 points on the scoreboard in the first quarter and hung on for a 14-6 win. The loss left Coach Tom Jones' charges with a 2-2 season.

In the season finale played here Nov. 25, the Tide freshmen scored quickly on a 55-yard pass play followed by an 18-yard run with a blocked punt. While Alabama remained a passing threat, the Tiger frosh held Alabama to minus seven yards rushing in the rest of the half and only 16 for the game.

In the second quarter Auburn marched 39 yards, capped with a one-yard sweep, but a holding penalty nullified the score and a pass interception in the end zone killed the drive.

In the fourth quarter Auburn drove 64 yards for a touchdown. The big play was a 29-yard pass to the four yard line. QB Mike Kelley tossed 14 yards to split end Billy Erwin, who lateralled to Terry Page and Page carried it 15 more yards to the four. Mac Crawford scored the TD from the one.

The freshmen rang up impressive wins over Florida, 31-0, and Mississippi State, 27-7, on either side of a 24-7 loss to Georgia's Bullpups.

SOCCER CLUB UNDEFEATED

The Birmingham Soccer Club stands as the only obstacle to an undefeated season by the Auburn Soccer Club. That game was to be played Dec. 3. Gaining momentum as the season has progressed, the Auburn club has kicked its way to victory in six games this fall.

Auburn got off to a rugged start in its first two games. They had to overcome a 3-1 halftime deficit to defeat Birmingham 4-3 and had to overtake a 3-2 Georgia Tech halftime lead to win 6-3.

Auburn next had to hold off a second half rush by Tuskegee Institute to win 4-3. Since mid-season the defensive play of goalies Pat Wagoner and Jerry Germann has been superb in the 4-2 and 5-1 wins over Maxwell AFB and the 5-0 defeat of Georgia Tech. Alan Carter has been the offensive standout, scoring 14 of his team's 28 goals.

Re-introduced on the Auburn sports scene a few years ago, the independent club, coached by Gabriel Villasenor, now is drawing modest numbers of spectators. Increasing numbers of American students also are participating in what used to be almost the exclusive domain of students from abroad.

CROSS COUNTRY HAS 5-1 MARK

Track coach Mel Rosen says the recently completed cross country season will have a good effect on the upcoming track season.

"We get our distance runners from the cross country team and we think this season really helped our distance boys," he said. "We had a 5-1 season and I would say that time-wise, this was our best team."

Four runners broke Auburn's old course record of 18:12 during the season.

The Tigers finished fourth in the SEC meet with nine teams entered.

"Our biggest win was the Cal-laway Gardens Meet," Rosen said.

The last two victories were over Alabama (26-32) and Georgia State, 20-40.

No one graduates from this season's squad and Vic Kelly will be the only runner to graduate next year.

ALUMNALITIES—Continued

Crown Cola Co. in Columbus, Ga. He was formerly assistant to the vice-president of market services.

Samuel Brightwell Ligon received his MBA degree from Harvard University on June 15.

William L. Rice is now employed as a pilot for Delta Airlines in Dallas. Rice, a former Marine captain, is also a full-time student in the School of Law at Southern Methodist University.

Lt. and Mrs. Thomas J. Lynch (Martha McCree '64) are moving to Rota, Spain, where he will serve as supply officer on the USS CANOPUS for two years.

Mr. and Mrs. Bobbie D. Smith (Janet Morris '62) live in Panama City where he is new plant manager of Swivel-Tilt Manufacturing Co., which makes boat trailers.

Mr. and Mrs. James J. Davis (Gail Turner) and son, Dodd, have recently moved from New York to Portland, Ore., where he has been promoted to products manager at national headquarters of Georgia-Pacific Corp.

Max Gordon, test engineer with General Dynamics - Fort Worth, was saved from injury by a capsule—a crew module escape system—when the F111A he was riding in crashed in October. The "capsule" rocketed the crew members away from the plane. Mr. Gordon is an ex-Marine jet pilot.

Michael E. Hammett who recently received a Ph.D. from Auburn is assistant professor of mathematics at Furman University. He and his wife Martha have two children—Marcia, 7, and Merlyn Leigh, 3.

Lee Fant, Jr., has been named assistant controller of the sheeting operation of West Point-Pepperell's consumer products division. He and his wife Nancy

McGinty '60 have two sons—Robert, 7, and David, 6.

Charles Blau recently transferred to the Chicago area with Eastman Chemical Products.

The Rev. Douglas Wasson, minister of the First Congregational United Church of Christ in Rock Springs, Wyo., has been elected governor-elect of the Rocky Mountain district of Kiwanis International. He will assume the position in 1969.

James Udell Price is assistant plant engineer with Lyman Printing and Finishing Co. in Lyman, S.C.

Sue Ward received an M.S. in Speech Pathology from Vanderbilt in August. In September, she joined the University of Houston as instructor in speech pathology and supervisor of student teaching and field services.

Howard T. Rogers, Jr., received a degree in chemical engineering from Auburn in August and is now development engineer with Dow Chemical Co. at the caustic plant in Plaquemine, La.

David W. Givens is technical service manager in the business jets division of Pan-American World Airways in New York.

Capt. James R. Whitley, Jr., received the Bronze Star Medal in Vietnam on Sept. 8. He received the award for outstanding meritorious service in combat operations. He also holds the Army Commendation Medal.

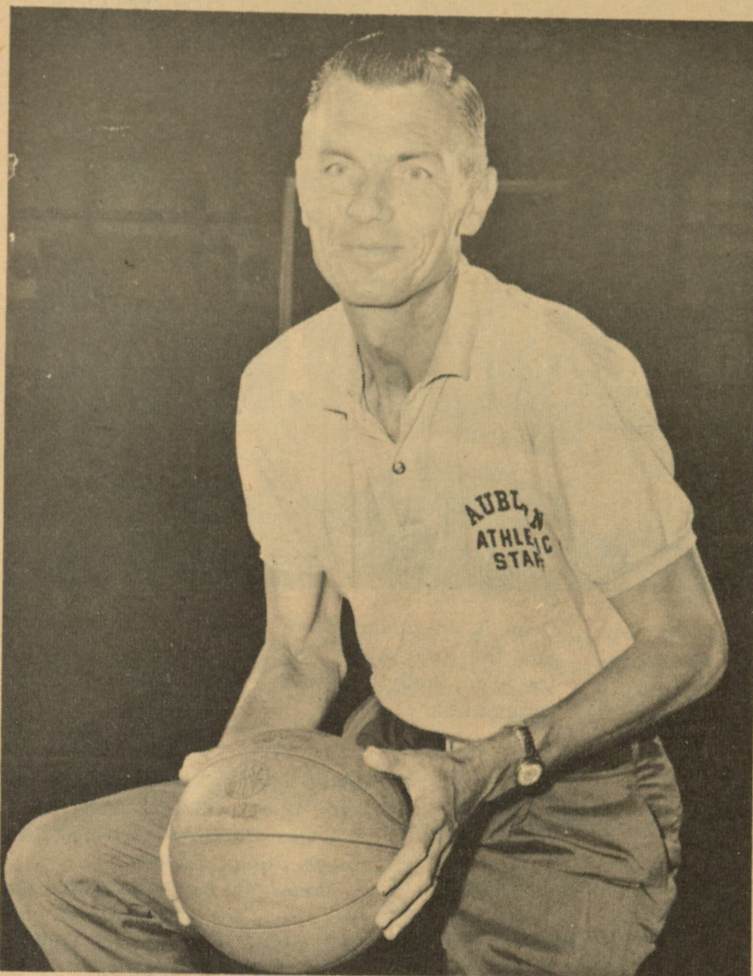

MARRIED: Mary Jane Hargett to Ridge Brown in Coronado, Calif., on Aug. 26. She teaches in Redondo Beach, and he is a pilot with Continental Airlines.

BORN: A daughter, Leslie Anne, to Capt. and Mrs. **Charles W. Lawrence, Jr.**, of Opelika on Oct. 16 . . . A daughter, Nancy

(Continued on page 16)

With December Road Trips Ahead—

Citadel Spoils Basketball Debut

IT'S THAT TIME AGAIN—Head Coach Bill Lynn '50 paused for a pre-campaign picture before sending his squad into the 1967-68 season opener against the Citadel at Auburn Dec. 1. Coach Lynn begins his fifth year as head basketball coach with a young squad, inexperienced in spots, but with potential for a good record if the team develops rapidly. December road games and tournaments will provide plenty of experience for Coach Lynn's squad.

Coach Bill Lynn's basketball team ran into the early-season trouble he had been wary of. Result: The Citadel spoiled the season-opener in Auburn Dec. 1, by taking a 73-70 win. The Cadets used backboard control and 61 per cent accuracy to dump Auburn who seemed to go flat after building an early 25-16 lead.

The visitors pulled even 35-35 at halftime, then moved to a 65-58 lead before Auburn's defense clamped down. At that point Auburn did move to a short-lived 68-67 lead on Tinker's layup with 2:50 to go. Perry was high man for the night and for Auburn with 20 points.

Auburn now takes the road: Dec. 4—Vandy; Dec. 9—Wake Forest; Dec. 16—Tech; Dec. 18-19—Tampa Invitational; Dec. 27-30—Oklahoma City Tourney; Jan. 3—LSU.

At home through mid-January, the Tigers face Ole Miss., Jan. 6; Mississippi State, Jan. 8; Vandy, Jan. 15; and on Jan. 20 at 2:15 in a regionally televised game, Kentucky.

ETV To Introduce Basketball Show

"Tipoff," an Auburn University basketball "report," will be telecast each Thursday night at 9 p.m. beginning Dec. 14, over the Alabama Educational Television Network.

Head Coach Bill Lynn will host the program, interviewing players, head coaches of opposing teams, with a look at films from the previous week's game and a discussion about upcoming opponents.

A new feature this year will be filmed segments with Coach Lynn and his players demonstrating proper techniques for good basketball of benefit to prospective players and of interest to spectators of all ages.

The program, produced in the Auburn Studios of the Alabama ETV Network, can be seen over channels 2, 7, 10, 25, 26, 36, and 42.

was a basketball and baseball teammate of Jim Walker, who earlier signed an Auburn basketball grant-in-aid.

While doing an outstanding job in football, basketball and baseball, Martin decided to give track a try his senior year and high jumped 6-2 for third place in the State meet.

He led the baseball team to state championships in 1964 and 1964, and to second place in 1966. Headland won the region title all four years.

"With the loss of Ray Cox, we are going to need a catcher. The way Martin hits the ball, he should be able to help us right away. He's a natural athlete, and could probably play more than one position.

"The first time I saw him he was playing basketball, and he really moves good. Martin is the type ball player who can win for you in a lot of ways," says Nix.

Frederick Building At South Alabama

Rex Frederick '60, former Auburn basketball star, was the subject of a recent UPI feature on the trials and tribulations of a new coach at a new school making plans to enter "big-time" competition. Frederick, twice an All-SEC basketball player and named once to the All-Conference baseball team is the first basketball coach at three-year-old University of South Alabama in Mobile.

Frederick went to South Alabama last August after serving at University of Georgia since 1962. While at Athens he coached the varsity through the last half of the 1965 season when Coach "Red" Lawson '32 was sidelined by illness.

Thus far Frederick has signed

eight boys for the new university's first season which opens Dec. 2 against Livingston State. Until South Alabama has its own physical education plant in 1968, Frederick's team will practice in high school gyms in the Mobile area. For home games he will share Mobile's 11,000 seat Municipal Auditorium with cross-town rival Spring Hill College, the state's oldest college. First schedules will be composed largely of freshman teams, Frederick said, as he looks ahead to getting on "big team" schedules in four or five years.

His spring roster indicates he has been an active recruiter: two from Georgia, four from Alabama, and one each from Kentucky and Indiana.

Club All-Stars for the past two years.

Martin was also named to the North-South All-Star team, the Greater Atlanta All-Stars and the Dugout Club All-Stars as a senior. He received the Headland High School Outstanding Senior Award.

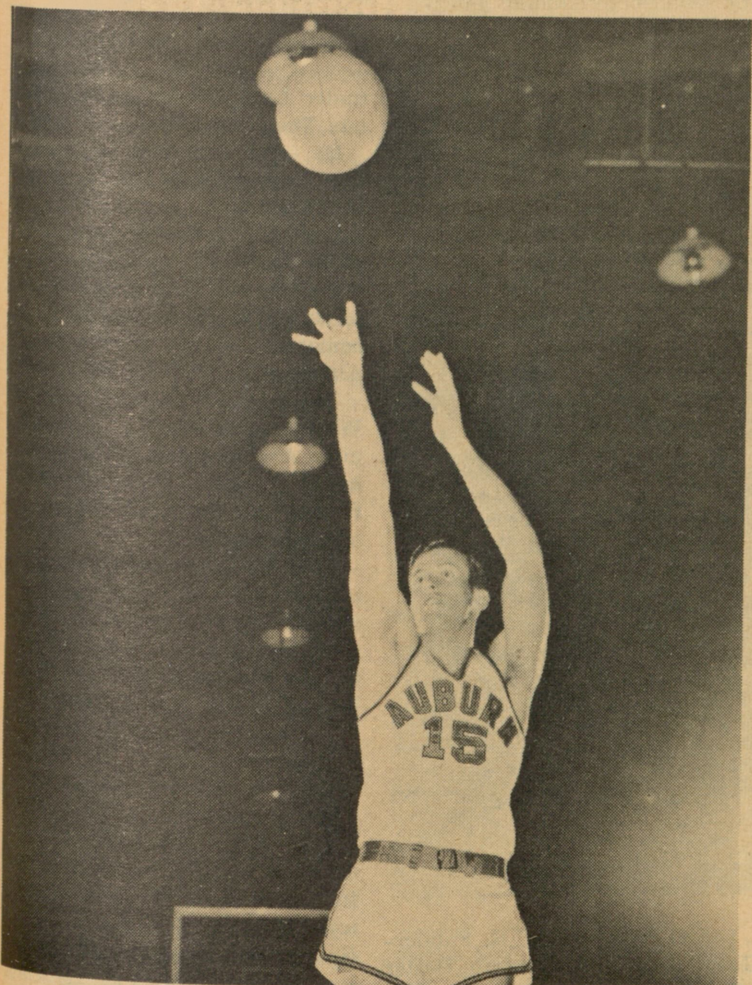

The first team football quarterback for three years, Martin also made the Greater Atlanta Football All-Stars. Not only was he an outstanding offensive player, but also he set a school record with three pass interceptions in one game.

A starter on the basketball team his last two years, Martin

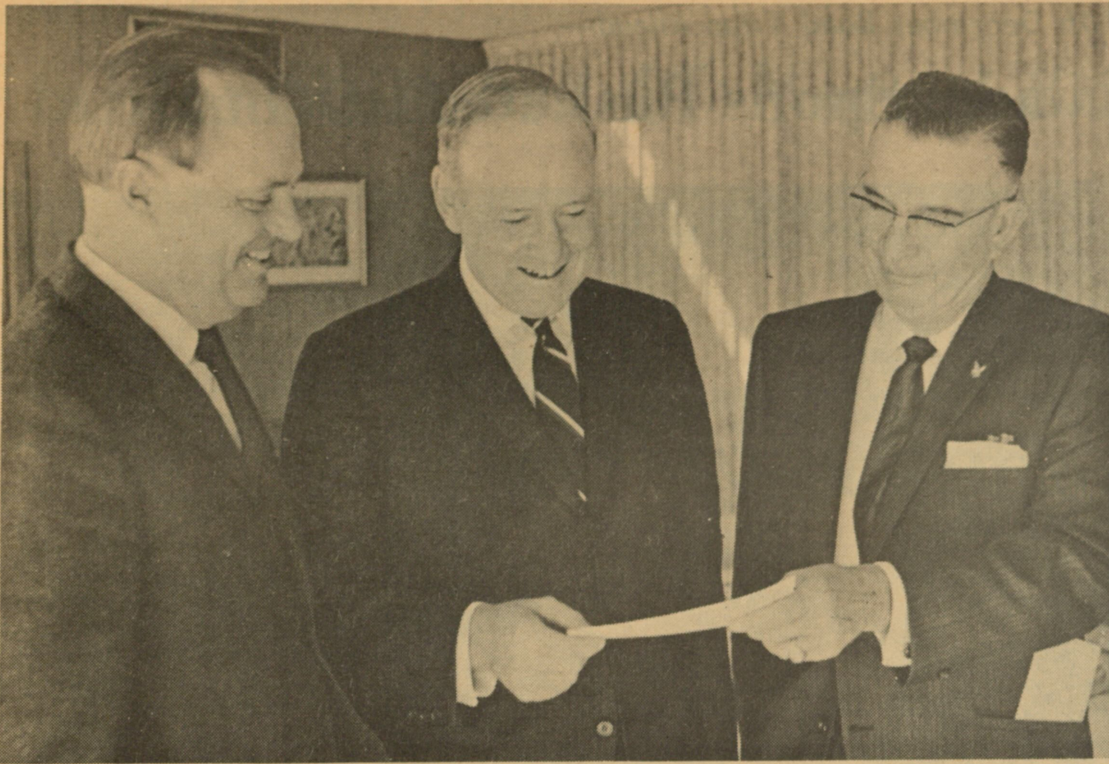

Nix Signs Atlanta Four-Sport Star

Joey Martin, an outstanding four-sport athlete from Headland High School in Atlanta, has signed a baseball grant-in-aid, with Auburn University, according to athletic director Jeff Beard and baseball coach Paul Nix.

Martin led Headland in hitting for four years, batting .348 in the ninth grade, .441 in the 10th, .420 in the 11th and .430 as a senior. He was named to the Braves '400'

TIGER LEADER—Alex Howell, senior guard, will lead this season's basketball team as captain. The Blakely, Ga., athlete led the Tigers in scoring last year with 348 points.

SUPPORT FOR ARCHITECTURE—R. A. Puryear, Jr. '30, at right, president of Alabama Gas Corporation, presents a check for a \$1,500 travel award to President Harry M. Philpott. Looking on is

Dean J. Ingraham Clark, School of Architecture and the Fine Arts. The annual award provides travel for study by winners in architectural design competition.

Event Began 39 Years Ago—

Keene Wins Cake Race

R. C. Keene of Cusseta, Ga., won the 39th running of the Wilbur Hutsell-Omicron Delta Kappa Cake Race this week at Auburn University.

The red-haired Keene defeated over 300 fellow runners and toured the 2.7 mile course in a time of 16 minutes, 38 seconds. For his efforts, Keene received a silver trophy, a large cake, and a big kiss from Miss Auburn, Julia Archer of Indian River City, Fla.

Keene was almost two minutes over the record time of 14 minutes, 30 seconds, set by Rueben Finney in 1952.

Plainsman writer Richard Wittish used the occasion to dig into history of the Cake Race. His story, in abbreviated form, follows.

In 1929 Marshall S. Caley became the first of 14,689 Auburn males who in subsequent years

have run the now traditional Wilbur Hutsell - Omicron Delta Kappa Cake Race.

Caley, then hailing from Marion Junction, led 264 other freshmen across the finish line of the 2.7 mile race in 15 minutes, 26 seconds. Among the defeated freshman was James Emmet McQueen, who finished 14th and later became the Southeastern Conference record holder in the two-mile run.

Mr. Caley's awards were a freshman letter, a cake, and a kiss from Dabney Hare, daughter of the late Dean Cliff Hare. There was no Miss Auburn at the time and Miss Hare acted as a representative of ODK, which staged the cake race to further bolster the flourishing Auburn spirit. Mr. Caley is control manager in United Airlines' executive offices in Chicago. His classmate Mr. McQueen teaches vocational agriculture at Clayton High, and was honored at Auburn University in 1963 for his 30 years teaching. Miss Hare, also of the Class of '33, is now Mrs. W. C. (Red) Sugg and lives in Auburn.

vin Hale '63 of Mobile on Oct. 1. He joins big sister Kimberly Mervin, age 2 . . .

A daughter, Elizabeth Cecile, to Mr. and Mrs. **Nance C. Lovvorn** (Cecile White '64) of Gadsden on Nov. 5 . . . A son, Scott Edward, to Mr. and Mrs. **James E. McGlon** (Jane Boss) of Clearwater, Fla., on Oct. 18. He joins big sister, Meredith, 3 . . .

Twins, Amy and Scott, to Mr. and Mrs. **Charles Arant** (Mary Ann Pugh) of Baton Rouge, La., on Aug. 2. Amy and Scott join big brother Lee and big sister, Mary Claire.

Betty Thomas is an instructor in the Berkely Preparatory Lower School in Tampa, Fla.

Mr. and Mrs. **James L. Leighauser** (Virginia Bryan '63) live in Westbury, N.Y., James is a systems analyst for the Mergen-

Baggette Has Test Role For Appollo

Testing the giant Appollo/Saturn V rocket engine second stage is a critical job. So NASA co-workers recently honored the good work of test conductor Tom L. Baggette '57 with a special new chair to make his job more comfortable. Mr. Baggette has conducted nine tests of the second stage since April, 1966, at NASA's Mississippi Test Facility where he works with North American-Rockwell Corp.

Mr. Baggette, his wife Barbara and their three children live in Leland, Miss.

CLASS OF 1922—Back for their 45th anniversary reunion, members of the Class of '22 saw the Tigers down Florida 26-21. Shown here, left to right, are, first row: Aubrey Bennett, Frank Moseley, Rowe Johnson, '27, James F. Holt, James W. Thornton, Mrs. Robbie Smith Sparks, A. Reese Harvey, Dewey Stewart, John C. Banks, Charles B. Ordway;

Second row: Curtis P. Cook, D. Lanier McDavid, C. H. Funderburg, J. P. Robinson, Robert H. McGinty, L. M. Hollingsworth, Hester M. Smith, David D. Wendel, Harry W. Watkins, L. B. Ordway;

Third row: Dr. Ralph B. Draughon, W. Bryan Proctor, John F. Tribble, E. T. Gullledge, R. Orrick Davis, H. E. Monroe, Charles S. Keller, John O'C. Jackson.

thaler Linotype Co. in Manhattan. Their son James, Jr., is 2½.

Mr. and Mrs. **James Everett Posey, Jr.**, (Veeda Lambert) live in Guntersville where he is claims representative with Alabama Farm Bureau Insurance.

Dr. Thomas G. Amason, Jr., is currently doing a residency in pediatrics at the University of Alabama Medical Center.

The Rev. and Mrs. **Donald B. Wills** (Pat Russo) live at 403 Virginia Ave. in Albany, Ga., where he is minister at the Radium Church of Christ, and Pat does substitute teaching.

John Phil Cummings teaches at Bellingsworth Jr. High in Montgomery.

Mr. and Mrs. **John William Gilbert** (Janice Walters '59) now live in Arlington, Va., where he is a mathematician-programmer with the Department of Defense. They have two daughters, Joanna 5½ and Carolyn 4½.

Robert D. Powers, D.V.M., received a Ph.D. in pathology from the University of Tennessee Medical Units at Memphis in June. He is presently assistant professor of pathology and associate director of the Vivarium with the U.T. Medical Units.

(Continued on page 17)

ALUMNALITIES—Continued Fisher Promoted: Now Associate

Adrienne M. Arnold is now teaching in Germany with the Department of Defense Dependents Schools.

Clyde Cross is head football coach at Valley Point High in Dalton, Ga.

Kenneth A. Clemons is principal of Eagen School in Birmingham.

'63 Maj. **Samuel W. Hanks** is stationed at McGuire AFB, N.J.

Tom Flournoy, III, received the Chartered Life Underwriter designation of the American College of Life Underwriters on Sept. 8. Tom is with New York Life Insurance in Atlanta where he and his wife, **Annie Laurie Still '67**, live.

James B. Darby has been appointed clerk of the Montgomery Municipal Court. A Montgomery native, he has been associated with a family dry cleaning business.

Capt. Charles R. Overstreet is assigned to Perrin AFB, Tex., after completing orientation at Brooks AFB, Tex., as an officer in the Air Force Medical Service.

Robert G. Bearden is director of marketing with Honig Time Sharing Consultants in Hartsdale, N.Y.

Dr. David H. Gaillard, Jr., is interning at the University of Washington Hospital at Seattle after receiving his M.D. from the Alabama Medical School in June. He and his wife Susan have a three-month-old son, Benjamin David.

Errol H. Barnes is an electronics engineer with the Navy Mine Defense Lab in Panama City, Fla. He recently returned from Vietnam where he worked on a Navy special project. His wife **Sharon English '62** received an M.A. from Florida State in August, 1965, and teaches art at Gulf Coast Jr. College. They have a baby daughter, Sharrol Elizabeth.

Capt. and Mrs. Levyn W. Ivey have moved to the Philippines for a three-year tour.

Mrs. Virginia Theiring McMahon and her husband, Maj. **Robert W. McMahon**, are in Puerto Rico, where he is with the ROTC staff at the University of Puerto Rico.

Teddy J. Jensen is a professor of Romance languages at Wake Forest University in Winston-Salem, N.C., after completing work for his M.A. in Romance languages at the University of Alabama in May.

Capt. Gene W. Quick has been decorated with the Distinguished Flying Cross, six Air Medals, and the Air Force Commendation Medal for action in Vietnam. He now holds 12 Air Medals. Capt. Quick is now assigned to Moody AFB, Ga., as a T-37 instructor pilot with the Air Training Command.

Capt. Elwyn E. Palmer is management engineering chief at Nellis AFB, Nev. He and his wife **Martha St. John '64**, have a daughter, Kimberley, 1.

Phillip C. Williams joined TRW, Inc., in Redondo Beach, Calif., as a spacecraft control systems engineer in August.

Margaret Allen Hanawold and her husband, Maj. L. M. Hanawold, live in Oxon Hill, Md., where Maj. Hanawold is sta-

tioned with the Department of The Army. They have a seven-month-old daughter, Sarah Lin.

The Rev. and Mrs. **James E. Elliott (Jane Pinkston)** now live in Huntsville where he is associate minister of the Holmes Street Methodist Church. He received his B.D. from Candler School of Theology, Emory University on June 5. The Elliotts have one son, James Edward, III, age 1.

Mr. and Mrs. **Donald J. Cosby (Charlene Rollo '65)** live in Norman, Okla., where he is working toward a master's in the Department of City and Regional Planning at the University of Oklahoma.

Capt. Clifford E. Dykes is stationed in Taiwan as an instructor navigator aboard a C-130 aircraft. He has received the Air Medal for combat missions in Vietnam, the Vietnam Service Medal, and the Vietnam Campaign Medal. His wife **Elaine Hart Dykes '67** is presently living in Mobile.

Lt. Aubrey Davis, Jr., is serving with the Navy in DaNang, Vietnam. He and his wife Anne have two children: Mike, 5, and Cynthia, 2.

Wayne Murphy resigned as head of the Auburn High School physical education department and track coach to join Spencer Lumber Co. as director of housing and land development.

Mr. and Mrs. **M. C. Smitherman, Jr. (Betty Wilson)** and daughter Elizabeth, 1, are now living in Scottsdale, Ariz., at 6824 East Coronado Rd. M. C. is with Magic Chef.

Eldridge Baxter Evans has opened his own real estate firm, Baxter Evans & Co. in Macon, Ga.

MARRIED: Carolyn Graves '65 to **Thomas Neal Smith** on Oct. 23,

Homer S. Fisher, Jr., is new associate registrar at Auburn University. Dr. Wilbur A. Tinch, director of Educational Services, announced Fisher's promotion was effective Nov. 1.

"This promotion is in recognition of the excellent leadership Mr. Fisher has given as assistant registrar during the University's transition in registration procedures," Dr. Tinch said.

Fisher has served as assistant registrar since July, 1966. Previous to that time he was a member of the faculty in the Department of Economics and Business Administration and assistant to the dean of the School of Science and Literature.

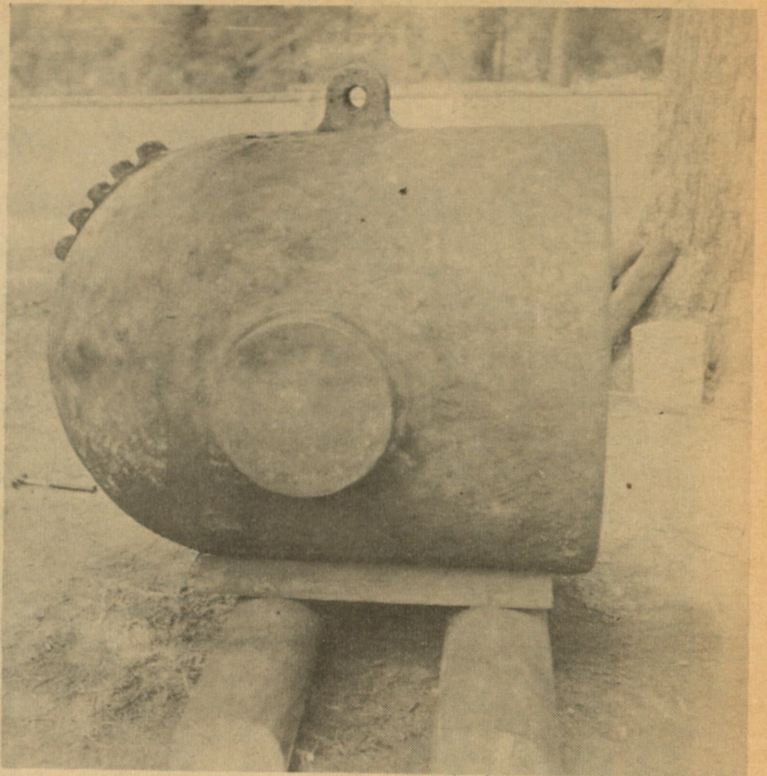

Fisher holds the B.S. and M. B.A. degrees from Auburn. He is vice president of the Faculty Club and immediate past secretary.

Fisher is active in Rotary and is a member of several professional and honorary societies. He is married to the former Patricia Little and is the son of Mr. and Mrs. H. S. Fisher, Sr. His father is associate professor of horticulture at Auburn.

1966. Neal is an accountant with Florida East Coast Railway in St. Augustine, and Carolyn teaches English at Flagler College.

Beverly Beard to **Stephen Ronald Landers** on Nov. 22 in Carthage, Tex. Stephen works with the Monarch Marking System Co. in Atlanta.

BORN: A daughter to Mr. and Mrs. **James W. Coats (Carolyn Sue Webb '64)** of Kingsport, Tenn., on Sept. 26. A daughter, Kristen Lee, to Mr. and Mrs. **Ellis L. Hayes** of Clearwater, Fla., on March 29. She joins big brother Brent, 2.

"IN" THING FOR ALUMNI—Recovering Civil War guns and cannon seems to have caught on with Auburn alumni—this is the second one to turn up in recent months. Tom McMillan '66, an Auburn graduate student in forestry, recovered the 13-inch Seacoast Mortar from near Mobile Bay on July 4. One of the largest guns of the Civil War, this monster weighs 17,200 pounds and is stamped "Ft. Pitt, Pa. 1862." Almost six feet long and 43 inches in diameter, it used a 220-pound exploding shell and had a range of 2½ miles. At the present the mortar is located at Stockton where it is being treated to preserve it. Although Tom doesn't know how it got into Mobile Bay, he thinks it was left beached on Ft. Huger during the battle of Ft. Blakely in April, 1865.

A son, John Wade, to Mr. and Mrs. **J. Kenneth Stanton, Jr.**, of St. Louis on Sept. 24. A son, Gregory Davis, to Mr. and Mrs. **Cecil Wayne Campbell (Ann Grogan)** of Kansas City on Oct. 29. He joins Scott, 2½. Wayne is plant industrial engineer for Ford Motor Co. in Claycomo, Mo.

A daughter, Susan Gayle, to Lt. and Mrs. **Conrad L. Beland (Barbara Beckman)** of Groton, Conn., on Oct. 4. Lt. Beland is presently serving as engineer aboard the submarine IREX.

A daughter, Katherine Elizabeth, to Mr. and Mrs. **Charles E. Crockett** of Montgomery on Oct. 19.

'64 WHERE THEY'RE WORKING: Maurice E. Bell has been promoted to commercial lighting engineer at Alabama Power's general office in Birmingham. Jay E. Mabrey is a chemical engineer with Southland Paper in Channelview, Tex. His wife **Janet Kay Engel '65**

(Continued on next page)

40TH REUNION—Members of the Class of 1927 shared a reunion weekend with Class of '22, enjoying perfect weather, Auburn memories, and Auburn's exciting win over Florida. Posing for the traditional class picture are, left to right, first row: Mr. Dumas, Mrs. Mattie Mae Allen Dumas, Mrs. Robinson, Mrs. Ruby Russell Riddle, Mrs. Mary Stodgill Thomas, Joseph E. Robinson, Mrs. Margaret (Cricket) Lane Jackson, Mrs. Sabrie Williams Reid, Miss Marie Lambert, Rowe Johnson, Mrs. Bessie Junkins Lowery, Mrs. Stephens, Miles E. Stephens;

Second row: Mrs. Leslie, James B. Leslie, Ben P. Robinson, Mrs.

Velma Ward Whatley, Mrs. Frances Zachry Philips, J. C. Bull, R. Paul Holley, George F. Holmes, J. D. Stewart, Joseph M. Edwards;

Third row: Joseph P. Roche, Rodney G. Carter, Albert C. Carter, Clement C. Torbert, W. H. Stoves, Rama M. Ellis, F. P. Hereford, Sam D. Lowe, M. J. Gorrie, J. M. Nelms, William B. McDonald;

Fourth row: Edgar C. McNeese, Lloyd J. Maxwell, Walter O. Crawley, William P. Molette, William C. Regan, J. B. Hollingsworth, William H. Francis, E. A. (Dizzy) Pruett, Guy L. Burns, Forney H. Ingram.

PORTRAIT OF AN ADVISOR—A highlight of the 25th reunion of Beta Omega chapter of Alpha Delta Pi sorority this fall was the presentation of a portrait of the advisor for those 25 years. She is Mrs. Gladys Steadham Stewart shown here before the portrait done by Leonard Loard of Montgomery. Former chapter president Lynda Myrick unveiled the portrait in ceremonies attended by one hundred alumnae. General chairman of the event was Mrs. Beverly Biggin of Birmingham, assisted by Mrs. John Curry, chairman of local alumnae, and Mrs. Luther Kirkley, Jr., also of Auburn. The Grand President of the sorority added by letter her tribute to Mrs. Stewart as "the consistent force behind the success of Beta Omega at Auburn."

ign Service of the U.S. After entering the State Department in 1966, Mr. Boettcher was transferred to the American Consulate in Sapporo, Japan, where he is vice consul . . .

Glenn Parker is an astronaut flight crew training instructor and Apollo systems engineer with NASA at Cape Kennedy, Fla. . . . **James C. Johnson**, project engineer with Geigy Chemical Corp. in Mobile . . . **Thomas Glynn Gilbert** and his wife **Suzanne Hunter** '65 live in Columbus, Ga., where he is head baseball coach and assistant football coach at Jordan High . . .

Donald E. Arnett works with Florida Power and Light Co. in Cocoa, Fla., after release from the Army . . . **Jim Vickrey**, coach of the Auburn University debate team, has been named to the national debate tournament committee . . .

James E. Riley has been promoted to supervisor in the Industry Products Section of Armstrong Cork Co. of Lancaster, Pa. His wife is **Helen Williams** '66.

WITH THE ARMED FORCES:

1/Lt. **William E. Bartlett, Jr.**, a pilot on a C-135 Stratolifter, recently helped set two new military airlift command records. His group flew from Clark AB, Philippines, non-stop to McGuire AFB, N.J., in 16 hours, 50 minutes. He is married to **Carolyn Orr** '65.

Holds First Alumni Assembly—

Alpha Phi Omega Marks 40th Year

by Mike Adams '68

On Halloween night in 1927, eleven Eagle Scouts met on the second floor of Broun Hall to be installed by Col. Millard Westcott '09, a scout executive from Montgomery, as Delta Chapter of Alpha Phi Omega, the national service fraternity. On Oct. 27-29 Delta Chapter celebrated its fortieth anniversary with its first Alumni Assembly.

Alpha Phi Omega began at Lafayette College in Easton, Pa. in 1925. Its purpose was "to assemble college men in the fellowship of the Scout Oath and

Law, to develop leadership, to promote friendship, to provide service to humanity, and to further the freedom that is our national, educational and intellectual heritage." There are now 460 chapters with 105,000 past and present members.

Alumni Group Planned

Paul Brake was the initial founder of Delta Chapter, the fourth oldest in the nation. Other founders were: William C. Welden, H. G. Wilcox, Frank W. Lull, C. D. Bradley, William W. Oyler, N. C. Canterbury, William E. Keith, Jr., Charles F. Striplin, George G. Blau, Jr., and Jesse P. Calhoun.

At the Founder's Day Banquet on Oct. 28, the first steps were taken toward the formation of the Auburn University Alpha

Sept. 2. Dale is a doctoral student in agricultural engineering at Auburn University . . . Margaret Viola Davis to **Francis Berry Grant** in Atlantic Beach, Fla., on Aug. 5. Mr. Grant works with the First National Bank in Montgomery . . .

Virginia Huckstep '66 to **Jerry Radford Brown** in Birmingham on July 22. Jerry works with Rust Engineering in Birmingham and is a student at the University of Alabama there . . . **Jane Lowry Zachry** '67 to **William D. Hyatt** on June 17. They live in Alexander City. **Marian Louise Singer** to Gary Neil Little in Lumpkin, Ga., on Sept. 17. Gary is a senior at the University of Alabama Medical School . . . Glenda Gail Cleckley to **Lloyd Leon Turner, Jr.**, on Oct. 28 in Birmingham . . . Margaret Elizabeth Brockway to **Joseph Riley McDavid, Jr.**, on Nov. 4 in Conyers,

Omega Alumni Section. Its purpose will be to further the ideas of A Phi O by stimulating and extending the program of the fraternity through continuing service and financial aid.

The group has elected officers who will continue its formation. They are David Peet of Atlanta, president; David Spenser of Columbus, Ga., vice-president; J. W. Beck of Atlanta, treasurer; and Edwin Walker of Jacksonville, membership chairman.

Among A Phi O's activities on campus are the operating of a non-profit book exchange, care and training of War Eagle IV, the conducting of campus tours for visitors, the sponsoring of an annual camporee for local scouts, and the conducting of the annual Ugliest Man on Campus contest.

A Phi O's other contributions to the campus include the donations of Cliff Hare Stadium's first electric scoreboard in 1949, War Eagle IV's cage in 1965, and the Ross Square fountain and the stadium's American flag in 1966.

Ga. Mr. McDavid is with R. P. McDavid & Co. of Mobile . . .

Shirley Rebecca Walker to **Ens. Walter Kenneth Williams** at Smiths on Nov. 4.

BORN: A daughter, Patricia Beth, to Mr. and Mrs. Buddy Ray Brazelton (**Patricia Humphries**) of Guntersville on Oct. 13 . . . A son, Osburn Clyde, III, to Mr. and Mrs. **Osburn C. Prather, Jr.**, of Auburn on Nov. 8 . . .

A daughter, Patricia Carol, to Mr. and Mrs. **Herbert L. Hale** of Decatur. She joins Mona Fay, 3. Mr. Hale is textile engineer in the technical lab of Monsanto Textiles Division in Decatur . . .

A son, Troy Gerald, Jr., to Dr. and Mrs. **Troy Gerald New (Lynda Lloyd Crook)** of Mobile on May 1. Dr. New graduated from the University of Alabama Medical College in May and is intern-

ing at Mobile General Hospital. A daughter, Kendall Taylor, to Mr. and Mrs. **Ronald McBryde Jones** (Glenda Franklin '63) of Birmingham on Oct. 1 . . . A daughter, Carolyn Elizabeth to Mr. and Mrs. **Boyd A. Evans, Jr.**, (Patricia Owen '65) of Murfreesboro, Tenn., on Oct. 16 . . . A daughter, Tammy Lynn, to Mr. and Mrs. **Richard Chapman** of Decatur, Ga. on Oct. 19 . . . A son, Perry Featherston, to Mr. and Mrs. **Perry Smith** (Adele Feathersen Eckford '62) of Miami on Sept. 2 . . . A son, Robert William, Jr., to Mr. and Mrs. Robert William Walker (**Jane Elizabeth Crum**) of Hueytown on Oct. 26 . . . A daughter, Susan Rebecca, to Mr. and Mrs. **Raymon Allen Heaton** (Virgina Heaton '67) of Huntsville on May 15.

BORN: A son, Craig Alan, to Mr. and Mrs. John E. Brookes (**Carol Duke**) in Wiesbaden, Germany, on July 14. Carol and John are stationed with the British Army of the Rhine Headquarters. They will be returning to the States in March . . . A daughter, Virginia Anne, to Mr. and Mrs. **Walter A. Saunders** of Marietta, Ga., on July 16. Walter works as a manpower analyst with Lockheed-Georgia . . . A son, Robert Patrick, to Mr. and Mrs. **L. Fred Sitten** (Claudine Flanagan) on Aug. 18 in Lexington Park, Md. . . . A daughter, Tara Denise, to Mr. and Mrs. Paul Martin of Haleyville Sept. 13. She joins Ginger Lynne, 2 . . . A son, John Joseph, to Mr. and Mrs. Norman L. Price, (**Helen Moseley**) of Tuscaloosa on July 27 . . . A son, James Buchanan, to Mr. and Mrs. **James H. Miller** (Dorothy Chinn '61) of East Gadsden on Sept. 10 . . . A son, George Wilburn, III, to Mr. and Mrs. **George W. Ward, Jr.**, of Auburn on Sept. 13 . . . A daughter, Cynthia Elaine, to Mr. and Mrs. **Richard Henry Dour** (Wanda Odone '62) of Montgomery on Sept. 11 . . . A daughter, Kelda Rae, to Mr. and Mrs. **J. Willard King** of Rome, Ga., on Sept. 27 . . . A daughter, Laura

Ellen, to Mr. and Mrs. Robert P. Davidow (**Alison Jones**) of Grand Forks, N.D., on July 28 . . .

'65 WHERE THEY'RE WORKING: **James E. Alderman, Jr.**, is a newsman-reporter for WAPI—Television-Radio in Birmingham. His wife **Janice Ruth Norman** '66 teaches in Tarrant . . . **J. T. Taunton, Jr.**, systems analyst for the Tennessee Eastman Co. in Kingsport, Tenn. . . . **W. J. Cook** is an instructor in the Auburn English Department . . . **Charles W. Bryan, II**, an instructor in the Auburn School of Business . . . **Armand W. Brasse**, an instructor in the Auburn Math Department . . . **Terry W. Bryant** has joined McBee Systems of Litton Industries as systems sales representative at their Birmingham office . . .

Hugh A. Swingle, Alabama Marine Resources Lab, Dauphin Island . . . **Beverly Ann Roberts Gamble** teaches at Forest Park Senior High in Forest Park, Ga., and teaches night school at the Atlanta Area Technical Vocational School.

David W. Prewitt is veterinarian of disease control with the Animal Health Division of the Agricultural Research Service at St. Cloud, Fla. . . . **Jerry L. Brown**, received a Master's from Auburn in August and joined Monsanto Chemical Corp at Aniston as analytical chemist . . . **Patrick W. Davis**, sophomore medical student at the Medical College of Alabama after working as a letter carrier for the Post Office after graduation . . .

George E. Coats is a student in the plant pathology and physiology department at VPI in Blacksburg, Va. . . . **Carroll Campbell Strickland** teaches with the Educational Improvement Program in Huntsville . . . **John Carter Jones** is new IBM 360 computer programmer at Acipco Pipe Co. in Birmingham. He will spend the next few months attending IBM schools in Atlanta and New Orleans. He and his wife Barbara have two daughters, Christy and Jody . . .

Lawrence W. Bannon, a computer analyst with General Electric in Buffalo, N.Y. . . . **Dr. Edward B. Anders** is now with the Mathematics Department at Northwestern Louisiana State College in Natchitoches, La. . . . **Mickey Wilkes**, stewardess for United Airlines, based in New York City. . . . **Patricia Sisler May** lives in Opelika and teaches at Loachapoka Elementary School.

Jay R. Bryan was released from the Air Force in September and joined the Department of Medicine and Surgery in the School of Veterinary Medicine at the University of Missouri as a research associate . . .

Chris Aloia has been promoted to Arkansas construction accountant for Larkwood Farms, subsidiary of Pillsbury Co. He, his wife, and small son Rodney Alan, have moved to Fort Smith, Ark. . . . Mr. and Mrs. **Thomas D. Shuford** (Lois Ann Vandegrift) live in Chamblee, Ga., where he is a staff engineer with Management Science Atlanta, Inc. . . . Mrs. **Angleine Laney Scruggs** teaches at Smith Station High . . . **Kelly Collum** has joined the Speech Department at St. Nor-

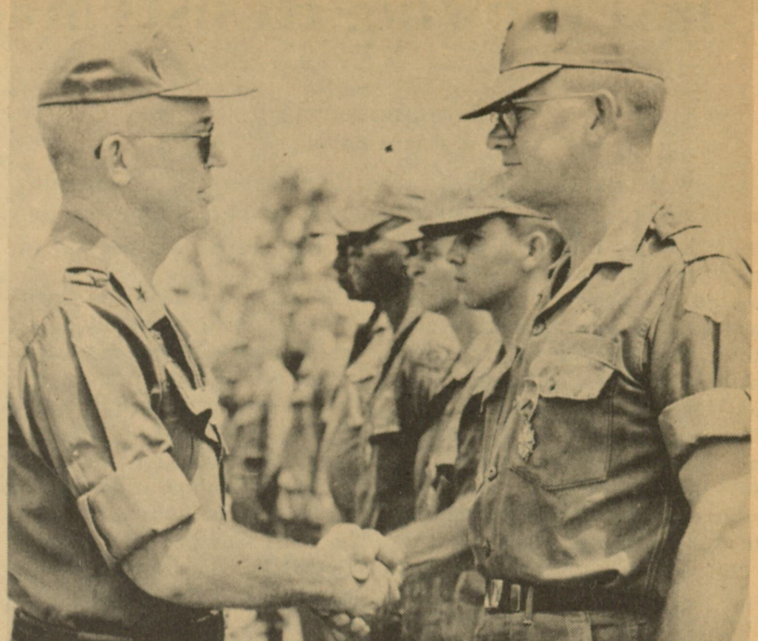

bert College in West De Pere, Wis. He recently received a master's in theater from the University of Michigan . . . **Vernon Ramiro Castillo** began work in the Central Bank of Managua, Nicaragua, C.A., in September after managing the family ranch since graduation. He and his wife Lucia have a daughter Alexandra . . . **Charles C. Holt**, who recently completed the requirements for the Ph.D. at Auburn, is assistant professor of English at Austin Peay State University in Clarksburg, Tenn. . . . **Janice Mallory Bailey** teaches at Southland Academy in Americus, Ga.

WITH THE ARMED FORCES: **Lomas A. Hinkle**, completed an advanced infantry course June 29 at Ft. McClellan. . . . **William W. Smith** completed an administration course at Ft. Polk, La., on June 30. . . . **2/Lt. Charles C. Holman**, receiving his pilot wings at Vance AFB, Okla., now is at McClellan AFB, Calif. . . . **2/Lt. Dennis A. Davison**, at Lowry AFB, Colo., after completing a ground electronics officer course at Biloxi AFB, Miss. . . . **Larry L. Ruis** completed advanced infantry training on July 7 at Ft. Dix, N.J. . . . **Clarence E. Grove** will complete his army duty when he returns from Vietnam in October. . . . **Norman R. McDaniel**, assigned to Brookley AFB after completing Air Force technical training school at Amarillo AFB, Tex. . . .

Lt. Ledell Pearson, Ft. Bliss, Tex. . . . **William P. Martin** who volunteered for a third Vietnam assignment recently flew to Weisbaden, Germany, to visit his parents Lt. Col and Mrs. **William P. Martin** '44 (Sara Frances Godfrey '44). The two-year veteran of the Vietnam War holds a Bronze Star . . .

2/Lt. Miles O. Martin, Jr., is a ground electronics officer at Eglin AFB, Fla. . . . **Henry J. Hughes**, **George R. Adams**, and **James P. Scarbrough** are stationed at Ft. Leonard Wood, Mo. . . . **Andrew W. Hinton, III**, assigned to Chanute AFB, Ill. . . .

tems operator pilot . . . **James A. Bauer**, stationed at Ft. Jackson, S.C. . . . **Wilford E. Bailey**, attending Officer Candidate School at Marine Corps Schools in Quantico, Va. . . .

1/Lt. Bernard S. Jacobs received the Air Medal at Da Nang AB, Vietnam, for air action in Southeast Asia . . . **2/Lt. Howard L. Rhodes** completed a medical service officer basic course at Brooke Army Medical Center, Ft. Sam Houston, Tex., on Sept. 8 . . .

2/Lt. Foster A. Hockett has received the Air Force Commendation Medal at Keflavik Airport, Iceland. He was decorated for meritorious service at his previous assignment at Ellsworth AFB, S.D. . . . **Lt. Henry Wayne Williamson, Jr.**, stationed at Ellsworth AFB, S.D. . . . **Ens. Edward E. Barker**, stationed aboard a destroyer in the Tonkin Gulf area . . .

1/Lt. Bernard S. Jacobs with the 390th Tactical Fighter Squadron at Da Nang AB, Vietnam . . . **Lt. James C. Nix** has received the Bronze Star Medal for service in Vietnam. He is now serving as an instructor with the Field Maintenance Test Equipment Branch of the Nike Division of the Air Defense Department at the Army Missile and Munitions Center and School at Redstone Arsenal . . . **Sam M. Cunningham**, attending Navy OCS . . . **Lt. J. Ralph Stowe, Jr.**, stationed in Vietnam . . .

L/Cpl. William E. Taylor is stationed with the Marines at Phu Bai, Vietnam.

MARRIED: **Judy Charlotte Stone** to Peter Thomas Kyper in Auburn on Sept. 9. Judy is an Auburn graduate student in history and Peter in English . . . **Marianne Murfee** to Ronald Calvin in Houston, Tex., on Oct. 27 . . . **Alicia Huff** to Capt. William M. Sport in Auburn on Nov. 25 . . . **Laura Celester Little** to **James Salter Tillman** in McKenzie on Sept. 23 . . .

Suzanne Scarlett Kelley '66 to **William Edward Rutledge** in Camden on Nov. 25. William is with the U.S. Public Health Service in Whiteriver, Ariz. . . . **Karen Burns** to **James L. Carroll** in Nederland, Tex., on Nov. 22 . . . **Katherine Parks** to Lt. (jg)

Moore, Arnold Write Paper On Accident In Appollo System

In August 1966 during a test loading of liquid oxygen used as a propellant for the Saturn V vehicle, a transfer line ruptured and some 730,000 gallons were spilled. Out of the experience came a study of the causes of the rupture by two alumni at Kennedy Space Center, Irby Moore '57 and Ray Arnold '65.

Their study and description of methods used to restore the system led to a paper which they presented in late August at the 1967 Cryogenic Engineering Conference at Stanford University.

Thomas Craig George on Aug. 12. They live in San Diego.

MARRIED: **Virginia Ann Hodges** to Edwin Castleberry Graves in Birmingham on Aug. 21 . . . **Lila Miranda Vinson** to Jack Lee Graves in Langdale on Aug. 26 . . . **Joy Marie Shaw** '66 to **Ronald W. Frezee** in Birmingham on Sept. 16 . . . **Mary Charlene Griffin** to **Samual P. McClendon, Jr.**, in Dutton on Aug. 26. Sam works in Scottsboro with the Soil Conservation Service . . .

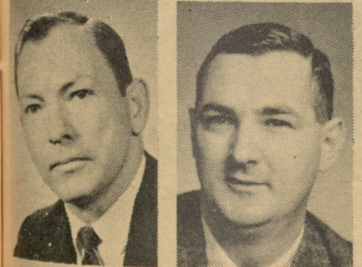

Wawona Hallman to K. J. McGill in March. They live in Gulf Breeze, Fla. . . . **Jean Faye Haliburton** to Michael McCain. They live in Montgomery . . .

Married: **Ramona McGee** to **Ronald C. Long** in Montgomery on Sept. 8. . . . **Jana Howard** '67 to **Alfred Hugh Guy, Jr.**, in Melbourne, Australia, on July 15. They will live in Melbourne, where Freddie is a player-coach with the Victoria Basketball Association, until December when they will return to the States to attend graduate school. . . .

Betty Marie Bounds to **Barry Northcutt** in Alabaster on Aug. 12. . . . **Linda Ann Bailey** to **Paul Burton Sigrest** in Auburn on Sept. 2. Paul is currently a doctoral student at Auburn holding a NASA Fellowship. . . . **Susan Jane Marsh** '67 to **Michael L. Edwards** in Pinson on Aug. 25.

(Continued on next page)

Alumni In The News

G. E. Nichols '58 received a doctorate in accounting at LSU in August and is now assistant professor of accounting and computer science at Michigan State University. His wife Dorothy Smith Nichols '59 has received her M.S. in sociology from LSU and is working toward a Ph.D. at Michigan State. They have a three-year-old son, Jack Randal. **Gerald G. McGlamery** '59 has been transferred and assigned as an evaluation analyst in the economic evaluation section of Monsanto's textiles division in Decatur. He and his wife Barbara have two sons.

Glass Blowing Resists Machines

Kaye Lovvorn '64
Assistant Editor

Few productions remain so little affected by the machine as the making of the finest glassware. Machines can produce milk bottles and mayonnaise jars, but the finest crystal or most precise equipment continues to come—as it did centuries ago—from the end of the blower's tube. The glass blower, using the skills first perfected between 300 and 20 B.C. by Egyptians and Phoenicians, aids the scientific age by making the scientific equipment for elaborate experiments with a skill immeasurable in a lab and unattainable with a machine.

Such an artist has a laboratory in the Auburn Chemistry Building. There, Gene Nelson, university glass blower, turns pyrex glass tubing into works of art that are also works of scientific import. His creations are unique

and complicated pieces of scientific equipment, frequently blown from a catalog picture or a hastily-sketched design to meet the rush needs of a department project.

A simple job for the artist has the fascination of magic to a reporter catching him at work. The artist may begin by rotating a length of glass tubing over a flame, heating the portion which he wishes to bend or to expand by blowing. Frequently this is the way Mr. Nelson begins because he usually fashions equipment from clear pyrex glass tubing.

The size of the final product and the amount of expansion required are taken into account by the glass blower as he selects the thickness and diameter of his original tubing. Heating and then bending, turning and blowing the tubing many times, he forms and shapes the desired object before your eyes.

Glass blowing demands time, skill, patience, and an enormous amount of concentration. One flight of fancy may result in a hundred pieces of glass instead of one piece of scientific equipment. Once the blowing is complete, the object is baked in a kiln to harden the fragile-looking glass.

The more elaborate equipment such as a water distillery system may return to the blower's fire again and again for additions of intricate parts. Then it, too, goes into the kiln to make it as hard to break as possible.

One of two professional glass blowers in Alabama, Mr. Nelson is the only one with a university (the other works with Redstone Arsenal). Other glass blowers may blow the same item again and again, but Gene's versatility is in constant demand. One day he creates the first glass rat holders for the Physiology Department. The next day he may blow an elaborate water distillery system for the Chemistry Department. On his desk are orders for equipment from the Physics Department and the Textile Department. Nearby a cardboard box piled high with broken equipment from undergraduate chemistry labs awaits repairs.

Gene's value to the university is outstanding in both time and money. When a \$50 piece of laboratory glassware breaks, universities without a glass blower must toss it in the trash can and replace it. Here, Mr. Nelson repairs it. When a graduate student needs glass equipment to finish his research to write his thesis in time for graduation, he saves precious days because Gene can make the vessel.

Gene grew into his unusual occupation by accident—plus a lot of hard work. Nine years ago, soon after he began working in the Chemistry Department as a stock clerk, Gene noticed Dr. James E. Land making glass repairs. Several questions and a few burned fingers later, he was his way to a career. He drove in from Dadeville (where he grew up and still lives) hours earlier in the morning to work with glass, spent his lunch hours with a blow tube, and stayed after work to learn to blow glass. Eventually Dean Charles Saunders of the School of Chemistry sent him to Georgia Tech for a year's study with a professional glass blower. He returned to Auburn as university glassblower.

Anxious to perpetuate the skills of glass blowing, Gene, using a text he has written, teaches a special glass blowing course for chemistry graduate students who find some knowledge of glass blowing advantageous now and almost a necessity once they leave Auburn and Gene's skills are no longer available.

SIMPLIFIED GLASSBLOWING—University Glassblower Gene Nelson really simplifies glassblowing in this series of pictures. First he heats the glass tube over a gas oxygen fire. After pulling the heated glass in two pieces, he then . . .

BEGINS TO BLOW—With or without a blower's tube the principle is the same and as he blows the molten glass expands . . .

AND EXPANDS—until it becomes a huge, paper-thin glass bubble. Note the picture at the top of the page for something a bit more advanced.

ALUMNALITIES—Continued

Simpson (Kathryn Harman) of Auburn on March 16 . . . A daughter, Cynthia Babette, to 1/Lt. and Mrs. Joseph B. Turner (Cynthia Kitchens '67) on May 20. The Turners live in Jacksonville, N.C., where he is stationed with the Marine Corps . . .

A son, Barry Scott, to Mr. and Mrs. Turley Wayne Ready (Betsy Elizabeth Brock) of Huntsville on July 2 . . . A son, William Joseph, III, to Mr. and Mrs. Bill Alverson, Jr., of Opelika on Aug. 4 . . .

A son, Wade L., III, to Lt. and Mrs. Wade L. Ward of Minot AFB, N.D., on June 1. Lt. Wood has been accepted in the University of North Dakota Graduate School for work toward a master's in industrial management . . .

A daughter, Kathryn Dain, to Lt. and Mrs. James T. Goodwin (Niena Williams) of Beale AFB, Calif. . . . A daughter, Amy Susan, to Mr. and Mrs. James Marvin McCullough (Frances McClendon) of Moulton on July 30 . . .

A son, Donald M., Jr., to Mr. and Mrs. Donald Richard (Beverly Whitman '64) of Enterprise on May 13 . . . A son, Mark Duane, to Mr. and Mrs. Cecil Murphy, Jr., (Sue Lovelace '64) of Monroeville on Aug. 26. Cecil is a claims adjuster with Alabama Farm Bureau Insurance and Sue teaches at Monroeville Elementary School . . .

A son, Patrick Knox, to Mr. and Mrs. Herbert K. Payne, Jr. (Nancy Whiteside '64). Herb is now associated with Commercial Carpets Corp. in Calhoun, Ga., as director of industrial engineering for Commercial Broadlooms Inc. and Georgia Dye Co. . . . A son, Scott Alan, to Mr. and Mrs. Steven A. Fellows of Fort Collins, Colo., on June 25.

BORN: A daughter, Audrey Isabelle, to Mr. and Mrs. L. Hugh Hiott, Jr., of Charleston, S.C. on July 11. Hugh is a mechanical engineer in the nuclear power division of the Charleston Naval Shipyard . . .

Alumni In The News

Connolly Wilson

George R. Connolly '61 has joined the staff of Bonner & Moore Associates, Inc., Houston, Tex., consultants in computing technology and management sciences. Mr. Connolly, who was formerly with GE Apollo Support Department, is a member of the programming systems division.

Capt. Fred A. Wilson '61 has been decorated with six military medals at Moody AFB, Ga. Capt. Wilson was awarded the Distinguished Flying Cross and five Air Medals for action in Southeast Asia as an F-105 Thunderchief pilot. Capt. Wilson is presently a T-38 Talon instructor pilot at Moody.

A son, Jon David, to Mr. and Mrs. Jon P. Kirkham of Nashville on July 25 . . . A daughter, Charlotte Michelle, to Lt. and Mrs. Charles Mitchell Ryland (Frances Doughman '66) of Macon, Ga., on Sept. 11 . . . A son, Thomas Lee, to Mr. and Mrs. Donald Evan Crow of Alexandria, Va., on Oct. 1. Evan is a photographer with the Library of Congress . . .

A son, James Brent, to Mr. and Mrs. Jim Price (Jean Bodine '64) of Birmingham on Oct. 1. He joins big brother Bo, 3½ . . . Second child, Dean, to Mr. and Mrs. L. Rodney Addison (Barbara Mawhinney '67) of Toledo, Ohio, on Oct. 1. Big sister Cheryl is 16 months old. Rodney recently transferred to Toledo with Owens-Illinois, Inc. . . .

A son, Horton Scott, to Mr. and Mrs. J. C. Parmer, Jr., (Ann Lisenby) of Panama City on Oct. 6. J. C. is hospital administrator at Lisenby Hospital in Panama City . . . A son, Norman Neal, III, to Lt. (jg) and Mrs. Norman N. Klaze, Jr., of Suitland, Md., on Nov. 2.

'66 WHERE THEY'RE WORKING: Michael H. Cochran, Texas State Department of Health in San Angelo, Tex. . . . David C. Golden, engineer with North American Rockwell Corp. in Anaheim, Calif. . . . Mr. and Mrs. Don C. Mitchum (Ellen Butler '66) now live in Birmingham where he has been transferred with Pure Oil Co. . . .

Sam Gentry, Jr., First National Bank in Birmingham, with the junior executive program . . . Ronald Glenn Hall, with Georgia Power Co. in Carrollton, Ga. . . . Bobby Earl Ledford, Georgia Power Co. in Columbus . . .

Judith Gregory is in graduate school at the University of Alabama . . . Tom Dignam is in insurance and real estate in Englewood, Fla., where he is new exalted ruler of Elks Lodge No. 2378. His wife Annette Pope teaches at Lemon Bay School. They have a son, David, 14.

Peggy Sue Dean, assistant home agent in Calhoun County . . . Hazel Thompson teaches at Ft. Benning, Ga. . . . Viola Kerr Whaley teaches in Phenix City . . . Alan J. Bohlert is football line coach and head swimming coach at Connetquot High on Long Island. His wife Carol Ann Miller '67 teaches in West Islip, N.Y., where they live . . . Fred and Gloria (Kirksey) Stephens live in Cusseta, Ga., where they teach . . .

Marsha S. Menne and her husband attend graduate school at FSU . . . J. L. Kimbrough transferred to Atlanta Corrugated Box plant with Union Camp . . . Peter Wang, teaching assistant at the University of Texas . . . E. Garth Jenkins has been named executive director of the Kappa Alpha Fraternity. He had been assistant director since January . . . Danny Belk, Rust Engineering Co. in Birmingham . . .

E. Berry Benson, NDEA Fellow in geography at the University of Tennessee . . . Cecil Foster, assistant coach at Pike County High in Brundidge . . . Thomas F. Beasley completed requirements for an M.S. in mechanical engineering at Auburn in mid-October and is now with Boeing in Huntsville. His wife Kay Buzbee teaches at New Hope High . . .

TWO GENERATIONS—These four members of the Appleton family are staunch Auburnites and leaders in the poultry industry. W. H. "Big Buck" '22 (second from left) established the Southland

Hatchery at Collinsville in 1928. B. W. "Little Buck" '34 (third from left) took over the management of the business in 1948 and has been joined by his sons, Tommy '61 (left), Stanley '65 (right).

Frank Conort, Jr., assistant budget officer for the State of Georgia Health Department in Atlanta . . . Judith Gardner Schmidt teaches third grade in Orlando, Fla. . . . Walter Nivens, Bibb Manufacturing Co. in Macon, Ga. . . . John H. Orr, Georgia Power Co. in Decatur . . .

WITH THE ARMED FORCES: Lt. William G. Pouncey, Jr., stationed at Ft. Sill, Okla. . . . Lt. James A. Pelli, Jr., student at training squadron nine, Naval Auxiliary Air Station in Meridian, Miss. . . .

A/2C Frank M. Clark is assigned to an Air National Guard unit at Maxwell AFB after completing a communications repairman course at Sheppard AFB, Tex. . . . 2/Lt. Donald N. Holley is assigned to an Air Force support unit at Cigli AB, Turkey, after completing a training course at Keesler AFB, Miss. . . .

A/3C Richard H. Shelton, III, is on duty at Da Nang, Vietnam . . . Ens. Michael T. Tuley in submarine school at the Naval Submarine Base New London, Conn. . . . 2/Lt. John W. Wells, Jr., a NASA Fellowship graduate student in mathematics at Auburn, was recently promoted to first lieutenant with the Marine Corps.

2/Lt. James B. Long, completed a missile maintenance officer course on Oct. 13 at the Army Missile and Munitions School at Redstone Arsenal . . . 1/Lt. William R. Pittman, Jr., with the 4th Infantry Division in Vietnam . . . Lt. George C. Hitt is currently in Vietnam. . . .

Robert Hawkins, Ft. Ord, Calif. . . . Dale I. Garrett, Ft. Gordon, Ga. . . . Averette J. Kelley, Ft. Leonard Wood, Mo. . . . 2/Lt. Dale Fish completed officer basic course at Ft. Knox, Ky., in August . . . James R. Wilkerson at Ft. Leonard Wood, Mo. . . . William K. Wright, Ft. Monmouth, N.J. . . . Ens. Nicholas C. Carbone, Sanford NAS, Fla. . . .

1/Lt. Janet A. Schwieker is stationed with 249th General Hospital in Japan . . . D. J. Krahwinkel, veterinary surgeon with the Air Force School of Aerospace Medicine . . . Capt. Ben R. Stallard, stationed in Germany . . . James A. Disco, Ft. Hua-

chuca, Ariz. . . . 2/Lt. William F. Armstrong recently completed OCS at Ft. Benning, Ga. . . .

Lt. James B. Turman, Craig AFB . . . 2/Lt. Howard W. Land recently finished pilot training at Craig AFB . . . 1/Lt. Thomas M. Lindsey, USMC, is now stationed at Santa Anna, Calif., flying a helicopter. He will go to Vietnam in December . . . Charles Michael Reichley is stationed at Tobyhanna, Pa. . . .

1/Lt. William M. McCowan, Jr., is serving with the Army 1st Infantry Division near Di An, Vietnam . . . Wilbur B. Kelley, Jr., recently graduated from Air Force technical school at Keesler AFB, Miss. . . . 2/Lt. William F. Horton stationed at Dyess AFB, Tex. . . . 2/Lt. Robert E. McKelvey stationed at Ft. Belvoir, Va. . . . 2/Lt. Roger W. Walker, Jr., has completed pilot training at Laughlin AFB, Tex. . . . 2/Lt. Frank M. Waid, completed pilot training at Craig AFB.

MARRIED: Sandra Ellen Yates to Kermit Jerrell Little in Sylacauga on Sept. 16 . . . Sally Yeaman to Ens. Oliver Dowling Kingsley, Jr., in Florala on Oct. 8. Ens. Kingsley is serving with the Navy at New London, Conn.

Betty Lee Hollinger to James Newman Holloway, Jr., in Camden on Sept. 16 . . . Mary Garvin Radcliffe to James William Ramsey in Greensboro, N.C. on Sept. 30. James is with Burlington Industries, Inc., as a production management trainee . . .

Diane Elizabeth Grant to James Perry Cole in Temple, Tex., on Aug. 19. They both teach in Killeen, Tex. Guynelle Dillard to Wilmer M. Oliver in January. They live in Baton Rouge . . . Jeanne Scott Hansen '69 to Dr. Ronald M. Russell in Mobile on Aug. 13. Ron is working with the Communicable-Disease Center of the U.S. Public Health Service in Atlanta . . . Emma Harriet (Cookie) Faulk to Billy G. McCallister in Enterprise on June 10. They live in Norfolk, Va. . . .

Jeanne Elizabeth Moon '67 to Brian Robert Marsh on Sept. 23 in College Park, Ga. . . . Rosa Cofer to William F. Armstrong on Sept. 2 in Jemison . . . Charlotte Anne Beard to Terry Boy-

kin Cooper in Gadsden on Oct. 22. Terry is a third year medical student at the University of Alabama Medical College . . . Elizabeth Anne Weber to Kelly Curenton '68 in Atlanta on Aug. 24 . . .

Billie Ann Wolfe to James H. Hood, Jr., on Aug. 5. They live in Birmingham where he is employed with Jefferson County . . . Sheryl Causey '67 to Benjamin Lee Schoenfeld on Oct. 28 in Midfield . . . Susan Baer '67 to Robert Dow. They live in Birmingham where he is with Liberty Mutual Insurance Co.

BORN: A daughter, Susan Carole, to Mr. and Mrs. Thomas L. Wellborn, Jr., of Auburn on Aug. 13 . . . A son, Thomas Christopher, to Mr. and Mrs. Thomas H. Stubbs (Mary Lou Quarles '66) of Birmingham on June 3 . . .

A son, John Tyler, III, to Mr. and Mrs. John T. Morgan, Jr., of Fort Walton Beach, Fla., on Sept. 7. He joins sister, Bonnie Beth, 13 months . . . A son, Michael Charles, to Lt. and Mrs. James M. Schwindle (Ann Bailey '67) of North Highlands, Calif., on April 28. James is stationed with the Air Force at McClellan AFB . . .

A daughter, Leigh Shannon, to Mr. and Mrs. John A. Webster of Montgomery on Aug. 31 . . . A daughter, Nora Virginia to Mr. and Mrs. Thomas G. Edwards of Auburn on Aug. 30 . . . A daughter, Karon Michelle, to Mr. and Mrs. Roy R. Riddle, Jr. (Brenda Armstrong) of Fort Worth, Tex., on Sept. 12 . . .

A son, Terry Glenn, to Mr. and Mrs. John Edmond Sollie of Mobile on Aug. 16. Edmond is an electrical engineer with Alabama Power Co. . . . A son, James Duberly, III, to Mr. and Mrs. James D. Ray of Americus, Ga., on Sept. 18. . . . A son, Mark Howard, to Lt. and Mrs. Charles Howard Webb of Auburn on Oct. 22 . . . A son, Richard Micale, to Mr. and Mrs. Wayne Burge of Auburn on Oct. 13 . . . A son, Douglas Meacon, to Mr. and Mrs. Ira C. Lovelace, III (Ann Thomas) of Birmingham on July 6 . . . A son, Charles Todd, to Mr. and Mrs. Larry Charles Rogers of Prattville on Oct. 13.

ONE REASON FOR HIGH SPIRITS—This year's cheerleading squad had an exciting team to back. Adding their own enthusiasm on the front row, left to right, are Anne Gardner, Montgomery; Anne Jacobs, Birmingham; Phil Phillips, Birmingham; Carol Jehle, Montgomery; Markie Robinson, Co-

lumbus, Ga.; and in back row, Mike Ferniany, Mobile; Dennis Haynes, Birmingham; Marilyn Krieger, Birmingham; Barney Tubbs, Birmingham; Greg Boring, Shreveport, La.; Jeannie Clayton, Birmingham; Mike Robinson, Columbus, Ga.

ALUMNALITIES—Continued

A daughter, Amy Karol, to Mr. and Mrs. Roland Walker (Peggy Skilling '64) of Birmingham on July 4 in Schenectady, N.Y.

'67 WHERE THEY'RE WORKING: Darrell Jordan, Northwest Orient Airlines, Detroit, Mich. . . . Dennis Balduf, D.V.M. with American Cynamid in Atlanta . . . Dr. Joseph C. Cooney, (Ph.D.) U.S. Public Health Service, Columbia, S.C. . . . Earl F. Mitchell, First Federal Savings and Loan in Opelika . . .

James R. Plant, Upjohn in Los Angeles, Calif. . . . Edward Ruffner, J. C. Penney, Chattanooga, Tenn. . . . Evelyn Conway, librarian, Chilton County Board of Education . . . Neill Faucett, Arthur Andersen & Co., Atlanta . . . Larry Morgan, Good-year in Gadsden . . . William Hamrick, Alabama Department of

Conservation at Jackson . . . Sherry Scott teaches in Columbus, Ga. . . . Kenneth H. Laurendine, Pfizer Laboratories in Birmingham . . . Donald Stiles, Fuller Lumber Co. in Haleyville . . .

Huey C. Barrett teaches at Mellow Valley High in Cragford . . . Mary King Poucher teaches in Opelika . . . William Dean teaches at Fairhope . . . Shelia O'Connell, programmer with National Cash Register in Columbus . . . Stephen Abbott, McKesson & Robbins in Columbus . . . Rudy Baxter teaches at Wildwood (Fla.) High . . .

William Meadows, West Point Pepperell Inc., Charlottesville, Va. . . . Dottie Waldrup, Peace Corps Volunteer in Malaysia . . . Robert Smelley teaches at North Gwinnett High in Suwanee, Ga. . . . John L. Bailey, Lockheed Aircraft in Marietta, Ga. . . . Duncan Roberts, III, Western Electric in Winston-Salem, N.C. . . .

Dr. James C. M. Yu (Ph.D.), assistant professor of mechanical engineering at Auburn . . . Joseph Monzella, III, M & M Construction Co. in Birmingham . . . James A. Todd, Prudential Insurance Co. in Gadsden . . . Jimmy Stone, U.S. Pipe in Birmingham . . . Michael Hamlet teaches at Rockford . . . Michael Kilpatrick, University of Alabama Dental School . . . Jeffrey Robinson, Boeing in Huntsville . . . Don Rhodes, City Lumber Co. in Bremen, Ga. . . .

Roy Krag, Levitt & Sons, Inc. in Lake Success, N.Y. . . . Doice Smith teaches at Ragland (Ala.) High . . . Arthur W. Dennis (Ed. D.) superintendent of Cullman City Schools . . . Raymond Stanland, Jr., instructor with Auburn Architecture Department . . . Roy Hancock, International Harvester in Louisville, Ky. . . .

Charles Melvin Howse, International Paper Co. in Panama City, Fla. . . . James Powell, J. P. Stevens & Co. in Greer, S.C. . . . Josephine Highfield (M.Ed.) teaches at Sylvania (Ala.) High

Robert Atchison, Lybrand, Ross Brothers & Montgomery, in Birmingham . . . Dianne Routon teaches at Gentian School in Columbus . . . Jane Vinson teaches in Langdale . . .

Robert Scroggins, Westinghouse Electric in Pittsburgh, Pa. . . . Luther Williams, nurseryman in Marietta, Ga. . . . Dr. Seth Young, III, University of Arkansas in Fayetteville . . . Alton Thompson, U.S. Steel in Fairfield . . . John McKay (M.Ed.) counselor at Valley High in Fairfax . . . Leslie Clisby teaches in Hueytown . . . Linda Harmon Meigs teaches in Chambers County . . . Michael G. Thomas teaches at Mountain Brook High in Birmingham . . .

Nadine Shipp is home economist with Sand Mountain Electric Co-op in Rainsville . . . Paul DeMent, General Constructors in Decatur . . . John B. Wood, Jr., Wire Products Co. in Birmingham . . . Lee Stovall, Arthur Andersen & Co. in Atlanta . . . Robert Albertson, supervisor with the Elmore County Board of Education . . . Martha Burkett teaches at Hueytown (Ala.) High . . . Lyra Wadsworth Dickerson teaches in Columbus, Ga. . . .

James Cornelison, Ampex Corp. in Opelika . . . Larry Dow, Chrysler Space Division in Huntsville . . . Gerry Parker, pharmacist with Barnett Pharmacy in Florence . . . John Marvin Forrester, City of Dothan . . . William Kay Stillwell, student at the University of Alabama School of Law . . .

Ryan Carter Warren teaches in Jacksonville, Fla. . . . Jerry Wickerson teaches at Blountsville (Ala.) High . . . Joseph T. Carpenter, attends University of Alabama School of Law . . . Rueben Edward Prater, ARO in Tullahoma, Tenn. . . . Mildred Rowe Sanders (M.Ed.) teaches third grade in Cullman . . .

Amelia Smith Moore, Auburn English instructor . . . Bill Sim, NASA in Huntsville . . . James McKnight, NASA in Huntsville . . . Walter Giddens, contractor and salesman for U.S. Steel homes and apartments in Auburn . . . Ronald Sharit teaches in

Center Point . . . Virginia Stewart, speech therapist with the Muscogee County (Ga.) Schools . . . Frances Meeks (M.Ed.) school lunch supervisor for Montgomery County . . . Dan Church, Ingalls Shipbuilding in Pascagoula, Miss. . . .

Douglas T. Owens teaches in Montezuma, Ga. . . . Betty Turney, NASA in Huntsville . . . Raymond McClendon, McClendon Trucking Co. in LaFayette . . . Sherye White, Pizitz Dept. Store in Birmingham . . . Henri Lou Coleman, instructor at Jefferson State Jr. College in Birmingham . . . Edward Lewis, Shell Oil Co. in Atlanta . . .

Robert Ellis Waggoner (Ph.D.), manager of technical service for Gland-O-Lac Co. in Omaha, Neb. . . . Shirley Hughes Griggs (M. S.) English instructor at Enterprise Jr. College . . . Susan Irvin teaches in Opelika . . . Richard G. Deemer, Jr., Arthur Andersen & Co. in Atlanta . . . Carey Cooper, Joe Cooper Agency in Huntsville. . . .

Dan Hudson teaches art at Fitzgerald (Ga.) High . . . Larry Cowart, Massengill Co. in Bristol, Tenn. . . . Stanley R. Gembors (Ph.D.) assistant professor of biology at Hampden-Sydney College . . . Mabel Chandler (M.Ed.) teaches in Auburn . . .

Albert Ward, Tampa Electric Co. in Tampa, Fla. . . . Raymond Patrick Power, Woolworth, in Lakeland, Fla. . . . Gary Snipes, D. M. Lewis Architects in Little Rock, Ark. . . . Delmar Towery, NASA in Huntsville . . . Daniel Ross, U.S. Steel in Fairfield . . .

Marion F. Patrick teaches in Auburn . . . William Oransky (M. A.), puppeteer with Nicolo Marionettes in New York City . . . Haron Baynes, Georgia Power in Waynesboro, Ga. . . . Gerd Zeiler, pharmacist with Liggett Drugs in Cocoa, Fla. . . . Georgia Caldwell teaches in Columbus . . . Herbert Neff (Ph.D.) associate professor of electrical engineering at the University of Tennessee . . . Paula Walker teaches in Quincy, Fla. . . . Rex H. Dickey (M.A.) minister at Lakeview Baptist Church in Auburn . . . James Rollins, Georgia Power in Macon . . . George Owens teaches in Washington County, Fla. . . .

Alumni In The News

Hawkins

Akin

Billy J. Hawkins '60 was appointed district manager for DeKalb Agriculture Association in Louisiana on Aug. 1. Billy, Charlene, and Charles make their home on Route 1, Hammond, La.

Chris Akin '66, former "Miss Auburn" and "Miss Football, USA" and now a graduate student at the University of Alabama, has been nominated by the Montgomery Altrusa Club for inclusion in the 1967 edition of "Outstanding Young Women of America."

ALUMNALITIES—Continued

Charles B. Jackson, McDonnell-Douglas, St. Louis, Mo. . . . Cynthia Lindsay, Ebsco in Birmingham. . . . Barry Wilson, Batt's Apothecary in Huntsville. . . . Walter Wheeler, James & Harris C.P.A. in Jacksonville, Fla. . . . Mary Alford teaches in Acworth, Ga. . . . Jack Littleton, student in the University of Georgia School of Law. . . .

Gene L. Bieber (Ph.D.), assistant agronomist at Mississippi State University. . . . Daniel Farmer, Alabama Power in Eufaula. . . . Jim Slay, L. Paul Kasouf & Co., Birmingham. . . .

Alan L. Berzett, with John Deere Co. in Albany, Ga. His wife Mary Elizabeth is with the Dougherty County Schools. . . . Robert Johnson, Jr., 3M Co. in Decatur. . . . Mrs. Mabel Caley Kelley (M.A.) teaches in Selma. . . .

Thomas Fibbe coaches at Fort Valley (Ga.) High. . . . Wilson Wattenbarger, Jr., Fairview (Tenn.) Elementary School. . . .

James Thomas Pruitt, Holloway & Humphrey Pharmacy in Birmingham. . . . Mary Frances Miller and Ann Overton teach in Columbus, Ga. . . . Elizabeth Stigler, graduate school at the University of Minnesota. . . . Camille Littleton, Athens (Ga.) Daily News. . . . James S. Campbell, SPACO in Huntsville. . . .

Richard Conner, Nolin Manufacturing Co. in Montgomery. . . . Jimmy Collins, partner with his father at Cusseta. . . . Patrick O'Brien, graduate student at Auburn. . . .

Robert G. Gaines teaches in Cartersville, Ga. . . . John S. Roberts, 3M Co. in St. Paul, Minn. . . . Paul Burnes in Niles, Ill. . . . Anna Reinhart teaches in Mobile. . . . Donna Pruett, graduate student at the Tulane School of Social Work. . . . Declan Huber, veterinarian in Youngstown, Ohio. . . . Sally Sutter, IBM in Birmingham. . . . Martha Maynor, Peace Corps trainee on Udot Island in the Truk Atoll of the Caroline Islands. . . . Richard Dean, with Dean, Pursell & Gardner, Architects, in Jackson, Miss. . . .

Judy Carolyn Grogan teaches in Columbus, Ga. . . . Robert Sprayberry, Alabama Power Co. in Talladega. . . . Thomas Horn, Jr., Ernst & Ernst in Birmingham. . . . Wayne Taylor, research with the University of Missouri Department of Veterinary Pathology. . . . Walter Messer, Swift Mfg. Co. in Columbus, Ga. . . . Ronald Swann, Celanese Corp. in Narrows, Va. . . .

Richard Lutze, IBM in Baton Rouge, La. . . . Dale Pass (M. Ed.), principal in Marietta, Ga. . . . Barbara Gail Watkins teaches in Columbus, Ga. . . . William J. Stewart, veterinarian, Sparta, Tenn. . . . Adley G. Sturkie, organist in Columbus. . . .

Pittmans Partners In Vet Medicine

Well-known Whiteville, N.C., veterinarian Daniel William Pittman, Sr., '38 has a new partner in his practice. The partner is his son Daniel, Jr., who graduated from Auburn in June. Dan's mother is Margaret Harris Pittman '38. The new veterinarian and his wife Peggy have a three-year-old daughter, Margo Lynn.

Klaus Dannenberg, graduate student in AU Electrical Engineering Department. . . . Nan Rainwater, graduate assistant in history at AU. . . . Richard Umbach, University of Alabama School of Dentistry. . . . Margaret H. Moorer, consultant dietitian in Evergreen. . . . Charles H. Morris, student at the University of Alabama School of Law. . . .

William D. Arnold veterinarian in Atlanta. . . . Sylvia Bridgewater, student at the Emory University's Candler School of Theology. . . . Thelma Braswell, teaches in Montgomery. . . . Judy Bess Robinson (M.S.) State Department of Education in Montgomery. . . . Sandra Lee Heyrock, Weil-Armistead in Montgomery. . . .

Sara Beth Seay, piano and organ teacher in Opelika. . . . Laurie Watson teaches in Bessemer. . . . Fay Ferrell Williams, graduate student at Auburn. . . . Ann S. Nix, teaches in Birmingham. . . . John Kandarakis (M.S.) North Florida Junior College in Madison, Fla. . . .

Arthur David Hayes, veterinarian in Bessemer. . . . Ben S. Lanham, III, University of Alabama School of Law. . . . Jerry Hall, self-employed in Wadley. . . . Martha Humphrey, teaches in Huntsville. . . . Larry Teel, Sears in Eufaula. . . . Roger Fowler, Parkview Drugs, Inc., in Mobile. . . . Maggie Allison, teaches in Columbus, Ga. . . .

Russell Spicer, Avco Electronics in Huntsville. . . . Becky Metcalf teaches in Dothan. . . . Barbara Pearson teaches in Columbus, Ga. . . . Sandra Smith, secretary at the NIKE-X Project Office in Huntsville. . . . Ted Lee, graduate student at Notre Dame. . . . John Riley, graduate assistant in History at Auburn. . . . Nancy Hayes teaches in Hapeville, Ga. . . . Gary Randal Price, Sears in Atlanta. . . . Ben McDavid, Candler School of Theology at Emory University. . . . Bobbie Peebles teaches in Pensacola. . . .

Gerald Rainey, graduate student at Auburn. . . . Thomas L. Markham (Ph.D.), assistant professor of mathematics at the University of North Carolina in Charlotte. . . . Janet Reid, graduate student at Auburn. . . . J. Newton Bates, business with father in Waycross, Ga. His wife Connie is a librarian at the Okefenokee Regional Library. . . . Richard Wilson, Jr., with Willey Pontiac in Birmingham. . . . Bogue R. Miller with U.S. Steel in Fairfield. . . . Marshall Lovein, Maxson Electronic Corp. in Macon, Ga. . . . Richard Goodwin, graduate school at Auburn. . . . Susan Rowell, editorial assistant, AU Extension Service. . . . Mary Alice Williams teaches in Columbus. . . .

Sterling K. Eisiminger, Jr., graduate student in English at Auburn University. . . . Maurice E. Pate, TVA in Greenville, Ky. . . . Gladys Stamps teaches in Newnan, Ga. . . . 2/Lt. **Thomas F. Bridges**, Scott AFB, Ill. . . . 2/Lt. **James Ekiss**, Ft. Knox, Ky. . . . Capt. **Charles William Byron, Jr.**, Ft. Wolters, Tex. . . . Lt. **Thomas L. Ross, Jr.**, Lt. **Donald M. Tye**, Lt. **Herbert W. Brown**, and Lt. **George A. Kell** have graduated from OTS at Lackland AFB. Tye and Ross have been assigned to Williams AFB, Ariz., Brown to Eglin AFB, Fla., and Kell to Wright-Patterson AFB, Ohio . . . 2/Lt. **Mack Atkinson**, safety officer, Seymour Johnson AFB, N.C. His wife **Mary Ruth Brown** teaches at Cherry State Hospital Children's Unit in Goldsboro.

IN GRADUATE SCHOOL—At Auburn: **Ethel Sell Vaughan** in psychology . . . **Alan Wright**, business administration . . . **John Bryan Lawson**, civil engineering . . . **Rozlyn Adams**, education . . . **James Carlton Dukes** (M.S.), entomology . . . **Gerald William Hause, Jr.**, business administration . . .

Elsewhere: **Jean Ash** and **Suzanne Hempleman**, in social welfare at Florida State University . . . **John T. Schell, III**, law school at the University of Virginia . . . **James Roberts Stephens**, University of Alabama Dental School . . . **James Whitney Compton**, University of Alabama Law School.

Auburn: **Bobby Morrow** in business administration; **Joseph F. Higgins, Jr.**, in English; **Sandra Martin Dunbar** in Speech; **David Lucas** in economics; **Arthur Neal Harrison** (M.S.), NDEA Fellow in botany and plant pathology.

Ronald L. George and **William Dyess, Jr.**, in aerospace engineering; **David Black** in English; **James E. Perry** in mathematics; **Frances Lowery** in education; **Beth Crawford Powell** in guidance and counseling; **William Oliver, Jr.**, in electrical engineering.

Vernon Wells, II, business administration; **Sam Adams** in

MISS DECEMBER—On the Auburn Union calendar is Susan Janet Mitchell, a senior in Elementary Education from Lineville. That smile has to mean a "Merry Christmas" to Alumnews readers.

Chemistry; **Anthony DaMommio** (M.S.) plasma physics; **Barbara Wilhelm Krause**, history; **Patricia Newman Hill** (M.A.), English; **Mary Ann Rhodes** in mathematics; **Winfred Ashley Foster, Jr.**, aerospace engineering.

At Ohio University, **Martha Ann Johnson** (M.A.) in speech . . . At Florida State University, **Benjamin Franklin Caldwell** (M.S.) in mathematics, and **William Paul Barnard** in zoology . . . At Vanderbilt, **David Charles Martin** in history . . .

At the University of North Carolina, **Edith Floyd Shewell** in German . . . At the University of Texas, **Janis Gregor** . . . At University of Florida, **G. Harris Thaxton** in chemical engineering . . . At University of California at Berkeley, **Patrick Yeung** in chemistry . . . At Clemson, **William A. Lindstrom** in physics.

MARRIED: **Suzan Jean Webster '70** to **John Russell Ellison** in Auburn on Sept. 9. They live at Edwards AFB, Calif., — where John is assigned to the Air Force Rocket Propulsion Laboratory . . . **Sue Karen Stapp '69** to **Joseph Patrick O'Brien** on Sept. 9. Mr. O'Brien is a graduate student in agricultural economics at Auburn . . .

Anne Marie Wolfe to **David Telfair Peet** in Albany on Dec. 2 . . . **Emma Carolyn Draper** to **Robert Jeffrey Green** in Columbia, S.C., on Nov. 4 . . . **Carolyn Eugenia Martin** to **Thomas Lester Barnes** in Dothan on Nov. 24. They teach in Ft. Valley, Ga. . . .

Grace Ann Harrison to **Edward Ewing Beard** on July 26. . . . **Karen Ann Lambertson** to **Lawrence Alan Wright** in Montgomery on Aug. 26. . . . **Faye Thorsby** to **Marshall E. Lovein** on Aug. 19 in Tucker, Ga. . . . **Kay Ellen Ivey** to **Benny Allan La Ravia** on Aug. 12 in Camden. They are living in Wichita Falls, Tex. . . .

Linda Ruth Noble to **John William Lange** in Huffman on Aug.

26. . . . **Norma Carol Blevins** to **Joseph Edgar Aldy** in Ensley on Sept. 2. . . . **Charlotte Pierce '65** to **James P. Bell, Jr.**, on Aug. 26 in Birmingham. James is doing graduate work at LSU. . . . **Betty Lynn Seale** to **Edwin Paul Stanley** in Leroy on Aug. 12. . . .

Linda Sue Gordon to **John N. Pozadzides** on Aug. 25 in Fairfield. . . . **Verona Ann Johnson '66** to **Ronald Levoy Byrd** in Auburn on Aug. 24. . . .

Mary Donna Kitchens to **Jerry Dwight Hall** in Roanoke on Aug. 16 . . . **Karen Claire Edney** to **John L. Faulkner, II**, in Birmingham on Sept. 2 . . . **Carol Lynn Baker** to **Joseph B. Monzella, III**, in Birmingham on Sept. 12 . . . **Billie Jean Gentry** to **Joe Frank Davidson** in Hueytown on Aug. 25 . . . **Carol Wilson** to **Elbert P. Estes, Jr.**, in Montgomery on Aug. 26 . . .

Marion Byrd Knapp '69 to **Stephen Patrick Murphree** in Birmingham on Aug. 5 . . . **Lojovanna June Cassidy '69** to **James E. Rotch** in Fort Payne on Sept. 2 . . . **Martha W. Steiner '66** to **Edward B. Fischer** in Montgomery on Aug. 25 . . . **Carole Ann Fulton** to **Paul Alfred McIntyre** in Birmingham on Aug. 19 . . . **Barbara Ann Keller** to 2/Lt. **Stuart D. Stone** in Palo Alto, Calif., on Aug. 26 . . .

Glenda Jean Heath to **Hugh C. Gracey, Jr.**, in Enterprise on Aug. 19 . . . **Lillian Ann Davis** to **Daniel Eugene Robison** in Dothan on Aug. 12 . . . **Alice Beattie** to **David H. Chisholm** on June 10, in Athens . . . **Pamela Sue Mizell '70** to **Richard S. Bean, Jr.**, in Birmingham on Sept. 23 . . .

Sandra Lynne Knapp to **Darrell Lee Lowery** in Georgiana on Sept. 6 . . . **Bonny McGinnis '69** to **Bogue R. Miller, Jr.**, in Montgomery on Sept. 1 . . . **Celia Cheney** to **Howard W. Ellis** in Oneonta on Oct. 14 . . . **Margaret Evelyn Daily '66** to **Forney Caffey Henderson '67** in Birmingham on Sept. 23. Forney is with U.S. Fidelity and

Guaranty Insurance Co. and Margaret is a secretary at the University of Alabama Medical Center . . .

Joan Marie Sivert to **Monty Dene McKinley** in Birmingham on Sept. 23 . . . **Nora Elizabeth Williams '66** to **George Troup Brazelton, III**, in Auburn on Oct. 16. They are in graduate school at Auburn . . . **Nancy Gail Ray** to **Byron White Belcher** in Brundidge on Oct. 1 . . .

Sandra Hoover to **William Robert Atchison** in Birmingham on Sept. 2 . . . **Mary Lovell** to **Lt. Hugh Dran Harrison** in Birmingham on Aug. 26 . . . **Mary Hyde** to **Charles Melvin Howse** in Hartselle on Sept. 2 . . . **Norene Dowdy** to **Henry Ross Miller** in Newport News, Va., on Aug. 12. Mr. Miller attends Naval OCS at Newport, R.I. . . .

Anne Poythress to **Douglas K. Farver** in Mobile on June 4. Doug is a NASA Fellow in mathematics in the Auburn Graduate School . . . **Linda Carol Skinner** to **James Bernard Collier, Jr.**, on Oct. 28 in Montgomery . . . **Rita Sue Conaway** to Ens. **Ronald Keith Ray** in Troy on Aug. 26 . . .

Barbara Gayle Fuller to **Reuben Edward Prater** in Wetumpka on Sept. 14 . . . **Ada Alice Lanier** to **Lt. Floyd Jeffrey Davis** on Oct. 15 in Auburn . . . **Marilyn Dawn Hogan** to **William Robert Akers** in Birmingham on Sept. 2 . . . **Ellen Dowman** to **Arthur Griffin Atkins** in Decatur, Ga., on Aug. 26 . . .

Jill Banks Weems to **Edward Herbert Dean** and **Jacqueline Woodruff Weems** to **William Frank Morrison** in a double ceremony in Montgomery on Aug. 5 . . . **Susan Love Prince** to **Roy L. Temple, Jr.**, on March 19 . . .

Evelyn Morton to **William Marcus Tuck, Jr.**, on Aug. 25. Bill is a flight test engineer with Boeing in Wichita, Kan. . . . **Gloria Margaret Webb** to **Johnny Lee Malone, D.V.M.**, in Birmingham on Aug. 25. John practices in McMinnville, Tenn. . . . **Susan Bailey** to **Jerald Lee Jindrick** on Aug. 26. They live in College Park, Ga.

BORN: A daughter, **Christie**, to Mr. and Mrs. **James A. Cornelson, Jr.**, of Auburn on Sept. 14 . . . A daughter, **Cindy Auburn**, to Mr. and Mrs. **Ronal Deane Russell** of Birmingham on Sept. 21. Ron is with Cutler-Hammer, Inc. . . . A son, **James David** to Mr. and Mrs. **Joseph Harold Wiltkop** (Doris Dianne Walters '69) of Birmingham . . . A daughter, **Jana Evelyn**, to Mr. and Mrs. **Jack Lane McDuff, Jr.**, of Birmingham on June 25 . . . A son, **Paul Austin**, to Mr. and Mrs. **Paul Austin Harper, Jr.**, of Birmingham on June 23 . . .

A son, **Henry Winston, Jr.**, to Mr. and Mrs. **Henry Winston, Pirtle**, of Montgomery on May 12 . . . A daughter, **Kellie Elizabeth**, to Mr. and Mrs. **Mason Boyd, Jr.**, of Montgomery on Nov. 2 . . . A daughter, **Kimberly Carroll**, to Mr. and Mrs. **James C. Oakley** (Betty Jean Carroll '65) of Indianapolis, Ind., on Oct. 8.

WHERE THEY'RE WORKING: . . . **Nelson Anglin**, Shackelford Pharmacy in Duluth, Ga. . . . **Gary Strength**, West Point-Pepperell in Fairfax. . . . **William T. Gay**, Lockheed Aircraft Corp. in Marietta, Ga. . . . **Charles Sheppard**, Vocational Rehabilitation in Macon, Ga. . . . **James John Johnson** (Ph.D.) associate mathematics professor at the University of Mississippi. . . .
